The School of Business, Science, Technology, Engineering, and Math (BSTEM)

The School of Business, Science, Technology, Engineering, and Math (BSTEM) provides students with a wide range of educational and career opportunities in Business, Chemistry, Computer Science, Earth Sciences, Life Sciences, Mathematics, and Physics/Engineering. The School of BSTEM provides students with a comprehensive education in key disciplines, preparing them for successful careers or further academic pursuits in a rapidly evolving global landscape.

BUSINESS

In the Business pathway, students learn the disciplines of Accounting, Business Administration, Finance and Banking, Management, Marketing, and Real Estate, preparing them for various roles in the business world.

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH (STEM)

The Chemistry pathway prepares students for careers in health care, technology, consumer industries, and environmental management, among others. The Physics/Engineering pathway gives students the opportunity to explore the principles of the physical world and apply them to real-world challenges. Earth Science programs in Geography and Geology provide students with a deep understanding of our planet and its physical processes. The Life Sciences pathways of Biology and Pre-Allied Health prepare students for careers in healthcare, research, and related fields.

The Computer Applications and Office Technologies, Computer Science, and Computer Technology pathways equip students with the skills needed for positions ranging from software development to cybersecurity and administrative support.

Mathematics programs cover a wide spectrum, from foundational math courses to advanced topics like Statistical Data Analytics, ensuring students have the quantitative skills necessary for success in their chosen fields.

ACCOUNTING

OVERVIEW

The demand for qualified personnel in accounting and bookkeeping has significantly increased due to advances in technology and the increased complexity of the business environment. Our programs are designed for students seeking entry-level positions in accounting, auditing, bookkeeping, payroll, and tax preparation, or for those currently employed in the accounting industry who want to upgrade their skills. All our programs are designed to give the student an extensive background in the principles and practices of accounting in the business world. The AA degree offers a more comprehensive curriculum than the certificate programs and prepares the student to transfer to a four-year university and earn a bachelor's degree.

Business Administration

Certificate of Achievement

Major Units: 22
(State Code: 21609; TOP Code: 050100; Academic Plan: C021609D)

The Business Administration certificate of achievement is designed for students who want to work in general business-related fields in both the public and private sector. Students acquire a broad fundamental knowledge of the theory and practice of business and the skills needed to successfully apply their knowledge in a professional environment. The program is structured so it may be completed in two semesters. The program serves as an excellent pathway in to the AS-T degree in Business Administration or the AA degree in Business Administration.

PROGRAM STUDENT LEARNING OUTCOMES

1. Identify how business operates in an international/global environment including legal, social, cultural, and interdependence and integrated financial markets.
2. Analyze the effects of government intervention in the economy.
3. Perform statistical calculations based on business scenarios involving sample space, probability descriptive statistics, frequency distribution, sampling distribution, estimation, and significance tests.

PROGRAM REQUIREMENTS

Requirements for the Business Administration certificate of achievement may be met by completing 22 units of required courses and 3 units of elective courses with a grade of "C" or better.

Economics

Associate in Arts (AA-T) Degree

Major Units: 20-25 Total Units: Minimum of 60

(State Code: 40566; TOP Code: 220400; Academic Plan: C040566G)

The Associate in Arts in Economics for Transfer (AA-T) degree meets the lower division course requirements necessary for the California State University (CSU) system. The Economics curriculum is designed for students who are interested in an encompassing, formal economics education. Upon successful completion of this program, the student will have an extensive background in the principles and practices of economic policy and theory. Students will acquire a broad fundamental knowledge of the theory and practice of economics and the skills needed to successfully apply their knowledge in a professional environment.

Economics is the science that deals with the production, distribution and consumption of goods and services. Economists attempt to understand the economy and the way it responds to various influences such as changes in federal interest rates. While there are many subdivisions in the study of economics, two major ones are macroeconomics and microeconomics. Macroeconomics is the study of the entire system of economics. Microeconomics is the study of how the system affects one business or parts of the economic system.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Use a cost-benefit analysis at the margin to analyze the behavior of economic agents.
- Analyze the workings of the market.
- Analyze the response of the economy to a disturbance.
- Analyze the effects of government intervention in the economy.
- Apply basic concepts of probability and probability distributions to computing probabilities related to real world problems.
- Prepare multiple step income statements, retained earnings statements and report forms of classified balance sheets.
- Solve application problems involving optimization.

PROGRAM REQUIREMENTS

Requirements for the Economics Associate in Arts transfer degree may be met by completing: (a) 14-15 units of major core courses, 3-5 units from "List A," and 3-5 units from "List B" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

FINANCE

OVERVIEW

The Finance curriculum is designed for students who plan to enter entry-level positions in bank telling, bill and account collecting, credit authorizing and counseling, and statistical assisting. In the Finance discipline, we offer a certificate of achievement in Finance and Banking which is designed to give the student an extensive background in the principles and practices of banking and investment in the financial industry.

Our programs have been identified and included in the Federal Deposit Insurance Corporation's (FDIC) Directory of College and University Degree Programs: www.fdic.gov/regulations/resources/cbi/degree.html

The directory reflects the importance of community banks to the nation's economy, and presents an opportunity to identify banking degree programs offered by colleges and universities. The directory also aids prospective students in evaluating their educational and career options, and aids community bankers in identifying and hiring talent.

Retail Management (WAFC)

Certificate of Achievement

Major Units: 24

(State Code: 14232; TOP Code: 050650; Academic Plan: C014232D)

The Retail Management certificate of achievement is an accredited business program by the Western Association of Food Chains (WAFC). The program provides the skills needed to get started or advance a career in the retail industry. The certificate has been recognized as a part of the White House's Upskill Initiative, and leading organizations and foundations including the ACT Foundation and the U.S. Department of Labor.

The certificate of achievement is designed for students who are interested in a career in the retail and service-oriented industry. The certificate is a nationally recognized, accredited college program developed by retail industry experts and community college leaders to prepare retail employees for positions in management. Students who complete this academic program gain the knowledge, skills, abilities, and confidence that empower them to become successful leaders in retail and service-oriented companies. This certificate can be completed in less than one year. For more information about this program or about the WAFC accrediting body, see <http://wafc.com/> and <https://retailmanagementcertificate.com/>

CHEMISTRY

OVERVIEW

Everything in the world involves chemistry. The air you breathe, the food you eat, and the blood coursing through your veins all involve chemistry. It involves the snow on the mountains, the gasoline you put in your car, and the batteries used to run your iPad. A background in chemistry is essential to many high-paying, challenging careers in health care, technology, consumer industries, environmental management, and more, including pharmaceuticals, forensic science, food technology, petroleum industry, food technology, cosmetics, and so much more. Chemistry meets a general education requirement for most university majors, particularly for Pre-medical, Pre-Dental, Nursing, Anthropology, Biology, Chemistry, Geology, Physics, and Pharmacy majors.

Associate of Science (AS) Degree

Major Units: 40 Total Units: Minimum of 60
(State Code: 02756; TOP Code: 190500; Academic Plan: C002756C)

The Chemistry Associate of Science degree provides the student with preparatory course work, allowing transfer to a four-year university in chemistry or related physical sciences. Individuals who earn the degree with a major in chemistry will find many desirable entry-level jobs in chemistry and manufacturing.

PROGRAM STUDENT LEARNING OUTCOMES

- Describe chemical and physical structures, reactions, and mechanisms of that will lead to synthesis of desired compounds.
- Solve problems using algebra, analyze graphical data, and convert between scientific units.
- Apply the scientific method.
- Design and implement simple experiments, work independently, and draw reasonable conclusions.
- Communicate scientific processes by writing laboratory reports that include data in tabular and graphical format and summarize

PROGRAM REQUIREMENTS

1. Students must meet the following requirements to earn the degree:
 - a. Completion of a minimum of 69 semester units with a minimum cumulative grade point average of 2.0 that are eligible for transfer to the University of California. Completion of 74 units is required if the IGETC 6A Language Other Than English requirement was not completed in high school.
 - b. A minimum of 12 units must be completed at Los Angeles City College District.
2. Completion of the following curricular requirements:
 - a. The Intersegmental General Education Transfer Curriculum (IGETC) Areas indicated below with a minimum grade of "C" in each course or a grade of "P" if the general education course is taken on a "P/NP" basis.
 - b. The major requirements listed below with a minimum grade of "C" in each course. Major courses may not be taken on a "P/NP" basis.
3. Requirements for Admission to the UC: The UC Transfer Pathways Associate Degree in Chemistry is an extension of University of California's Pathways+. The degrees, which are created by the community colleges, include the major preparation outlined in the UC Transfer Pathway for Chemistry. As with Pathways+, in order to secure an admissions guarantee in Chemistry to a UC campus, students must complete the following requirements:
 - a. Complete the Transfer Pathway,
 - b. Meet or exceed the required campus-based TAG GPA. Depending on the campus the minimum GPA requirement ranges from 2.8 - 3.4.
 - c. Submit a TAG application by September 30, and
 - d. Apply for admission by November 30.

In addition to the benefits of the Pathways+ option, students completing the UCTP Associate's Degree in Chemistry will earn an AS degree from their respective community college.

Administrative Office Assistant

Associate of Arts (AA) Degree

Major Units: 39 Total Units: Minimum of 60
(State Code: 02727; TOP Code: 051400; Academic Plan: C002727C)

The Administrative Office Assistant Associate of Arts degree prepares students for employment in business, government, and educational offices that use automated systems and procedures. Emphasis is placed on the development of skills in keyboarding, language and communication skills, and computer applications including word processing, spreadsheets, databases, and desktop publishing. In addition, students are prepared to assume general office duties and decision-making office responsibilities. Completion of the program enables students to qualify for intermediate office positions and lays the foundation for entry into office management positions.

PROGRAM STUDENT LEARNING OUTCOMES

1. Demonstrate proficiency in English grammar (parts of speech) punctuation, spelling, and writing skills.
2. Produce a business style report using a computer and Microsoft Word.
3. Prepare a multi-column newsletter containing desktop publishing elements in Microsoft Word.
4. Create a personal or business website containing hyperlinks, marquee, graphic hotspots, and tables.
5. Produce a professional business letter, in response to a given business communication task.

PROGRAM REQUIREMENTS

Requirements for the Administrative Office Assistant Associate of Arts degree may be met by completing: (a) 39 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Computer Applications Specialist

Associate of Arts (AA) Degree

Major Units: 30 Total Units: Minimum of 60
(State Code: 08216; TOP Code: 051400; Academic Plan: C008216C)

The Computer Applications Specialist Associate of Arts degree prepares students for employment in business, government, and educational offices using computerized systems and procedures. Emphasis is placed on the development of skills in keyboarding, language and communication skills, and computer applications including word processing, spreadsheets, databases, and desktop publishing. Completion of the program enables students to qualify for intermediate office positions that require knowledge of a variety of computer applications.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a personal or business website containing hyperlinks, marquee, graphic hotspots, and tables.
2. Create and format a presentation with transitions, custom animations, graphics, video, and audio, using Microsoft PowerPoint.
3. Produce a business style report using a computer and Microsoft Word.
4. Type a business letter and an envelope from unformatted copy in the Block Style Letter format within 25 minutes time using Microsoft Word.
5. Utilize the Windows Security Center to protect a computer against computer security risks.

PROGRAM REQUIREMENTS

Requirements for the Computer Applications Specialist Associate of Arts degree may be met by completing: (a) 30 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Business Information Worker I

Certificate of Achievement

Major Units: 24

(State Code: 42568; TOP Code: 051400; Academic Plan: C042568D)

Business Information Worker I (BIW I) Certificate of Achievement is designed to prepare students for entry-level office and administrative support in a variety of job positions, including office and executive administrative support, office supervision, small business support, retail sales, and customer service representatives. The BIW I Certificate of Achievement builds the foundation in this pathway by providing students with basic skills in Word, Excel, and customer relations and introductory instruction in Access and PowerPoint. In addition, students review English grammar and acquire a foundation in business communications to prepare them for office writing tasks. Students completing this first stage of the two-part BIW pathway will be equipped to take Microsoft Office Specialist credential exams in Excel and Word.

PROGRAM STUDENT LEARNING OUTCOMES

1. Identify appropriate software to use for a business problem.
2. Develop written content for inclusion in business presentations using correct grammar and relying on appropriate communication approaches that are tailored to the audience and purpose.
3. Create basic reports using appropriate spreadsheet and word processing software.
4. Implement sound customer service strategies to attract and retain clients.

PROGRAM REQUIREMENTS

Requirements for the Business Information Worker I certificate of achievement may be met by completing 24 units of required courses with a grade of "C" or better.

REQUIRED COURSES (24 UNITS)

CAOT 001	COMPUTER KEYBOARDING AND DOCUMENT APPLICATIONS I	3
CAOT 031	BUSINESS ENGLISH	3
CAOT 032	BUSINESS COMMUNICATIONS	3

Business Information Worker II

Certificate of Achievement

Major Units: 39

(State Code: 42651; TOP Code: 051400; Academic Plan: C042651D)

Business Information Worker II (BIW II) Certificate of Achievement is designed to prepare students for mid-level office and administrative support in a variety of job positions, including office and executive administrative support, office supervision, small business support, retail sales, and customer service representatives. The BIW II Certificate of Achievement builds on the BIW I foundation and provides students with additional skills in PowerPoint, Excel, Access, QuickBooks, records management, and customer relations. Students completing this stage of the BIW pathway will be equipped to take multiple Microsoft Office Specialist credential exams.

PROGRAM STUDENT LEARNING OUTCOMES

1. Develop a solution to a business problem using the most appropriate business application software.
2. Apply software tools to function effectively as a team member using collaborative web-based workspaces.
3. Construct business presentations that are accurate, well-organized, and are appropriate to the audience and purpose.
4. Develop accurate accounting reports using appropriate spreadsheet and accounting software.
5. Organize customer service tasks using customer relationship management software.

