LACC BUSINESS ADMINISTRATION

Department of Business Administration

ABOUT

The LACC **Business Administration Department** is committed to teaching students the skills needed to succeed in today's local and global business and economic environment and to prepare them to meet the business challenges of the future. We have been preparing students for careers in accounting, business, economics, finance, management, marketing and real estate for over 90 years.

Ranking in the top 20% of all United States junior colleges, LACC offers undergraduate business programs accredited by both the Western Association of Schools and Colleges and the International Association for Management Education.

FACULTY

Our full and part-time faculty comes from a wide range of industries and remains active in the business world to ensure they are current with the latest developments. They have experience in small companies and major corporations and institutions including the World Bank, General Motors, and Bank of America. In addition to actual business experience, our faculty is trained in the art of teaching—breaking down difficult business concepts into more easily understood lessons.

HIGHLIGHTS

All our programs can be completed online in as little as one semester to two years depending on the chosen program. **We are the first and only college in the District to offer a fully online transfer degree, the AS-T in Business Administration, that can be earned in 22 months or less.**

Many of our online courses are offered on a short-term 8-week or 5-week basis which helps students move through our programs quicker than the traditional, full length semester courses. We also offer traditional on-campus day, evening, and weekend courses for those who prefer face-to-face instruction and a traditional 16-week format.