PROGRAM REQUIREMENTS

Requirements for the Business Information Worker II certificate of achievement may be met by completing 39 units of required courses with a grade of "C" or better.

REQUIRED COURSES (39 UNITS)

Clerical Office Assistant

Certificate of Achievement

Major Units: 27

(State Code: 08215; TOP Code: 051400; Academic Plan: C008215D)

The Clerical Office Assistant certificate of achievement prepares students for employment in business, government, and educational offices using computerized systems and procedures. Emphasis is placed on the development of skills in keyboarding, language and communications, proofreading, editing, and business letter formatting. Basic computer applications skills are attained through an introductory course in a multi-applications suite. Completion of this program enables students to qualify for entry-level office positions and lays the foundation for further study and advancement in office occupations.

PROGRAM STUDENT LEARNING OUTCOMES

1. Demonstrate proficiency in English grammar (eight parts of speech), punctuation, spelling, and writing skills through an hour-long writing assignment
2. Complete an hour-long business letter writing assignment using professional business communication and vocabulary; correct format, grammar, and spelling.
3. Type a business letter and an addressed envelope from unformatted copy in the block style letter formatting using Microsoft Word within 25 minutes.

PROGRAM REQUIREMENTS

Requirements for the Clerical Office Assistant certificate of achievement may be met by completing 27 units of required courses with a grade of "C" or better.

REQUIRED COURSES (27 UNITS)

Basic Administrative Office Assistant

Skills Certificate

Major Units: 18

(TOP Code: 051400; Academic Plan: C051400J)

The Basic Administrative Office Assistant skills certificate prepares for employment in business, government, and educational offices using automated systems and procedures. Emphasis is placed on the development of keyboarding and basic computer skills, including word processing and spreadsheets, to prepare business documents, handle telephone inquiries, use an e-mail system, and complete forms. Completion of this program enables students to qualify for entry-level office positions and lays the foundation for further study and advancement in office occupations.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a business report with a cover sheet, table of contents, and a bibliography.
2. Create a worksheet, chart data, perform calculations and make comparisons by using a pie chart.
3. Prepare a multi-column newsletter containing desktop publishing elements in Microsoft Word.

PROGRAM REQUIREMENTS

Requirements for the Basic Administrative Office Assistant skills certificate may be met by completing 18 units of required courses with a grade of "C" or better.

REQUIRED COURSES (18 UNITS)

COMPUTER SCIENCE

OVERVIEW

The Computer Science (CS) and Computer Information Systems (CIS) programs provide a solid foundation for students to either transfer to universities for advanced CS and CIS studies or begin a career directly related to the computer science and information systems fields. Students completing one of our programs can expect high-paying employment opportunities in computer programming, software development, database administration, cloud computing, full-stack web development, and other CS and CIS related fields.

Computer Information Systems (CIS)

Associate of Arts (AA) Degree

Major Units: 33 Total Units: Minimum of 60
(State Code: 02730; TOP Code: 070200; Academic Plan: C002730C)

The CIS Associate of Arts degree prepares students for careers as entry-level programmers using C++, Java, and Visual Basic; database application developers using SQL and PL/SQL; and Web application developers using leading HTML standards, JavaScript, and Python. The program provides a well-rounded education with solid foundations in procedural and object-oriented methodologies, data structures, and computer organization that also helps students pursue a bachelor's degree in a CIS field.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
2. Create a fully documented modular design with correct mathematical and logical operations suitable for implementation from a given program specification.
3. Gain knowledge in basic mathematics as it relates to Computer Science including number systems, Sets & Venn Diagrams,

boolean logic, truth tables, and circuit gates.

4. Install, configure, and troubleshoot given problems for Linux, Windows, or other operating systems.
5. Design, create, update, and query a relational database using entity-relationship diagrams, normalization, and SQL.
6. Design and implement solutions to general purpose problems using a programming language such as C++, Java, and Python.
7. Gain skills in the use of client-side web technologies, such as HTML and CSS, for the design and development of interactive websites.
8. Employ complex data structures and algorithms, including sorting, searching, and recursion, to design and implement solutions to advanced computer science problems.
9. Gain an understanding of computer architecture and organization and apply this understanding to develop low-level code in assembly-language to solve a given problem.
10. Use advanced programming constructs to solve problems related to recursion, object-oriented programming, dynamic data types, networking, and/or multithreading.

PROGRAM REQUIREMENTS

Requirements for the Computer Information Systems Associate of Arts degree may be met by completing: (a) 33 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Associate of Arts (AA) Degree

Major Units: 35-37 Total Units: Minimum of 60
(State Code: 10774; TOP Code: 070600; Academic Plan: C010774C)

The Computer Science Associate of Arts degree prepares the student to transfer to four-year colleges or begin an entry-level job related to programming and software development. The program provides a well-rounded education with an emphasis on solid foundations in procedural and object-oriented programming and methodologies, data structures, and computer architecture and organization.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
2. Create a fully documented modular design with correct mathematical and logical operations suitable for implementation from a given program specification.

Cybersecurity

Associate of Science (AS) Degree

Major Units: 30 Total Units: Minimum of 60
(State Code: 38828; TOP Code: 070800; Academic Plan: C038828C)

The Cybersecurity Associate of Science degree prepares students for a career in a sector of technology that is growing rapidly and will continue to grow for the foreseeable future. This curriculum teaches students to recognize threats and procedures to be proactive against cybersecurity threats and/or respond to cybersecurity incidents, how to protect and defend against intrusions through the use of advanced techniques used by cybercriminals, and how to create innovative solutions to prevent hackers from stealing critical information or causing problems for computer networks. Students also learn about the ethics of security and hacking and the geopolitical ramifications of cyberattacks. The Cybersecurity Associate of Science is comprised of a group of industry-recognized CompTIA certifications and computer forensics and ethical hacking certification programs which will enhance a student's ability to pursue a career in cybersecurity.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain an understanding of computer technologies, such as, hardware, software, and networking technologies, as well as troubleshooting, methods of signaling and encoding, interfaces, transmission media, and the most important protocols involved in moving data over a communication network.
2. Understand concepts of cybersecurity, network security, risk assessment, disaster recovery, threat assessment, computer forensics, privacy, and ethics as it relates to security, law, civil compliance, and criminal activity.
3. Gain the skills necessary to apply knowledge of concepts, tools, and procedures to react to cybersecurity incidents and guard against cybersecurity attacks.
4. Understand how hardware, software, and networks interact and how to protect and defend against intrusions using advanced techniques that are used by cybercriminals.
5. Create innovative solutions to prevent hackers from stealing critical information or cause problems for computer networks.
6. Understand the ethical implications of working to protect organizations or countries against a cyberattack.

PROGRAM REQUIREMENTS

Requirements for the Cybersecurity Associate of Science degree may be met by completing (a) 30 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Applications Software

Certificate of Achievement

Major Units: 30

(State Code: 08224; TOP Code: 070200; Academic Plan: C008224D)

The Applications Software certificate of achievement prepares students for careers in applications software development and usage in fields related to microcomputer applications, databases, cloud computing, and programming. Students completing the program will find opportunities for employment in various computer science and information systems related businesses and industries.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a fully documented modular design with correct mathematical and logical operations suitable for implementation from a given program specification.
2. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
3. Gain knowledge in basic mathematics as it relates to Computer Science including number systems, Sets & Venn Diagrams, boolean logic, truth tables, and circuit gates.

C++ Programming

Certificate of Achievement

Major Units 18

(State Code: 40999; TOP Code: 070710; Academic Plan: C040999D)

The C++ Programming certificate of achievement provides students with comprehensive training in high demand programming languages and tools including Visual Basic and C++. Successful completion of the program will prepare students for an exciting career in software analysis, design, and development.

Possible Jobs: Computer Programmers, Software Developers: Applications, Software Developers: Systems Software, Web Developers

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a fully documented modular design with correct mathematical and logical operations suitable for implementation from a given program specification.
2. Create, deploy, and test a basic program with valid syntax and proper logical and mathematical functions using the C++ programming language.
3. Design and implement solutions to a general-purpose problem using advanced programming techniques in the C++ programming language.
4. Employ complex data structures and algorithms, including sorting, searching, and recursion, to design and implement solutions to advanced computer science problems.

PROGRAM REQUIREMENTS

Requirements for the C++ Programming certificate of achievement may be met by completing 18 units of required courses with a grade of "C" or better.

Cloud Computing

Certificate of Achievement

Major Units: 21

(State Code: 39854; TOP Code: 070730; Academic Plan: C039854D)

The Cloud Computing program prepares students to design solutions for Infrastructure as a Service (IaaS) architectures by provisioning computing instances, establishing virtual private networks, managing databases, and storage within a secure online environment. Students produce dynamic solutions responsive to information and computing technology workloads with on-demand pay-as-you-go pricing allowing flexibility for small business, entrepreneurship, and enterprise adoption. Industry certifications are program proposal attributes embedded to prepare for occupations in cloud architect, cloud support associate, cloud engineer, or cloud technicians. Some preparation in information technology or computer programming is recommended.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
2. Design Infrastructure as a Service (IaaS) solutions by provisioning computing instances, establishing virtual private networks, managing databases, and storage within a secure online environment.
3. Analyze performance metrics of cloud architecture to respond dynamically to information and computing technology workloads and optimize service costs.
4. Collaborate in a team designing business solutions in an industry-aligned project.
5. Design and implement solutions to general purpose problems using Python or Javascript.
6. Design, create, update, and query a relational database using entity-relationship diagrams, normalization, and SQL.

PROGRAM REQUIREMENTS

Requirements for the Cloud Computing certificate of achievement may be met by completing 21 units of required courses with a grade of "C" or better.

The Cybersecurity Certificate is comprised of a group of industry-recognized CompTIA certifications and computer forensics and ethical hacking certification programs which will enhance a student's ability to pursue a career in cybersecurity.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain an understanding of computer technologies, such as, hardware, software, and networking technologies, as well as troubleshooting, methods of signaling and encoding, interfaces, transmission media, and the most important protocols involved in moving data over a communication network.
2. Understand concepts of cybersecurity, network security, risk assessment, disaster recovery, threat assessment, computer forensics, privacy, and ethics as it relates to security, law, civil compliance, and criminal activity.
3. Gain the skills necessary to apply knowledge of concepts, tools, and procedures to react to cybersecurity incidents and guard against cybersecurity attacks.
4. Understand how hardware, software, and networks interact and how to protect and defend against intrusions using advanced techniques that are used by cybercriminals.
5. Create innovative solutions to prevent hackers from stealing critical information or cause problems for computer networks.
6. Understand the ethical implications of working to protect organizations or countries against a cyberattack.

PROGRAM REQUIREMENTS

Requirements for the Cybersecurity certificate of achievement may be met by completing 30 units of required courses with a grade of "C" or better.

Cybersecurity Analyst

Certificate of Achievement

Major Units: 18

(State Code: 42239; TOP Code: 070200; Academic Plan: C042239D)

The Cybersecurity Analyst certificate of achievement program is a short, 2-semester program that prepares students for an entry level position in the field of computer internetwork systems security. The curriculum includes courses that prepare students to configure, analyze, test, troubleshoot, and evaluate local area networks (LANs), wide area networks (WANs), and cloud networks. The courses are also designed to teach students assessment procedures of system security vulnerabilities, implementing hardening the systems, risk mitigation strategies, and prevention strategies against cybersecurity attacks. Possible job opportunities include Computer Network Support Specialist, IT Consultant, Network Technical Analyst, Network Technician, Personal Computer Network Analyst, Systems Specialist, Information Security Officer, Information Security Specialist, Information Systems Security Analyst, Information Technology Security Analyst, Network Security Analyst, and Systems Analyst, and Penetration Testers.

PROGRAM STUDENT LEARNING OUTCOMES

1. Apply security concepts to mitigate risk and utilize wireless and cloud assessment tools to assess vulnerabilities of a system.
2. Set up a virtual private cloud including IAM user accounts using one of the major cloud service providers.
3. Install, set up, and configure a network based on the Linux or Microsoft Windows operating systems on a virtual computer.
4. Configure a sniffer (e.g. Wireshark, AirSnort,) and analyze data collected from multiple target systems and perform a session hijack between a target and a server.
5. Access a vulnerable virtual private network (VPN) and patch the vulnerability.

PROGRAM REQUIREMENTS

Requirements for the Cybersecurity Analyst certificate of achievement may be met by completing 18 units of required courses with a grade of "C" or better.

Data Science

Certificate of Achievement

Major Units: 22

(State Code: 42225D ; TOP Code: 070200; Academic Plan: C042225D)

The Data Science certificate of achievement provides students with foundational and practical knowledge and training to prepare them for entry-level careers in Data Science or Data Analytics. The program touches on both the Mathematical and Computational areas of the subject matter including Descriptive and Inferential Statistics, Programming & Analysis Tools such as Python and R, and existing AWS Cloud Services such as Data Lake, Athena, Glue, and Redshift. The program also helps prepare students with an appropriate background for the Data Analytics specialty certification from AWS. Topics include Data Exploration and Visualization with Jupyter, Regression Analysis, and other Data Science tools such as numpy, scipy, pandas, matplotlib, seaborn, statsmodels, scikit-learn, keras, and TensorFlow.

Possible Jobs: Data Scientist, Associate Data Scientist, Junior Data Scientist, Data Analyst, Business Analytics Specialist, Data Visualization Developer, Operations Research Analyst, Market Research Analyst, Modeling and Simulation Analyst, and Big Data Analyst.

PROGRAM STUDENT LEARNING OUTCOMES

1. Use Jupyter notebooks for interactive data exploration and visualization.
2. Use various Python libraries such as numpy, scipy, pandas, matplotlib, seaborn, statsmodels, scikit-learn, keras, and TensorFlow to analyze, visualize, and forecast data for various applications.
3. Apply data cleaning, preparation, wrangling, and ETL (Extract-Transform-Load) techniques to analyze structured, unstructured, and streaming data.
4. Use AWS Cloud Services such as Data Lakes, Athena, Glue, and Redshift to simplify Data Analysis.
5. Apply mathematical concepts related to probability and statistics in a modern, hands-on approach that uses software tools such as Python and R to gather, summarize, visualize data and to make predictions and with regression analysis.

PROGRAM REQUIREMENTS

Requirements for the Data Science certificate of achievement may be met by completing 22 units of required courses with a grade of "C" or better.

Full Stack Web Application Developer

Certificate of Achievement

Major Units: 18

(State Code: 40237; TOP Code: 070710; Academic Plan: C040237D)

The certificate of achievement in Full Stack Web Application Developer provides the necessary skills required to code and maintain web applications. The certificate of achievement in Full Stack Web Application Developer uses MEAN development environment. MEAN stands for MongoDB, Express, Angular and Node.js. These are technologies that are the next generation in Web development. Students that complete the certificate will produce a personal portfolio of Web applications showcasing the various technologies.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a web application using CRUD methodology. Use it in fictitious books store to manage inventory, back orders and maintain a best seller list.
2. Create a web application that relies on HTTP verbs and supports RESTful paradigm. Implement this design by an order and line item processing application.
3. Create a portfolio of web sites highlighting use of JavaScript and CSS3. Showcase features such as accordions, SPA(single page application), modify web pages dynamically.
4. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
5. Gain skills in the use of client-side web technologies, such as HTML and CSS, for the design and development of interactive websites.

PROGRAM REQUIREMENTS

Requirements for the Full Stack Web Application Developer certificate of achievement may be met by completing 12 units of required courses and 6 units of electives with a grade of "C" or better.

REQUIRED COURSES (12 UNITS)

CS 101	INTRODUCTION TO COMPUTER SCIENCE	3
CIS 148	INTRODUCTION TO WEB DEVELOPMENT USING HTML & CSS	3
CS 112	PROGRAMMING IN JAVASCRIPT	3
CS 157	FULL-STACK WEB APPLICATION DEVELOPMENT	3

Java Programming

Certificate of Achievement

Major Units: 18

(State Code: 41000; TOP Code: 070710; Academic Plan: C041000D)

The Java Programming certificate of achievement provides students with comprehensive training in high-demand programming languages and methodologies including Visual Basic, Java, and Assembly language. Successful completion of the program will prepare students for an exciting career in software analysis, design, and development. Possible jobs include Computer Programmers, Software Developers: Applications, Software Developers: Systems Software, and Web Development.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a fully documented modular design with correct mathematical and logical operations suitable for implementation from a given program specification.
2. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
3. Design and implement solutions to general purpose problems using the Java programming language.
4. Employ advanced constructs such as networking, multi-threading, and recursion to design and implement solutions to advanced computer science problems.
5. Gain knowledge in basic mathematics as it relates to Computer Science including number systems, Sets & Venn Diagrams, boolean logic, truth tables, and circuit gates.
6. Gain an understanding of computer architecture and organization and apply this understanding to develop low-level code in assembly-language to solve a given problem.

PROGRAM REQUIREMENTS

Requirements for the Java Programming certificate of achievement may be met by completing 18 units of required courses with a grade of "C" or better.

REQUIRED COURSES (18 UNITS)

CS 101	INTRODUCTION TO COMPUTER SCIENCE	3
CS 102	PROGRAMMING LOGIC AND DESIGN (INTRODUCTION TO PROGRAMMING)	3

Machine Learning

Certificate of Achievement

Major Units: 18

(State Code: 42224; TOP Code: 070200; Academic Plan: C042224D)

The Machine Learning certificate of achievement provides foundational and practical knowledge and training to help students enter careers related to Machine Learning applications and development, Data Science, or Data Engineering. The program touches on both open source programming tools and libraries such as Python, Scikit, and TensorFlow, and existing AWS Cloud Services such as Rekognition, SageMaker, and Deep Racer. The program also helps prepare students with an appropriate background for the Machine Learning specialty certification from AWS. Topics include concepts and terminology of Artificial Intelligence and Machine Learning, the four prevalent (Supervised, Unsupervised, Reinforcement, and GAN) models of machine learning and their applications, and various Python and AWS tools and services.

Possible Jobs: Machine Learning Engineer, Associate Data & Machine Learning Engineer, Data Scientist, Associate Data Scientist, Data Analyst, Business Analytics Specialist, Data Visualization Developer, Operations Research Analyst, Market Research Analyst, Modeling and Simulation Analyst, and Big Data Analyst.

PROGRAM STUDENT LEARNING OUTCOMES

1. Use various Python libraries such as numpy, scipy, pandas, matplotlib, seaborn, statsmodels, scikit-learn, keras, and TensorFlow to analyze, visualize, and forecast data for various applications.
2. Apply linear, polynomial, or logistic regression to determine relationship between input and output in supervised learning.
3. Apply binary, multi-class, and multi-label classification algorithms to choose between different alternatives in supervised learning.
4. Demonstrate the use of clustering algorithms and dimensional reduction technique in unsupervised learning applications.
5. Explore reinforcement learning by modeling and formalizing computer interaction with the environment and machine learning through this interaction.
6. Apply AWS Cloud Services such as Rekognition, SageMaker, and Deep Racer to Machine Learning applications.

PROGRAM REQUIREMENTS

Requirements for the Machine Learning certificate of achievement may be met by completing 18 units of required courses with a grade of "C" or better.

Programming Languages

Certificate of Achievement

Major Units: 33

(State Code: 08225; TOP Code: 070710; Academic Plan: C008225D)

The Programming Languages certificate of achievement provides students with comprehensive training in high demand programming languages and tools such as Visual Basic, C++, Java, SQL, and others. Students can choose between Oracle Database Administration and Cloud Computing tracks. Successful completion of the program will prepare students for an exciting career related to database administration, cloud computing, or software development.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create a fully documented modular design with correct mathematical and logical operations suitable for implementation from a given program specification.
2. Gain appropriate skills in computer literacy, computer applications, and programming to enable efficient use of computers and their applications.
3. Design and implement solutions to general purpose problems using a programming language such as C++, Java, and Python.
4. Install, configure, and troubleshoot given problems for Linux, Windows, or other operating systems.
5. Design, create, update, and query a relational database using entity-relationship diagrams, normalization, and SQL.
6. Design Infrastructure as a Service (IaaS) for cloud computing to provide computing instances, establish virtual private networks, and manage databases and storage.
7. Analyze performance metrics of cloud architecture to respond dynamically to information and computing workloads.
8. Employ complex data structures and algorithms, including sorting, searching, and recursion, to design and implement solutions to advanced computer science problems.
9. Gain knowledge in basic mathematics as it relates to Computer Science including number systems, Sets & Venn Diagrams, boolean logic, truth tables, and circuit gates.
10. Use advanced programming constructs to solve problems related to recursion, object-oriented programming, and dynamic data types.

PROGRAM REQUIREMENTS

Requirements for the Programming Languages certificate of achievement may be met by completing 33 units of required courses with a grade of "C" or better.

COMPUTER TECHNOLOGY**OVERVIEW**

The Computer Technology (CT) program provides training in the principles underlying the design of modern computer systems. The program presents the theory of computer architecture and design. The CT program prepares students for entry-level positions related to computer hardware. Opportunities include computer repair, manufacture, and installation, among others. Students completing one of the certificate programs can expect to enter high-paying positions in the computer industries. With more experience and/or a bachelor's degree or advance trade certification, entry-level technicians can advance in position and salary.

Major Units: 36

Total Units: Minimum of 60

(State Code: 08229; TOP Code: 093410; Academic Plan: C008229C)

The Computer Technology AS degree prepares students for a career as a technician in digital electronics technology in all branches of the industry, from manufacturing to testing and service. The program gives students hands-on experience that can be extremely useful for students who decide to continue their education with a bachelor's degree in computer or electrical engineering.

PROGRAM STUDENT LEARNING OUTCOMES

1. Describe the electrical and logical characteristics and operation of processors, memory, and control systems.
2. Design and draw schematics for a simple embedded system.
3. Design a simple motor control system.

PROGRAM REQUIREMENTS

Requirements for the Computer Technology Associate of Science degree may be met by completing: (a) 36 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Program in A+ Certification

Skills Certificate

Major Units: 12-13

(TOP Code: 070810; Academic Plan: C070810J)

Upon completing this short program, the student is fully prepared to sit for the CompTIA A+ Certification Examination and work as an entry level PC technician.

PROGRAM STUDENT LEARNING OUTCOMES

1. Identify components in a personal computer.
2. Diagnose problems in personal computer hardware and operating system and independently design solutions using the information gained through the component manuals and manufacturer web sites.
3. Diagnose and resolve a problem in a peer-to-peer local area network.
4. Use a breadboard to connect a simple electronic circuit based on a given schematic diagram.
5. Assemble components on a printed circuit board using a soldering iron to connect a simple electronic circuit based on a given schematic diagram.

EARTH SCIENCES

OVERVIEW

Earth Sciences is comprised of the diverse disciplines of Earth Science, Environmental Science, Geography, and Geology. We use the scientific method to understand Earth and its inhabitants on numerous spatial and temporal scales. Students will recognize and explain fundamental Earth science principles; obtain data from online, library, and field experiences; and obtain technical vocabulary and skills. Earth Sciences courses are intended for both majors and general education, providing opportunities for students to meet Physical Science and Social Science CSU/UC transfer requirements. Our transfer students are represented at CSU, UC, and private universities throughout California and beyond.

Department resources include ArcGIS software, minerals, rocks, fossils, maps, and access to a district-owned 250-acre ecological reserve.

Geography is best described as a “spatial science” in that it employs the use of maps and spatial analysis to understand the world. Introductory courses explore both physical and human patterns via spatial analysis. These components of physical geography (Earth’s weather, climate, and landforms) and cultural geography (population, migration, culture, and industry) are synthesized in courses on the geography of California, and soon-to-come mapping and fieldwork courses.

Geologists study the solid Earth, including Earth materials, Earth history, and the internal and external Earth processes. Earth scientists study the components of the Earth system and their interactions, including the geosphere, hydrosphere, and atmosphere.

Geography

Associate in Arts (AA-T) Degree

Major Units: 21

Total Units: Minimum of 60

(State Code: 40897; TOP Code: 220600; Academic Plan: C040897G)

The Associates in Arts in Geography for Transfer degree is designed to meet the minimum requirements for transfer to a California State University (CSU) Bachelor of Arts Degree program in Geography. The transfer degree assures foundational preparation for transfer opportunities at California State Universities as students pursue a degree in Geography or a related field.

The Geography ADT provides students a transfer curriculum focused on the integration of Physical (GEOG 1) and Cultural (GEOG 2) Geographic knowledge with a spatial perspective that is useful in identifying, understanding, and solving problems of local, regional, and global importance. The degree provides students an opportunity to gain experience gathering, analyzing, and displaying spatial data. Field and map courses weave research design and the scientific method to complement the technical skills learned. Both Physical and Social Sciences are integrated into a framework to apply critical Geographic thought.

The Geography coursework complements coursework in the related disciplines of Geology and Anthropology and helps students develop skills that are applicable to a wide range of careers such as: urban/regional planning, natural resource management, cartography/mapmaking, marketing consulting, epidemiological modeling, natural hazard assessment, social science research, and climatology.

Completion of this curriculum will demonstrate commitment to the field and provide comprehensive preparation for further academic study through upper-division course work. This curriculum specifically prepares the prospective transfer student for upper division coursework in Geography or a similar major at a California State University (CSU) campus. Students should consult a counselor, the Transfer Center and the catalog of the transfer college or university to plan a specific program of study to meet the college or university's requirements.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

1. Describe how physical and cultural characteristics contribute to a sense of place.
2. Obtain spatial data from online sources.
3. Obtain original spatial data from geographic fieldwork.
4. Create testable hypotheses that integrate a spatial perspective to address social and environmental issues.
5. Select and perform spatial analysis techniques in a GIS computer environment to test hypotheses.
6. Create a map, complete with appropriate cartographic elements, that communicates spatial information.

PROGRAM REQUIREMENTS

Requirements for the Geography Associate in Arts transfer degree may be met by completing: (a) 8 units of major core courses, 7 units from "List A," and 6 units from "List B" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Associate in Science (AS-T) Degree

Major Units: 28 Total Units: Minimum of 60
(State Code: 39789; TOP Code: 191400; Academic Plan: C039789H)

The Geology Associate in Science transfer degree is designed to meet the minimum requirements for transfer to a California State University (CSU) Bachelor of Science Degree program in the Geological Sciences. The transfer degree assures foundational preparation for transfer opportunities at CSUs as students pursue a degree in Geology or a related field. The major provides students with a comprehensive view of the geological history of Earth and its inhabitants in the context of dynamic internal and external processes, including tectonism, formation of Earth materials, and climate systems. Students develop skills in spatial analysis, quantitative thinking, and the scientific inquiry; learn to recognize the importance and impacts of water, energy, and mineral resource production; and gain an understanding of the natural world through supportive STEM coursework. Completion of this curriculum will demonstrate commitment to the field and provide comprehensive preparation for further academic study through upper-division course work.

Students should consult a counselor, the Transfer Center, and the catalog of the transfer college or university to plan a specific program of study to meet the college or university's requirements.

To earn the AS-T, students must meet the following requirements:

- a. Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- b. A minimum grade of "C" (or "P") for each course in the major and minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

1. Apply scientific reasoning to problem solving.
2. Employ vocabulary of geological subjects.
3. Acquire, synthesize, and interpret geological data.
4. Recognize and explain fundamental geologic principles, including plate tectonics theory, deep time, and formation of natural resources.

PROGRAM REQUIREMENTS

Requirements for the Geology Associate in Science transfer degree may be met by completing: (a) 28 units of major core courses with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

LIFE SCIENCES

OVERVIEW

The Life Sciences Department's goal is to provide all students the opportunity to explore the science of life and to complete general education requirements in the natural sciences. We also prepare students for transfer to four-year programs in the biological sciences and for acceptance into various allied health programs. This preparation may lead to careers in teaching, nursing, medicine, dentistry, veterinary medicine, pharmacy, physical therapy, physician assistant, and many other fields. We are committed to providing our students with the knowledge and skills necessary for a successful career path and to nurture a life-long curiosity of the natural and biological world.

Associate in Science (AS-T) Degree

Major Units: 33-35 Total Units: Minimum of 60
(State: 36049; TOP Code: 040100; Academic Plan: C036049H)

The Biology AS-T provides students with a background to evaluate and understand new discoveries and to make informed decisions about the use of scientific knowledge to benefit all living organisms. The curriculum is generally required of lower-division biological sciences majors, as well as pre-dental, pre-medical, pre-optometry, pre-pharmacy, and pre-veterinary students. The degree includes coursework that aligns with specific lower-division major requirements for biological sciences-related majors at various universities within the California State University (CSU) system.

To earn the Associate Degree for Transfer, students must meet the following requirements:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University by completing the following:

- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- Minimum grade of "C" (or "P") for each course in the major, and minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Apply concepts of the scientific method.
- Demonstrate understanding of core biological concepts.
- Demonstrate proficiency in common biological lab skills and analysis.

Pre-Allied Health

Associate of Science (AS) Degree

Major Units: 26-28 Total Units: Minimum of 60
(State Code: 38859; TOP Code: 126000; Academic Plan: C038859C)

The Pre-Allied Health AS prepares students for entry into allied health programs such as nursing, dental hygiene, occupational therapy, physical therapy, pharmacy, radiologic technologies, physician assistant, and chiropractic. Courses in this degree are prerequisites for many health professional programs and are transferable to various majors, including Nursing, Kinesiology, and Nutrition. Some variations of entry requirements may exist among allied health programs and will require students to refer to the school of interest.

PROGRAM STUDENT LEARNING OUTCOMES

1. Demonstrate proficiency in various laboratory techniques and methods.
2. Work safely in a laboratory or clinical setting.
3. Apply biological concepts as it relates to health and disease.
4. Describe anatomical structures.

PROGRAM REQUIREMENTS

Requirements for the Pre-Allied Health Associate of Science degree may be met by completing: (a) 12-13 units of required courses and 14-15 units of elective courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Pre-Allied Health

Certificate of Achievement

Major Units: 20-22

(State Code: 38860; TOP Code: 126000; Academic Plan: C038860D)

The Pre-Allied Health certificate of achievement prepares students for entry into allied health programs such as nursing, dental hygiene, occupational therapy, physical therapy, pharmacy, radiologic technologies, physician assistant, and chiropractic. Courses in this certificate are prerequisites for many health professional programs and are transferable to various majors at four-year institutions. Some variations of entry requirements may exist among allied health programs and will require students to refer to the school of interest.

PROGRAM STUDENT LEARNING OUTCOMES

1. Demonstrate proficiency in various laboratory techniques and methods.
2. Work safely in a laboratory or clinical setting.
3. Apply biological concepts as it relates to health and disease.
4. Describe anatomical structures.

PROGRAM REQUIREMENTS

Requirements for the Pre-Allied Health certificate of achievement may be met by completing 12-13 units of required courses and 8-9 units of elective courses with a grade of "C" or better.

Associate of Arts (AA) Degree

Major Units: 18 Total Units: Minimum of 60

(State Code: 19844; TOP Code: 490200; Academic Plan: C019844C)

These courses emphasize the natural sciences which examine the physical universe, its life forms, and its natural phenomena. Courses in mathematics emphasize the development of mathematical and quantitative reasoning beyond the level of intermediate algebra.

PROGRAM STUDENT LEARNING OUTCOMES

1. Communicate effectively, by means of listening, speaking, reading, and writing.
2. Utilize contemporary information technology to retrieve, process, and communicate information.
3. Apply critical thinking skills to solve problems, to evaluate arguments, and to interpret information.

PROGRAM REQUIREMENTS

Requirements for the Liberal Arts: Natural Sciences and Mathematics Associate of Arts degree may be met by completing: (a) 18 units of major core courses with a grade of "C" or better, chosen from a minimum of two different subjects; (b) all general education requirements; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken within the LACCD.

MATHEMATICS

OVERVIEW

The LACC Mathematics program offers courses ranging from entry-level to university level, including basic statistics, college algebra, and math for liberal arts and business majors, as well as calculus and ordinary differential equations for STEM majors. Our courses are offered in different sessions: 15-week semesters (Fall/Spring), 5-week Winter session, and 5-week and 8-week Summer sessions. Instructional modalities include in-person, hybrid, online (synchronous and asynchronous) classes which meet from one to four days per week. Classes start early in the morning and finish in late evening to accommodate a variety of schedules.

LACC's student Math Team has placed in the top 5 out of 200 colleges in the National American Mathematical Association of Two-Year Colleges competition for 16 times in the past 20 years. We placed number 1 in the nation for six of those years.

The Mathematics Program is extremely proactive with respect to student support and scholarship. Each spring semester, as part of student encouragement and recognition, the Program awards several merit-based scholarships to students taking transfer-level courses. The amount of the awards is between \$500 and \$1000, with an occasional \$1250 award.

A tutoring lab and four computer laboratories are available for student support and student employment. Many classes use software including MyMathLab. Math Department offers tutoring service in-person in the Pi-Shop Tutoring Center in FH 104 and remotely via zoom. The tutoring support offered by the Pi-Shop has become crucial to the learning of science and mathematics and helping students to reach their academic goals, and the student success rates speak very highly of it.

Tutor position is currently open for employment. This is a great opportunity for individual who have a passion for teaching and helping students succeed academically.

Mathematics

Associate in Science (AS-T) Degree

Major Units: 21

Total Units: Minimum of 60

(State Code: 33153; TOP Code: 170100; Academic Plan: C033153H)

The Mathematics Associate in Science transfer degree meets the lower division course requirements necessary for the California State University (CSU) system. Mathematics courses include basic skills and general education courses for future teachers, and courses for students majoring in science, technology, engineering, and mathematics. The degree provides students with an analytical academic foundation to help them transfer to the California State University system.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Solve, interpret, and analyze mathematical concepts/graphs.
- Apply mathematical problem-solving techniques.

PROGRAM REQUIREMENTS

Requirements for the Mathematics Associate in Science transfer degree may be met by completing: (a) 15 units of major core courses and 6 units from "List A" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

An Associate Degree in mathematics from LACC can be the first half of an equation that adds up to a bachelor's degree in mathematics. Students take courses in statistics, calculus, linear algebra, and differential equations. These courses are first and second-year degree requirements for the first two years of a bachelor's degree in mathematics. LACC graduates have gone on to earn bachelor's degrees from UC Berkeley, UCLA, UCSD, UCI, the California State University system, and nationwide. Students can join the award-winning Math Club. LACC Math Club students have been National Champions for the AMATYC National Mathematics Competition five times in the last 18 years. The Math Club placed in the top six for the past 16 years. Math scholarships are available.

PROGRAM STUDENT LEARNING OUTCOMES

1. Solve, interpret, and analyze mathematical concepts/graphs.
2. Apply mathematical problem-solving techniques.

PROGRAM REQUIREMENTS

Requirements for the Mathematics Associate of Science degree may be met by completing: (a) 21 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

PROGRAM STUDENT LEARNING OUTCOMES

1. Convey information to diverse stakeholders through clear and impactful data visualization through the use of Python or R.
2. Construct and evaluate complex statistical models, interpret findings, and make data-driven recommendations in various contexts.

PROGRAM REQUIREMENTS

Requirements for the Statistical Data Analytics certificate of achievement may be met by completing 19 units of required courses with a grade of "C" or better.

Statistical Data Analytics

Certificate of Achievement

Major Units: 19
(State Code: Pending; TOP Code: 070200; Academic Plan: C044061D)

The Statistical Data Analytics Certificate of Achievement provides students with foundational knowledge of statistical theory, methodologies, and tools, enabling them to apply statistical techniques to diverse data analysis tasks. Students will demonstrate proficiency in using data science tools, like Python and R, for data processing, including data collection, cleaning, and transformation, to ensure data quality and reliability for analytical purposes.

Potential careers: Data Analyst, Data Scientist, Healthcare Data Analyst, Statistical Analyst, Research Scientist, Market Research Analyst, Data Consultant, Statistical Software Developer, Data Visualization Developer, computer systems analyst, computer network support specialist, computer network architect, statistical assistant, and professional career in data science fields.

Engineering

Associate of Science (AS) Degree

Major Units: 45 Total Units: Minimum of 60
(State Code: 08226; TOP Code: 090100; Academic Plan: C008226C)

The Engineering Associate of Science degree consists of the math, physics, chemistry, and engineering courses that are typically required to fulfill lower division requirements for transfer as Mechanical, Civil, Electrical, Computer, or other Engineering majors at four-year colleges. Students should have completed precalculus level math to begin the sequence of math and physics courses that comprise this degree. Students undertaking this program of study are advised to meet with a counselor to develop an optimal educational plan to ensure completion of this high-unit degree within a reasonable time period.

PROGRAM STUDENT LEARNING OUTCOMES

1. Apply the principles of mathematics, science, and engineering to mechanical and electrical systems.
2. Design and conduct science and engineering experiments, as well as analyze and interpret the data and results of the experiments.
3. Function within a team, communicate effectively, behave professionally, and act with ethical responsibility as it relates to the science and engineering fields.
4. Utilize techniques, skills, tools, and equipment necessary for the practice of engineering.

PROGRAM REQUIREMENTS

Requirements for the Engineering Associate of Science degree may be met by completing: (a) 45 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

PHYSICS

OVERVIEW

Studying physics will help you develop an understanding and appreciation of the physical world and prepare you for further work in science, engineering, medical, and technical fields. The LACC Physics department offers classes for science and engineering majors, as well as classes and labs for non-science majors which meet transfer requirements to four-year schools. In addition to modern equipment, the department offers research experiences at Cal State LA and JPL (Jet Propulsion Laboratory), access to an on-campus observatory and computer controlled telescopes, and “Star Parties”—special astronomy field trips.

Associate in Science (AS-T) Degree

Major Units: 30 Total Units: Minimum of 60
(State Code: 33154; TOP Code: 190200; Academic Plan: C033154H)

The Associate in Science in Physics transfer degree offers classes for science and engineering majors, as well as classes and labs for non-science majors which meet transfer requirements to complete the requirements for a baccalaureate degree in Physics. Studying physics will help you develop an understanding and appreciation of the physical world and prepare you for further work in science, engineering, medical and technical fields. This program allows students to comprehend the core concepts and principles of classical and modern physics.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-breadth) requirements; and

- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Comprehend the core concepts and principles of classical and modern physics.
- Recognize the interrelationships between the various principles of physics as well as recognizing the coherence of the entire subject.

- Apply the scientific method to design and conduct physics experiments, and to analyze and interpret the data obtained.
- Solve problems using a systematic approach, test the correctness of solutions, and interpret results in terms of the physical reality they represent.
- Utilize computer applications for data acquisition, presentation and analysis.

PROGRAM REQUIREMENTS

Requirements for the Physics Associate in Science transfer degree may be met by completing: (a) 15 units of major core courses and 15 units from “List A” with a grade of “C” or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The “Golden Four”) must be completed with a grade of “C-” or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

The Associate of Science in Physics program is comprised of a sequence of courses typically required as lower division preparation for transfer in a Physics major at a four-year school as a junior. Students wishing to enter the program of study should have completed precalculus level math and are encouraged to consult with a counselor as transfer institutions may have additional lower-division major preparation requirements.

PROGRAM STUDENT LEARNING OUTCOMES

- 1. Comprehend the core concepts and principles of classical and modern physics.
- 2. Recognize the interrelationships between the various principles of physics as well as recognizing the coherence of the entire subject.
- 3. Apply the scientific method to design and conduct physics experiments, and to analyze and interpret the data obtained.

The School of Health, Child, and Family Sciences

The School of Health, Child, and Family Sciences prepares students for careers in various healthcare and human services professions, as well as providing education in areas related to family dynamics and community well-being. The School offers a range of programs and pathways designed to equip students with the knowledge, skills, and practical experience needed to succeed in their chosen fields. Through rigorous coursework, hands-on experiences, and supportive faculty guidance, students in these programs are prepared for rewarding careers in diverse healthcare and human services professions.

NURSING

The Nursing program prepares students for careers as Registered Nurses (RNs) through a combination of classroom instruction, laboratory practice, and clinical rotations in healthcare settings.

DENTAL TECHNOLOGY

The Dental Technology program guides students towards a successful career as a dental technologist in either a commercial dental laboratory or dental office laboratory.

CHILD DEVELOPMENT

The Child Development program focuses on understanding child growth and development, as well as effective teaching and caregiving techniques for young children. These programs prepare students for employment in early childhood programs and related fields in early care and education.

KINESIOLOGY

Kinesiology programs focus on the study of physical activity and its impact on health, society, and quality of life. These programs educate and inspire students to understand the importance of physical activity during the lifespan.

CHILD DEVELOPMENT

OVERVIEW

Welcome to the Child Development program. Students wishing to prepare for employment in early childhood programs or other related fields in early care and education and those currently employed may select several alternative patterns of study. The curriculum prepares students to teach or administer programs for young children, including private early childhood programs, public programs such as school district children's centers and Head Start or state preschool programs, infant programs, and school-age before and after-school programs.

Courses allow students to prepare for increasingly higher levels of employment and certification. The programs may prepare the student for the educational requirements of the Department of Social Services Community Care Licensing, the California Child Development Permit, the Associate of Arts degree in Child Development, or the Associate in Science transfer degree in Early Childhood Education.

PROGRAM NOTES

Students beginning their course work for certificates and degrees in Child Development must be aware of the following:

- **Criminal Clearance:** In order to fulfill state licensing requirements for employment in private and public programs, students must receive a criminal clearance to work with young children. Consult with faculty for additional information.
- **Mantoux test:** Some Child Development courses may require students to obtain a Mantoux test for tuberculosis clearance. The college Health Center provides this service. Call ahead to schedule a Mantoux test and reading at 323-953-4000 ext. 2485.
- **In order to complete CH DEV 022/023 Practicum in Child Development I and II, or to work in the field of early care and education, students must show proof of immunization against measles, pertussis, and the flu.**
- **CPR Training:** Employers may require students to take a 15 hour cardiopulmonary resuscitation class. This class covers training on basic first aid for infants and children, CPR techniques, and information on basic health and sanitation procedures.
- **Child Development Training Consortium (CDTC):** When students are ready to apply for the Child Development Permit from the Commission on Teacher Credentialing, visit <https://childdevelopment.org/>. For assistance, contact a Child Development faculty member.

Early Childhood Education

Associate in Science (AS-T) Degree

Major Units: 25 Total Units: Minimum of 60
(State Code: 31030; TOP Code: 130500; Academic Plan: C031030H)

The Early Childhood Education Associate transfer degree prepares students for transfer to a California State University (CSU) and for employment in an early care and education program. Students develop skills, knowledge, and attitudes that prepare them to work as teachers of young children or as administrators of early childhood education programs. Students who successfully complete the degree are guaranteed admission with junior status to the CSU system, but not to a specific campus or major. The student will receive priority admission to the local CSU campus and to a program or major that is similar to his or her community college major or area of emphasis.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Integrate understanding of the needs, characteristics, and multiple influences on all areas of development of children birth to age eight that support optimal development.
- Promote partnerships between programs, teachers, family, and communities, applying ethical standards and culturally sensitive professional behavior.

- Design, implement, and evaluate developmentally appropriate environments, curriculum, and teacher/child interactions, applying the skills of observation and assessment.

PROGRAM REQUIREMENTS

Requirements for the Early Childhood Education Associate in Science transfer degree may be met by completing: (a) 25 units of major core courses with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Child Development Master Teacher

Certificate of Achievement

Major Units: 40

(State Code: 08238; TOP Code: 130500; Academic Plan: C008238D)

This certificate enables the recipient to teach and supervise other child development teachers and staff. Some responsibilities of the Master Teacher may include developing and implementing age-appropriate curriculum within a safe, healthy, and stimulating environment; supervision of classroom staff; and creating positive communication links with parents, school, and community. Additionally, the certificate is designed to meet the requirements for the major and for the Associate in Arts degree in Child Development. With work experience and 16 general education units, students may also qualify for the California Child Development Permit: Master Teacher level. This permit is the gateway to becoming a Mentor Teacher with the CA Early Childhood Mentor Program.

PROGRAM STUDENT LEARNING OUTCOMES

1. Integrate an understanding of the needs, characteristics, and multiple influences that support optimal development in all areas of development for children from birth to age eight.
2. Apply methods and principles of effective supervision and mentoring in early childhood programs to develop positive staff relationships and support professional growth.
3. Design, implement, and evaluate developmentally appropriate environments, curriculum, and teacher/child interactions, while applying the skills of observation and assessment.
4. Apply effective guidance and interaction strategies that support a child's social learning, identity, and self-confidence in an early childhood classroom setting.
5. Apply ethical standards and professional behaviors that demonstrate understanding and knowledge, deepening the commitment to the Early Care and Education profession.

DIETETICS/NUTRITION/ FAMILY AND CONSUMER STUDIES

OVERVIEW

LACC's Dietetics/Nutrition/Family and Consumer Studies programs include an Associate in Science transfer degree in Nutrition and Dietetics and a Dietetic Service Supervisor certificate of achievement. The degree in Nutrition and Dietetics provides the first two years of the Registered Dietitian pathway. The Dietetic Service Supervisor certificate is an approved Pathway I program through the Association of Nutrition and Foodservice Professionals. Completion of Dietetic Service Supervisor courses provides eligibility for the Certifying Exam for Dietary Managers.

Dietetics/Nutrition/Family and Consumer Studies programs involve course, fieldwork, and hands-on experience in therapeutic and clinical nutrition, food service management, and food production through on-campus events and simulated restaurant experience. Students are invited and encouraged to take part in the Dietetics Club endorsed by the Associated Student Government. The club brings nutrition and healthy diet practices to the LACC community.

Nutrition and Dietetics

Associate in Science (AS-T) Degree

Major Units: 26 Total Units: Minimum of 60
(State Code: 38867; TOP Code: 130600; Academic Plan: C038867H)

The Nutrition and Dietetics AS-T prepares students to integrate and apply the principles of the food and nutrition sciences, human behavior, and the biomedical sciences to design and manage effective nutrition programming in a variety of settings including hospitals, health care organizations, food service operations, business and industry (product development, marketing, consulting), food assistance programs, education and research, health promotion, and private practice counseling. Careers include nutritionist, nutrition educator, weight loss counselor, diet technician, food services manager, patient services manager, dietitian, pediatric dietitian, nutrition researcher, sports and cardiac rehabilitation dietitian, nutrition consultant, diabetes educator, and many others.

The Associate degree track may be completed in two years and consists of a core of liberal arts, nutrition, and science courses. Support courses in the curriculum allow the student to explore special interests that are related to their personal/professional goals and interests.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:

- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Evaluate current health/ nutrition information for scientific accuracy and reliability.
- Apply scientific/reliable approaches to make recommendations to meet an individual's health and wellness goals.
- Utilize nutrition and diet technology to analyze the nutritional status of individuals and make appropriate dietary recommendations.
- Effectively communicate health and nutrition information through written assignments and oral presentations
- Identify components of a healthy diet and lifestyle that lead to optimal health and chronic disease prevention.
- Apply principles of diet therapy and specific diseases.

PROGRAM REQUIREMENTS

Requirements for the Nutrition and Dietetics Associate in Science transfer degree may be met by completing: (a) 15 units of major core courses, 8 units from "List A," and 3 units from "List B" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Dietetic Service Supervisor

Certificate of Achievement

Major Units: 25

(State Code: 08242; TOP Code: 130620; Academic Plan: C008242D)

The Dietetic Service Supervisor certificate meets the standards of training for dietetic service supervisors as specified by the California Department of Public Health (CDPH). Completion of the certificate qualifies students to work as a food service director in a variety of healthcare settings including skilled nursing facilities. Some responsibilities of a dietetic service supervisor are to supervise employees, assure menu acceptance by clients, and manage food production. Successful completion of the program also qualifies students to take the Certifying Exam for Dietary Managers through the Pathway One Program of the Association of Nutrition and Foodservice Professionals. Most certified dietary managers work in healthcare settings such as nursing homes, long-term care facilities, senior living communities, and hospitals. In these settings, the certified dietary manager is involved in nutrition screening, documentation, and care planning for patients and residents. For additional details, see the Certified Board for Dietary Managers (the credentialing agency for the Association of Nutrition & Foodservice Professionals) website at <https://www.cbddmonline.org/>. Students must provide their own transportation to assigned field placement sites. A Mantoux test, health exam, fingerprinting, drug screening, background check, and liability insurance are required for supervised practice courses.

PROGRAM STUDENT LEARNING OUTCOMES

1. Function as an important part of a health care team to treat and prevent disease and administer medical nutrition therapy.
2. Purchase and prepare food in a commercial kitchen.
3. Construct budgets within food service operations.
4. Analyze the nutrient content of a diet using dietary analysis software.
5. Deliver oral presentations educating clients about the connection between food, fitness, and health.

DENTAL TECHNOLOGY

OVERVIEW

Dental Prosthetic Technology

LACC's Dental Prosthetic Technology program is one of only two California community college programs accredited without reporting requirements by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA). The program is a member of the National Association of Dental Laboratories (NADL).

Using state-of-the-art equipment, experienced faculty, and hands-on instruction, the program prepares students for a successful career in dental technology. Classes cover basic and advanced prosthodontic designs and techniques, incorporating the applications of analogue and digital technologies. Program components include dental anatomy, the science of dental materials, history, ethics, and lab management. The curriculum is designed to prepare students to pass the Recognized Graduate (RG) exam and the Certified Dental Technologist (CDT) Specialty Exams.

The Dental Prosthetic Technology Associate of Science degree and certificate program are identical except that the degree requires additional general education courses. As part of the program, students will complete certificates of achievement in Fixed Prosthodontics and Removable Prosthodontics.

Entrance into the Dental Prosthetic Technology Program:

The first semester of Dental Technology courses prepares the student for entry into the program. The first semester is open to all students who have a high school diploma or GED. Advisories: General Chemistry and Physics.

To enter the program, students are required to complete DEN TEK 100 (Introduction to the Dental Laboratory) which includes a dexterity exam that is designed to measure hand/eye coordination and perception of three-dimensional objects; DEN TEK 101 (Elements of Dental Technology); and DEN TEK 102 (Dental Anatomy and Terminology) with a grade of "C" or better.

Digital Prosthetic Dentistry

The Digital Prosthetic Dentistry certificate of achievement consists of advanced courses in restorative prosthodontics technology and is open to all students who have successfully completed the Dental Prosthetic Technology certificate of achievement at LACC, similar programs accredited by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA), or by demonstrating competencies equivalent with the course objectives of DEN TEK 207, 208, and 401.

Immunizations

In order to minimize the potential for the spread of infectious diseases amongst patients and dental personnel, Dental Technology students and staff are highly encouraged to be immunized against and/or tested for infectious diseases such as mumps, measles, rubella, hepatitis B, and tuberculosis. If you have any questions regarding your immunization status or recommended immunizations for health care workers, consult your personal physician. If you would like to learn more about Dental Technology policies and procedures regarding infection control, you may contact the department at (323) 953-4000 x2500 or 2501, or at www.lacc.edu/academics/departments.

Dental Prosthetic Technology

Associate of Science (AS) Degree

Major Units: 73.5

(State Code: 02748; TOP Code: 124030; Academic Plan: C002748C)

The Dental Prosthetic Technology Associate of Science degree is specifically designed to provide students with the skills, knowledge, and background necessary to become a dental technologist in either a commercial dental laboratory or dental office laboratory. Successful entrance into the program requires good hand/eye coordination, communication skills, and the ability to follow directions. The curriculum is delivered in four semesters and three intercessions and includes four levels of cumulative didactic and laboratory instruction in Fixed and Removable Prosthodontics with full integration of digital technology. Courses in the Dental Prosthetic Technology curriculum are sequential.

Students who successfully complete all the Dental Prosthetic Technology courses will be eligible to sit for the Recognized Graduate Certified Dental Technologist Exam administered by the National Board for Certification in Dental Technology. The Dental Prosthetic Technology degree is accredited by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA), a specialized accrediting body recognized by the United States Department of Education.

PROGRAM STUDENT LEARNING OUTCOMES

1. Understand, interpret, and follow instructions provided by the dentist.
2. Incorporate the dental anatomy, morphology, gnathological knowledge, and science of dental materials into the design and construction of dental prosthetic restorations.
3. Design and construct basic orthodontic restorations, and partial and full removable dental prosthesis.
4. Design and construct fixed dental prosthesis single and multiple units.
5. Design and construct all ceramic and metal ceramic restorations.

PROGRAM REQUIREMENTS

Requirements for the Dental Prosthetic Technology Associate of Science degree may be met by completing: (a) 73.5 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Digital Prosthetic Dentistry

Certificate of Achievement

Major Units: 16

(State Code: 38651; TOP Code: 124030; Academic Plan: C038651D)

The Digital Prosthetic Dentistry certificate of achievement provides students with a complex learning experience incorporating advanced restorative fixed and removable prosthodontics concepts and techniques, science of materials, esthetic and optic components (smile design), implants, fixed and removable combined case analysis, and the integration of digital technologies.

Students who complete the Digital Prosthetic Dentistry certificate program will have the necessary skills and knowledge required for positions in the restorative prosthodontic technology industry including digital fixed prosthodontics/implants technologist, digital removable prosthodontics/implants technologist, and dental ceramist.

PROGRAM STUDENT LEARNING OUTCOMES

1. Students will learn to evaluate, plan, scan, design and process complex advanced fixed prosthodontics cases, including multiple units restorations, frames and full contours bridges, implant restorations and combination cases. The students will complete clinically acceptable prosthetic restorations, where the coordination between function and esthetics is fully maximized.
2. The student will apply the principles of computer application design (CAD) in the anterior segment reconstruction by using the correct morphology and function in arch integration.
3. The student will select the correct materials based on case requirements.
4. The student will apply the principles of optical characterization as to achieve natural look.
5. Students will learn to evaluate, plan, scan, design and process complex advanced removable prosthodontics cases, including partial dentures, implant over dentures. The students will complete clinically acceptable prosthetic restorations, where the coordination between function and esthetics is fully maximized.
6. The student will evaluate and design complex partial denture frameworks restorative cases according to biomechanical principles and clinical standards with the aid of computer applications design (i.e. CAD technologies).
7. The student will evaluate, design and fabricate with the aid of CAD/CAM technologies, screw retained bar over multiple units abutments in accordance with clinical standards.
8. The student will evaluate, design and fabricate with the aid of CAD/CAM technologies, screw retained bar over multiple units abutments in accordance with clinical standards.
9. The students will gain the necessary proficiencies required for the Certified Dental Technologist Ceramic, Crown and Bridge, Implant, Dentures Specialty Practical Exam.

PROGRAM REQUIREMENTS

Requirements for the Digital Prosthetic Dentistry certificate of achievement may be met by completing 16 units of required courses with a grade of "C" or better.

Dental Prosthetic Technology

Certificate of Achievement

Major Units: 73.5

(State Code: 21626; TOP Code: 124030; Academic Plan: C021626D)

The Dental Prosthetic Technology certificate of achievement is specifically designed to provide students with the skills, knowledge, and background necessary to become a dental technologist in either a commercial dental laboratory or dental office laboratory. Successful entrance into the program requires good hand/eye coordination, communication skills, and the ability to follow directions. The curriculum is delivered in four semesters and three intercessions and includes four levels of cumulative didactic and laboratory instruction in Fixed and Removable Prosthodontics with full integration of digital technology. Courses in the Dental Technology curriculum are sequential. All courses listed are also required for the Dental Prosthetic Technology Associate of Science degree.

Students who successfully complete all the Dental Technology courses will be eligible to sit for the Recognized Graduate Certified Dental Technologist Exam administered by the National Board for Certification of Dental Technologists. The Dental Prosthetic Technology Certificate of Achievement is accredited by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA), a specialized accrediting body recognized by the United States Department of Education.

PROGRAM STUDENT LEARNING OUTCOMES

1. Understand, interpret, and follow instructions provided by the dentist.
2. Incorporate the dental anatomy, morphology, gnathological knowledge, and science of dental materials into the design and construction of dental prosthetic restorations.
3. Design and construct basic orthodontic restorations, and partial and full removable dental prosthesis.
4. Design and construct fixed dental prosthesis single and multiple units.
5. Design and construct all ceramic and metal ceramic restorations.

PROGRAM REQUIREMENTS

Requirements for the Dental Prosthetic Technology certificate of achievement may be met by completing 73.5 units of required courses with a grade of "C" or better. A pre-algebra course or higher must be taken before the completion of the Dental Prosthetic Technology Certificate Program.

Fixed Prosthodontics

Certificate of Achievement

Major Units: 40.5

(State Code: 39316; TOP Code: 124030; Academic Plan: C039316D)

The Fixed Prosthodontics certificate of achievement is designed to provide students with learning experiences pertaining to fixed prosthodontics technology including crown, bridge, and ceramics. The courses are sequential, delivered in four semesters and one intercession, providing students with a cumulative learning experience that includes concepts of dental morphology, function, science of materials, and their application in the design and fabrication of the fixed dental prosthesis. Students evaluate design and construct dental prosthesis by using analogue and digital tools and technologies.

PROGRAM STUDENT LEARNING OUTCOMES

1. Understand, interpret, and follow instructions provided by the dentist.
2. Incorporate the dental anatomy, morphology, gnathological knowledge, and science of dental materials into the design and construction of dental prosthetic restorations.
3. Design and construct fixed dental prosthesis single and multiple units.

PROGRAM REQUIREMENTS

Requirements for the Fixed Prosthodontics certificate of achievement may be met by completing 40.5 units of required courses with a grade of "C" or better.

The Removable Prosthodontics certificate of achievement is designed to provide students with learning experiences pertaining to removable prosthodontics technology, including removable partial dentures and complete dentures. The courses are sequential, delivered in four semesters and three intersessions, providing the students with cumulative learning experiences that include concepts of dental morphology, function, science of materials, and their application in the design and fabrication of the removable dental prosthesis. Students will evaluate design and construct dental prosthesis by using analogue and digital tools and technologies.

PROGRAM STUDENT LEARNING OUTCOMES

1. Understand, interpret and follow instructions provided by the dentist.
2. Incorporate the dental anatomy, morphology, gnathological knowledge, and science of dental materials into constructions.
3. Design and construct basic orthodontic restorations, and partial and full removable dental prosthesis.

KINESIOLOGY

OVERVIEW

Kinesiology is an academic discipline that involves the study of physical activity and its impact on health, society, and quality of life. The Kinesiology department is student centered in its approach. The department strives to educate and inspire students to understand the importance of physical activity during the lifespan.

Kinesiology

Associate in Arts (AA-T) Degree

Major Units: 21-22 Total Units: Minimum of 60

(State Code: 36026; TOP Code: 127000; Academic Plan: C036026G)

Kinesiology is the study of the art and science of human movement throughout our lifespan. Students are introduced to evidence-based research supporting the wellness effects of exercise in our communities, schools, work place, and clinical settings. Kinesiology provides areas of study in teaching (pedagogy), coaching, group and personal training, health/fitness promotion, exercise physiology, biomechanics, motor learning and development, athletic training, sports management, dance, adapted physical education, sports psychology, sports nutrition, exercise equipment design/testing, wellness coaching, cardiac rehabilitation, and gerokinesiology, as well as pre-professional training for physical therapy, medicine, and research.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and

- A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Describe the fundamental principles of kinesiology, including functional anatomy, exercise physiology, biomechanics, motor development, and the application of these sciences to fitness and skill development, exercise progression, programming, design, and goal setting.
- Identify rules, strategies, techniques, safety, and effectiveness cues and etiquette of the various movement activities and sports.
- Examine and evaluate progressive adaptation to physical activities and the relationships to health promotion, wellness, fitness, and lifestyle/behavior modifications.
- Evaluate and appraise the vast applied and clinical career opportunities in the field of kinesiology and other related fields.

PROGRAM REQUIREMENTS

Requirements for the Kinesiology Associate in Arts transfer degree may be met by completing: (a) 11 units of major core courses, 3 units of movement-based courses in "Areas 1-6," and 7-8 units in "List A" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Public Health Science

Associate in Science (AS-T) Degree*Major Units: 33 Total Units: Minimum of 60**(State Code: 39577; TOP Code: 120100; Academic Plan: C039577H)*

The Public Health Science Associate in Science transfer degree is designed to prepare students for a seamless transfer into the California State University (CSU) system to complete a baccalaureate degree in Public Health Science or similar majors.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher to earn the degree, including a C or better (or P, if P/NP grading is allowed) in all courses required for the major. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Describe the core functions of public health.
- Identify various career opportunities within the field of public health.
- Apply critical analysis skills to contemporary health issues.
- Assess the fundamental characteristics and organizational structures of the U.S. health system and note significant differences in systems in other countries.
- Discuss the role of community engagement in promoting public health and social justice.
- Describe risk factors and modes of transmission for infectious and chronic diseases and how these diseases affect both personal and public health.
- Appreciate the multiple determinants of health, including sociological, economic, genetic, behavioral, environmental, and other factors that impact human health and health disparities.

- Apply the basic concepts, methods, and tools of public health data collection, use, and analysis and explain why evidence-based approaches are an essential part of public health practice.
- Endorse lifestyle behaviors that promote individual and public health and well-being.
- Value multicultural perspectives and sensitivities on health.

PROGRAM REQUIREMENTS

Requirements for the Public Health Science Associate in Arts transfer degree may be met by completing: (a) 30 units of major core courses and 3 units from "List A" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Fitness Specialist/Personal Trainer/Group Fitness Instructor

Certificate of Achievement*Major Units: 19.5-21.5**(State Code: 38829; TOP Code: 083520; Academic Plan: C038829D)*

The Fitness Specialist/Personal Trainer/Group Fitness Instructor Certificate is designed to prepare students with the knowledge, skills and abilities required to become a Personal Trainer. The program course work will prepare students to successfully obtain an NCCA Accredited Personal Training/ Group Fitness Certification, earn secondary specialized fitness certifications relevant today's fitness hiring management, develop comprehensive knowledge of evidence-based practice and apply the tools, protocols, and resources specific to the working with the general population as a fitness professional. Practical experience is integrated into curriculum to develop the skills required for employment as a personal trainer. Students are recommended to have basic knowledge of human biology, basic English writing and speaking skills, and the ability to perform moderate physical activity before beginning this program.

PROGRAM STUDENT LEARNING OUTCOMES

1. Apply appropriate exercise science and kinesiology-related principles to design safe and effective exercise sessions based on movement screening and assessment.
2. Demonstrate effective communication skills and teaching strategies when coaching individuals one on one, in small group and large group fitness training environments.
3. Use scientifically anchored periodization protocols to deliver safe and effective exercise training programs when coaching individuals one on one, in small group and large group fitness training environments.

PROGRAM REQUIREMENTS

Physical Therapy Aide

Certificate of Achievement

Major Units: 19.5

(State Code: 43016; TOP Code: 122200; Academic Plan: C043016D)

The Physical Therapy Aide Certificate of Achievement is designed to prepare students with the knowledge and skills and abilities required to competently work hand in hand with a Physical Therapist in a treatment plan. The program course work will prepare student to help with the treatment plan used to help individuals receiving treatment from injury and or physical disability/limitations. Students will develop the skillset and learn various therapeutic exercises, use of rehabilitation modalities, corrective exercise, basic anatomy and physiology in completion of the program.

PROGRAM STUDENT LEARNING OUTCOMES

1. Apply the education, training, and hands on experience needed to enter the Physical Therapy field in the workforce.
2. Demonstrate competent skillset in preparing treatment areas, ordering devices and supplies, and transporting patients.
3. Assist the Physical Therapist or Physical Therapy Assistant with administering treatment plans under direct supervision of the Physical Therapist and/or Physical Therapy Assistant.
4. Identify the key role of the physical therapy aide in a variety of settings including hospitals, rehabilitation centers, nursing homes, home care agencies, outpatient clinics, community health centers, and sports medicine clinics.

NURSING

OVERVIEW

The LACC Registered Nursing program leads to eligibility for licensure as a registered nurse (RN). The program is accredited by the California Board of Registered Nursing.

The Associate of Science degree is a two-year full-time program that includes theory and clinical courses. Clinical experiences include the opportunity for students to participate in nursing care and treatments of clients in hospitals and other health care facilities.

Admission to the Program

All students interested in the Nursing Program must first attend a mandatory information session. Prospective students should visit the department website for information. Details on Registered Nursing program standards can be found in the E-10 Guidelines at the LACC Nursing and LACCD websites.

The following are required for entry into the program:

1. Completion of prerequisite courses with a grade of "C" or better, posted on the student transcript. Prerequisite courses include: Anatomy 001 (4 units); Physiology 001 (4 units); Microbiology 020 (4 units); Chemistry 060 (5 units) if the student has not completed one-year of high school Chemistry (two semesters each with a "C" or higher); Psychology 001 (3 units); Psychology 041 (3 units); English 101 (3 units); and Math 125, the equivalent, or higher (5 units). Students must meet a "cut score" of 80% based on college grade point average (GPA), college English GPA, and core Biology GPA. Students are strongly encouraged to complete Communication Studies 101 (3 units), an American Institutions course (3 units), and a Humanities course (3 units) prior to entering the program, as these are required to graduate.
2. Students must take the Test of Essential Academic Skills (TEAS)—a diagnostic assessment test of basic math, English, reading, and science—and achieve a composite minimum average score of 62% on the first attempt or, on a second attempt, a minimum of 62% in all areas after remediation.
3. Submit a Nursing Program application with proof of high school diploma and/or college degree. If students received their high school diploma from a foreign country and/or are requesting equivalency of foreign college credits to fulfill prerequisites, transcripts must be evaluated for equivalency by an LACCD approved agency.
4. The complete application is reviewed by a selection committee. Should the number of qualified applicants exceed the number of available openings, a simple lottery will be implemented.

NCLEX-RN Exam

Upon graduation, students will be eligible to apply for and take the NCLEX-RN examination. The Board of Registered Nursing may deny licensure on such grounds as being convicted of crime, acts of dishonesty, and fraud or deceit.

The information above may be updated or modified subject to district, state, and/or BRN request. Contact the LACC Nursing Department and visit the LACC Nursing website for additional information.

RADIOLOGIC TECHNOLOGY

OVERVIEW

Radiologic Technology is a health care profession whose practitioners work in hospitals, clinics, free-standing imaging centers, and private offices. The radiologic technologist (radiographer) is a member of the health care team who works directly with the patient and the physician, performing a wide variety of diagnostic x-ray procedures.

A career in Radiologic Technology offers vast opportunities for advancement. The radiographer must be proficient in the knowledge of radiographic exposure, anatomy, patient positioning, the operation of specialized equipment, and the care and management of the patient. The rapid expansion of medical diagnostic imaging has greatly increased the diversity and utility of medical diagnosis. Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California Department of Public Health (CDPH).

The Radiologic Technology curriculum is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the State of California, Department of Public Health. The clinical educational centers are accredited by the Joint Commission for the Accreditation of Health Care Organizations (JCAHO). Los Angeles City College is accredited by the Western Association of Schools and Colleges. Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California, Department of Health Services, Radiologic Health Branch. An advisory committee, composed of Radiologists, Radiologic Technologists, Radiology Administrators, Clinical Instructors and Student Technologists, cooperates with the College faculty and administrators in continuous curriculum development, evaluation, and revision.

ADMISSIONS TO THE PROGRAM

Prerequisite courses for entrance into the Radiologic Technology program are Anatomy 001; Physiology 001; English 101; Math 125, the equivalent, or higher; and Radiologic Technology 200, 201, 202, and 203. We encourage for you to meet with an LACC Counselor for questions regarding the Math, English, and general education courses.

All LACCD students must also satisfy the general education requirements prior to applying for entry into the Radiologic Technology program (an exception to this rule is if students already possess an

Associate or higher degree from a regionally accredited program). This change corresponds to the ARRT 2015 associate degree requirement.

An application form, to be submitted online through the LACC Radiologic Technology Department website at:

www.lacc.edu/academics/pathways/hs/radiology-dept

Applicants are selected via lottery and are placed on a waiting list. The waiting list selection method was implemented for the first time with the fall 2020 cohort.

Associate of Science (AS) Degree

Major Units: 100.5

(State Code: 02749; TOP Code: 122500; Academic Plan: C002749C)

PROGRAM STUDENT LEARNING OUTCOMES

1. Position the patient to demonstrate the requested anatomy required by the physician to show the presence or absence of disease.
2. Effectively and efficiently assess the patient's condition and communicate relative information to doctors, the patient, family members, and other hospital staff.
3. Administer ionizing radiation, ethically and judiciously, to the patient following the principle of "as low as reasonably achievable."
4. Employ patient care practices based on acceptable ethical behavior and established standards within their scope of practice.
5. Pass the registration and licensing examinations offered by state and national accrediting organizations.
6. Pass the American Registry of Radiologic Technology examination in radiography.

PROGRAM REQUIREMENTS

Requirements for the Radiologic Technology Associate of Science degree may be met by completing: (a) 100.5 units of major core courses with a grade of “C” or better; (b) all general education requirements (English and Math must be completed with a grade of “C” or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Skills Certificate

Major Units: 8

(TOP Code: 122500; Academic Plan: C122502J)

The Patient Care skills certificate focuses on teaching students to deliver quality care to diverse patients of various ages and ethnicities. Students complete an internship while enrolled in the cooperative education courses.

PROGRAM STUDENT LEARNING OUTCOMES

1. Analyze acute changes in the patient's condition and take appropriate interventional action.
2. Employ the techniques of body mechanics necessary for safe transport, transfer and positioning of patients.
3. Examine changes in a patient's condition that would signal an emergency requiring immediate care.

The School of Language Arts, Social and Behavioral Sciences

The School of Language Arts, Social and Behavioral Sciences provides students with a comprehensive education in language, literature, communication, social sciences, and behavioral sciences. The programs offered within the pathway showcase a diverse range of programs and courses aimed at fostering critical thinking, effective communication, cultural understanding, and social awareness. The pathways in Language Arts, Social and Behavioral Sciences provide students with a rich and intellectually stimulating educational experience that prepares them for success in their academic and professional pursuits, as well as for active and informed citizenship in an increasingly complex and interconnected world. Through rigorous coursework, experiential learning opportunities, and supportive faculty mentorship, students in these programs develop the skills, knowledge, and perspectives needed to navigate diverse cultural, social, and intellectual landscapes.

LANGUAGES, HUMANITIES, AND COMMUNICATION

Programs in English/ESL typically focus on developing students' writing, reading, and analytical skills, as well as exploring literature from diverse cultural and historical perspectives. Communication Studies programs provide students with the tools to effectively convey ideas, information, and arguments in various interpersonal, organizational, and public settings. Journalism programs cover principles of reporting, writing, and media production, preparing students for careers in print, broadcast, digital, and multimedia journalism. Philosophy programs engage students in critical inquiry into fundamental questions about existence, knowledge, ethics, and the nature of reality.

SOCIAL AND BEHAVIORAL SCIENCES

In the Social and Behavioral Sciences career and academic pathway at Los Angeles City College, students have the opportunity to explore a wide range of fields, including psychology, sociology, and political science. These programs offer comprehensive coursework covering various aspects of human behavior, cognition, emotion, developmental psychology, abnormal psychology, and research methods. Social Sciences programs delve into the examination of social structures, institutions, and processes, addressing critical issues such as inequality, diversity, globalization, and social change. Additionally, the college offers specialized programs like African American Studies, focusing on the history, culture, and contributions of African Americans. Political Science, which delves into government systems and policies. Social Justice, aimed at understanding and addressing social inequalities. Sociology, which examines social interactions and institutions. Administration of Justice. This program prepares students for careers in law enforcement. Law, which focuses on studying legal principles and systems. Humanities is a program encompassing human culture and the arts. Modern Languages and Civilizations focuses on modern languages and associated cultures, Philosophy explores fundamental questions about existence and ethics. Lastly, Psychology and Human Services examines human behavior and emotional well-being while covering topics such as counseling techniques and social services. These programs provide students with a rich and diverse educational experience, equipping them with valuable knowledge and skills applicable to various academic and career paths.

ADMINISTRATION OF JUSTICE

OVERVIEW

The Administration of Justice programs are designed to prepare students to begin careers as police officers, custodial officers, deputy sheriffs, probation/parole officers, highway patrol officers, private investigators, forensic specialists, insurance investigators, police assistants, financial investigators, and fingerprint experts. The programs stress practical application in order to expose students to the fundamental concepts and tasks of law enforcement and ready them for employment. Additionally, students are prepared for the qualification and screening process required to enter law enforcement academies such as the Los Angeles Police Academy.

Associate in Science (AS-T) Degree

Major Units: 18-19 Total Units: Minimum of 60

(State Code: 33121; TOP Code: 210500; Academic Plan: C033121H)

The Administration of Justice Associate in Science transfer degree prepares students for transfer to the California State University (CSU) system and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Criminal Justice at a CSU. The courses emphasize the modern role of law enforcement and corrections within the criminal justice systems. Written and oral communication skills are a consistent focus.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- Minimum grade of "C" (or "P") for each course in the major and minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Explain how law enforcement is a critical part of the criminal justice system.
- Apply practical forensic techniques to successfully complete a criminal investigation
- Recognize the responsibilities and requirements of law enforcement careers.

PROGRAM REQUIREMENTS

Requirements for the Administration of Justice Associate in Science transfer degree may be met by completing: (a) 6 units of major core courses, 6 units from "List A," and 6-7 units from "List B" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

LAW**OVERVIEW**

In addition to offering Business Law courses to the student community, the Law discipline also offers the Paralegal Program. The Paralegal Program is approved by the American Bar Association (A.B.A.), which is significant in that the most lucrative paralegal jobs require a paralegal degree or certificate from an A.B.A.-approved paralegal program. We offers two options: an Associate of Arts degree in Paralegal Studies and a certificate of achievement in Paralegal Studies for degree holders. Note that paralegals may not provide legal services directly to the public, except as permitted by law. For more information, contact the Paralegal Program director.

The Law, Public Policy, and Society is designed to prepare students for transfer into the CSU system to complete a baccalaureate degree in American Studies, Communications, Criminal Justice, Criminology, Global Intelligence and National Security, International Relations, Philosophy, Political Science, Social and Behavioral Sciences (Political Economy Concentration) (Note: List is not meant to be exhaustive. Other destination majors may exist.) or a similar major. Upon completion of this degree, students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Students who have completed the Law, Public Policy, and Society will have satisfied the lower division requirements for transfer into American Studies, Communications, Criminal Justice, Criminology, Global Intelligence and National Security, International Relations, Philosophy, Political Science, Social and Behavioral Sciences (Political Economy Concentration) (Note: List is not meant to be exhaustive. Other destination majors may exist.) or similar major for many campuses in the California State University system. This degree complies with the Student Transfer Achievement Reform Act (California Education Code 66746).

Students must complete the following Associate Degree for Transfer requirements:

1. Completion of 60 semester units (or 90 quarter units) that are eligible for transfer to the California State University, including both of the following:
 - a. The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements.

b. A minimum of 18 semester units (or 27 quarter units) in a major or area of emphasis, as determined by the community college district.

- Obtainment of a minimum grade point average of 2.0.
- Obtainment of a grade of C or higher in each course in the Area of Emphasis, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).

PROGRAM STUDENT LEARNING OUTCOMES

- Use evidence and data to develop arguments related to pertinent legal, public policy, and societal issues.
- Successfully complete the reasoning and formal or informal logic coursework, and provide evidence through coursework that students can successfully apply those skills.
- Understand the role of law and public policy in private and public life.
- Recognize and implement the connections between theory and practice.
- Be able to find, interpret, integrate, synthesize and apply information effectively from multiple sources to legal, public policy, and societal issues.
- Understand ways in which privilege and marginality shape lives, opportunities and communities, and understand how to effectively respond to these through community action, the law or public policy.
- Understand how to work cooperatively with communities and other constituencies.
- Coherently and compellingly communicate – in both verbal and written form – arguments, policies and actions pertinent to the law, public policy, and society.

Paralegal Studies

Associate of Arts (AA) Degree

Major Units: 43 Total Units: Minimum of 60
(State Code: 02750; TOP Code: 140200; Academic Plan: C002750C)

The Paralegal Studies Associate of Arts degree is best suited for students who do not hold a degree. The course of study is comprised of paralegal-specific courses, paralegal-related courses, and general education courses. This combination of courses produces a professional and competent paralegal. The degree is not intended to prepare a student for transfer to a four-year college or university.

PROGRAM STUDENT LEARNING OUTCOMES

1. Provide the student with an overview of the paralegal profession that includes typical paralegal tasks, places of legal employment, areas of law, and ethical responsibility.
2. Provide the student with an understanding of the court system and the rules of civil procedure.
3. Develop the student's legal writing skills by exercising the student's critical thinking skills and analytical skills.

4. Provide the student with an understanding of legal research and develop the student's ability to locate answers to legal questions.
5. Develop the student's ability to prepare legal documents that are adequate, accurate, and professional.
6. Ensure that students have current skills in technology, including the use of computers for data and word processing, and legal research.

Paralegal Studies

Certificate of Achievement

Major Units: 46

(State Code: 39561; TOP Code: 140200; Academic Plan: C039561D)

The Paralegal Studies certificate of achievement is an option for students who hold a degree of A.A., A.S., or higher degree from a regionally accredited post-secondary institution. The course of study is comprised of paralegal-specific and paralegal-related classes. The combination of courses produces a professional and competent paralegal. Although ENGLISH 101 is a co-requisite for LAW 010, Introduction to Legal Assistant I, it is expected that a degree holder would have satisfied this requirement during their previous course of study. The certificate is not intended to prepare a student for transfer to a four-year college or university.

PROGRAM STUDENT LEARNING OUTCOMES

1. Provide the student with an overview of the paralegal profession that includes typical paralegal tasks, places of legal employment, areas of law, and ethical responsibility.
2. Provide the student with an understanding of the court system and the rules of civil procedure.
3. Develop the student's legal writing skills by exercising the student's critical thinking skills and analytical skills.
4. Provide the student with an understanding of legal research and develop the student's ability to locate answers to legal questions.
5. Develop the student's ability to prepare legal documents that are adequate, accurate, and professional.
6. Ensure that students have current skills in technology, including the use of computers for data and word processing, and legal research.
7. Through practical application, improve the student's ability to work cooperatively with others, develop leadership skills and the ability to assume responsibility, and improve the ability to follow directions.

Pathway to Law School

Certificate of Achievement

Major Units: 25

(State Code: 39348; TOP Code: 140100; Academic Plan: C039348D)

The Pathway to Law School certificate of achievement enhances a student's academic preparation for law school. A law school accredited by the American Bar Association will typically require the completion of a bachelor's degree. However, incorporating this certificate of achievement as one element of undergraduate work substantiates a student's commitment to and preparation for the rigors of law school. Law school admissions officials may consider the certificate of achievement in making their admissions decisions. Course work and the supplemental programming provide students with information about applying to law school after attaining a bachelor's degree, career options with a law degree, common admissions issues for law school applicants; financial planning for law school, and other related matters.

This Certificate of achievement is part of an initiative by the California State Bar to improve access and success for law school applicants.

PROGRAM STUDENT LEARNING OUTCOMES

1. Complete the academic preparation at the lower division level that will be needed for success in law school, and thereafter in using a law degree professionally.
2. Develop awareness of the law school application process, including resources and networks to support them.
3. Preparation to complete a bachelor's degree and attend law school to strengthen the equity, diversity, and inclusivity of people in the legal profession.

ENGLISH

OVERVIEW

The English and ESL (English as a Second Language) Department offers courses in composition and critical thinking, as well as literature courses suitable for university and college transfer. In ENGLISH 101, 102, and 103, students develop writing skills that demonstrate strong organization of argument (introduction, thesis, supportive paragraphs, and conclusion), sophisticated criticism and analyses of college level reading, which includes both literary works and philosophical discourses, and proper grammar use with emphasis on word and sentence style.

ENGLISH 127 and courses in the ENGLISH 200 series focus on literature and the creative process, elevating critical thinking skills to include literary theory. These courses promote not only comprehensive learning, but also the lifelong pursuit of knowledge. They provide a mastery of transfer-level skills, so that students achieve their occupational goals and are ready to face increasingly competitive demands of business and industry.

English

Associate in Arts (AA-T) Degree

Major Units: 18 Total Units: Minimum of 60
(State Code: 33147; TOP Code: 150100; Academic Plan: C033147G)

The English Associate in Arts transfer degree offers extensive English courses and meets the lower division courses requirements necessary for the California State University (CSU) system. The English program is geared to assist students at all levels, so that they may improve their writing and prepare to transfer in an environment that fosters a rich literary tradition. Students develop methods for critical interpretations of relevant works of English, American, and other literatures in English.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Read sophisticated college-level expository texts and works of literature that deal with various literary, historical, and cultural themes; distinguish main ideas and supporting points; evaluate the persuasiveness of arguments and evidence; critique assumptions using critical thinking.
- Plan and write well-focused, logically organized, thoroughly developed, and coherent extended college level essays (1000-2000 words) that analyze, interpret, and compare concepts and that argue for or against a position; demonstrate in-depth knowledge of the writing process.
- Distinguish between different styles of written English and evaluate the appropriateness of a particular style, tone, or voice for a given audience; vary sentence shape and structure for emphasis and effect; use all major forms of punctuation effectively, including colons.

PROGRAM REQUIREMENTS

Requirements for the English Associate in Arts transfer degree may be met by completing: (a) 6 units of major core courses, 6 units from "List A," 3 units from "List B," and 3 units from "List C" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Creative Writing

Associate of Arts (AA) Degree

Major Units: 27 Total Units: Minimum of 60
(State Code: 43855; TOP Code: 150700; Academic Plan: C043855C)

The Creative Writing AA degree allows students to pursue further education in Creative Writing by preparing them to enter into a 4-year program with lower-division courses completed, so a student may focus on their preferred genre and form. The degree program instructs students to distinguish key elements of the four genres (fiction, creative nonfiction, poetry, and playwriting) while incorporating key elements of each genre in their own work. During the program, students will also be tasked to evaluate both student and professional writers' mastery of key elements of the four genres using criteria established by the course texts and by instructor during class lecture and discussions. Students can also gain experience as editors on our college literary journal by selecting content and working on the production and design process. Upon completion, students will have a strong introduction to the scholarship and practice of Creative Writing, allowing them to either continue their education in the field or provide them lower-division credits towards related English degrees. Completing this degree also helps students prepare for employment in many creative fields, including advertising copy writer, bookstore manager, continuity writer, corporate communications director, lawyer, librarian, publication editor, publicity director, publishing agent, teacher/professor, and writer.

PROGRAM STUDENT LEARNING OUTCOMES

1. The student will demonstrate familiarity of the major structures of Creative Writing, including Narrative, Character, Language, and Voice.
2. The student will demonstrate effective revision and self-editing techniques.
3. The student will demonstrate a complete piece of Creative Writing, whether it be a chapter of a novel-length work, a short story, or a complete poem.
4. The student will participate in collaborative editing processes through workshop and learn the importance of feedback within the field.

PROGRAM REQUIREMENTS

Requirements for the English Associate of Arts degree may be met by completing: (a) 15 units of major core courses and 12 units of major elective courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with

Certificate of Achievement

Major Units: 21

(State Code: 43160; TOP Code: 150700; Academic Plan: C043160D)

Creative Writing Certificate of Achievement allows students to distinguish key elements of the four genres (fiction, creative nonfiction, poetry, and playwriting) while incorporating key elements of each genre in their own work. During the program, students will also be tasked to evaluate both student and professional writers' mastery of key elements of the four genres using criteria established by the course texts and by instructor during class lecture and discussions. Students can also gain experience as editors on our college literary journal by selecting content and working on the production and design process. Upon completion, students with this certificate will meet some lower division creative writing requirements for English bachelor's degrees at most colleges with an emphasis or minor in literature and creative writing. Completing this certificate also helps students prepare for employment in many creative fields, including advertising copy writer, bookstore manager, continuity writer, corporate communications director, lawyer, librarian, publication editor, publicity director, publishing agent, teacher/professor, and writer.

PROGRAM STUDENT LEARNING OUTCOMES

1. Distinguish key elements of the four genres (fiction, drama, creative non-fiction and poetry) and incorporate key elements of each genre in their own work.
2. Evaluate both student and professional writers' mastery of key elements of the four genres using criteria established by the course texts and by instructor during class lecture and discussions.
3. Synthesize critical appraisals of original drafts and incorporate that feedback into subsequent revisions.
4. Participate actively in class by supporting the workshop environment through reading, class discussion, and peer feedback.

This Certificate of Achievement in Linguistics - English/ESL develops a student's capacity to observe, assess, and analyze how language operates. The theoretical foundations of linguistics provide the basis for gaining insight into language structure and use, while academic learning of English and/or foreign languages as well as their literatures provides opportunities for applying these concepts to language practice. Multidisciplinary in nature, this area of emphasis includes social, psychological, historical, and cross-cultural aspects of language. Students who complete this certificate are prepared for advanced study in Linguistics and Foreign Languages at CSU, UC, and private universities. Completing this certificate also helps students prepare for employment in education, research, communication, psychology, speech pathology, cultural studies, and child development.

PROGRAM STUDENT LEARNING OUTCOMES

1. Apply linguistic analysis to works of literature in English.
2. Apply language acquisition theories to original data and live subjects.
3. Compare structural features of English.
4. Differentiate structural elements among multiple dialects of English.
5. Examine original language data in English using linguistic methods.

OVERVIEW

As we strive to create a more civil public discourse, a more adaptable and creative workforce, and a more secure nation, the humanities and social sciences are the heart of the matter, the keeper of the republic—a source of national memory and civic vigor, cultural understanding and communication, individual fulfillment, and the ideals we hold in common. They are critical to a democratic society. In the Humanities you will develop skills of critical analysis, including gathering evidence and evaluating arguments. You will examine texts and other sources carefully, learning skills that can make your interpretation precise and convincing. We will help you sharpen these skills, which will prove invaluable lifelong, both in your private life and in your career. We will empower you to think for yourself, to learn to work in teams, and to present your case in writing, discussions, and presentations.

Humanities

Associate of Arts (AA) Degree

Major Units: 18 Total Units: Minimum of 60
(State Code: 02767; TOP Code: 490300; Academic Plan: C002767C)

The Humanities AA degree is an interdisciplinary studies sequence that brings together the arts, literature, philosophy, social sciences, and cultural studies classes in a structured program that enhances students' writing and critical thinking skills, encourages creativity, and develops empathy and a sense of social justice. It provides a strong foundation for a wide range of undergraduate majors, including humanities, the arts, literature, history, world cultures, and ethnic and gender studies. A minimum of 18 units of Arts, Literature, Cultural Studies, and Humanities classes are required for the Humanities degree.

PROGRAM STUDENT LEARNING OUTCOMES

1. Analyze how primary source documents reflect the values and beliefs of a specific culture.
2. Use an appropriate passage from the source material to support the thesis.
3. Deliver a prepared, purposeful presentation designed to increase knowledge, to foster understanding and to promote

change in the listeners' attitudes, values, beliefs, or behaviors.

PROGRAM REQUIREMENTS

Requirements for the Humanities Associate of Arts degree may be met by completing: (a) 18 units of major core courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

CSU General Education Breadth

Certificate of Achievement

Major Units: 39

(State Code: 18569; TOP Code: 490110; Academic Plan: C018569D)

The CSU General Education Breadth (CSU GE-Breadth) certificate of achievement is designed for students planning to transfer to the California State University (CSU) system. The CSU GE-Breadth certificate of achievement requires completion of 39 semester units of lower-division general education coursework with a "C-" grade or better in Subject Areas A1, A2, A3, and B4 (The "Golden Four"). It is strongly recommended that students work with their academic counselor to review additional transfer requirements for specific majors at the CSU campuses to which they intend to transfer.

PROGRAM STUDENT LEARNING OUTCOMES

1. Communicate effectively, both verbally and in writing.
2. Critically analyze and solve problems using the appropriate technique for the issue at hand, including appropriate use of logic, mathematics, multi-disciplinary, and cultural considerations where applicable.
3. Critically examine the function, media, subject matter, organization, aesthetic, style, and relative excellence of representative examples of the arts, literature, philosophy, and foreign languages including approaches from various historical, cultural, and gender-based origins.
4. Develop an understanding of the information available, the perspectives and approaches of the physical, biological, social and behavioral sciences, appreciating the power and limits of these methods of inquiry and both individual, ethical, and societal responsibilities.
5. Organize and present information in person in a logical and understandable manner.

PROGRAM REQUIREMENTS

Requirements for the CSU General Education (CSU GE-Breadth) certificate of achievement may be met by completing 39 units of required courses under the CSU General Education Breadth Requirements Check Sheet with a grade of "C" or better. See a counselor for more details.

IGETC

Certificate of Achievement

Major Units: 34

(State Code: 19842; TOP Code: 490110; Academic Plan: C019842D)

The Intersegmental General Education Transfer Curriculum (IGETC) certificate of achievement is designed for students planning to transfer to either the California State University (CSU) and/or the University of California (UC) system. IGETC is a series of courses that California community college students can complete to satisfy freshman/sophomore level general education requirements before transferring to most colleges and majors at CSU and UC campuses. The IGETC pattern for UC requires completion of a minimum of 34 semester units of lower-division general education coursework with a "C" grade or better in each course. It is strongly recommended that students work with their academic counselor to review additional transfer requirements for specific majors at the CSU and UC campuses to which they intend to transfer.

PROGRAM STUDENT LEARNING OUTCOMES

1. Select, evaluate, and use information to solve problems, investigate a point of view, support a conclusion, or engage in creative expression.
2. Use language to effectively convey an idea or set of facts, including the ability to use source material and evidence according to institutional and discipline standards.
3. Understand and interpret various points of view that emerge from a diverse world of peoples and/or cultures.
4. Represent complex data in various mathematical forms (e.g., equations, graphs, diagrams, tables, and words) and analyze these data to make judgments and draw appropriate conclusions.

PROGRAM REQUIREMENTS

Requirements for the IGETC certificate of achievement may be met by completing 34 units of required courses under the Intersegmental General Education Transfer Curriculum (IGETC) Check Sheet with a grade of "C" or better. See a counselor for more details.

JAPANESE

OVERVIEW

Japan is a prosperous country and has the most diverse economy in Asia. With a GDP of \$4.9 trillion in 2017, Japan's economy is exceeded by only the US and China. The leading Japanese companies are among the largest, most efficiently run, and most well-known firms in the world. Familiar names like Sony, Toshiba, Sanyo, Casio, Canon, Minolta, Honda, Toyota, Mitsubishi, and many others have entered the world market in a variety of sectors. Whether you are in the field of business, engineering, manufacturing, research, economics, or politics, chances are you will be competing with, if not working for, a Japanese entity. From anime to sushi bars, karaoke to manga, bonsai to origami, Japanese culture has become part of international culture. A knowledge of the language will give you direct access to Japanese film, animations, and comic books, and develop your ability to order sashimi like a native at your favorite Japanese restaurant.

KOREAN

OVERVIEW

South Korea's economy ranks Number 4 in Asia and Number 11 in the world. It is the world's leader in information technology and is an important player in engineering. South Korea's energy today is reflected in contemporary art, film, literature, music, and drama, as well as in its robust economy. The National Security Education Program considers Korean a language critical for U.S. national security and economic competitiveness. Korean is spoken by 78 million speakers as a first language, making Korean one of the most widely spoken languages in the world. Korean is spoken by 1 million people as a heritage language in the United States.

Korean language and civilization studies has a strong tradition at LACC due to the campus' location in Koreatown. It is the most extensive program of its kind at a two-year college in California. LACC is the first community college in the state to offer an Associate of Arts degree in Korean. We also offer two non-transferable certificates in Korean Language and Civilization (Elementary and Intermediate levels). Our programs are dedicated to providing Korean language and culture education to anyone who is interested.

RUSSIAN

OVERVIEW

Russian is the eighth most spoken language on the planet, boasting 170 million native speakers worldwide. Proficiency in Russian opens doors to jobs in such government bodies as the State Department, the Commerce Department, the Justice Department, the Department of Defense, and various intelligence agencies. Unlimited commercial opportunities are emerging from an expanding Russian economy. Western firms which now do business in Russia, and newly established Russian firms that do business with the West (and indeed with everyone), have created myriad job opportunities for those with multiple language skills. Russia remains the lingua franca of a massive portion of Eurasia, so studying it opens you up to numerous NGOs, companies, and government bodies both in that region and at home.

Philosophy

PHILOSOPHY

Chair: Julio Torres

For more information visit:

www.lacc.edu/academics/departments

OVERVIEW

Too often when we hear the word “philosophy,” the thought of old statues and ancient writings comes to mind. In fact, philosophy is alive and well and critical to our everyday decision-making, as well as the decisions made by businesses, religious institutions, and governments around the globe. Additionally, examining the principles of philosophy helps one become a more ethical and organized thinker. These skills are critical for future managers. The logic skills gained can benefit everyone, especially aspiring lawyers who will need to present well-structured arguments. The Philosophy program empowers students to examine questions about ethics, reality, and knowledge that give them a deeper understanding of themselves and the world in which they live.

PSYCHOLOGY/ HUMAN SERVICES

OVERVIEW

LACC's Psychology/Human Services programs can be completed in less than two years or at a slower pace to accommodate your work or other life obligations.

The Human Services program has been recognized as outstanding by the Los Angeles Community College District and by the California Community College Association for Occupational Education. The LACC Human Services certificate and degree programs prepare students for careers in counseling a variety of clients, including children, seniors, victims of violence, parolees, the mentally ill, and substance abusers. A career in human services is a career of making a difference for others while discovering more about yourself. Human services professionals help people turn their lives around and find new directions. Occupations include activity director, gang counseling, special education assistant, domestic violence counselor, senior & teen service providers, probation office assistant, activity director, disabled services, CalWORKS/GAIN program assistant, childcare worker, social worker assistant, mental health worker, and alcohol/drug abuse counselor.

POLITICAL SCIENCE

OVERVIEW

When you study Political Science, you will learn about how political power is distributed, how different governments operate and interact, and how rules are made and enforced. You will explore both the "who" of politics (such as politicians, international organizations, and the public) and the "how" (such as elections, political institutions, and public administration). Politics affects virtually every aspect of our lives, including the availability of education, jobs, housing, and healthcare. Whether countries are at war or at peace depends both on what governments do and who supports them. Studying political science can open up a wide range of job opportunities in the public, private, and not-for-profit private sectors. Students interested in careers in business, education, law, journalism, communications, government, or politics more generally will obtain vital knowledge and skills. Students can also get practical skills by doing co-ops with government or organizations as part of their education experience.

Political Science

Associate in Arts (AA-T) Degree

Major Units: 18-19

Total Units: Minimum of 60

(State Code: 32923; TOP Code: 220700; Academic Plan: C032923G)

The Political Science Associate in Arts transfer degree prepares students for seamless transfer to California State University (CSU) institutions by offering the four standard core introductory courses in Political Science, as well as two electives that prepare the student for timely completion of a BA in Political Science. Research, writing, and critical thinking skills are the foundation for Political Science.

To earn the AA-T, students must meet the following requirements:

- a. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- b. Minimum grade of "C" (or "P") for each course in the major and minimum grade point average of 2.0 or higher. Students

completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

1. Critically evaluate the decentralized nature of power in the American political system.
2. Assess the major concepts in comparing and analyzing political systems and political cultures around the globe (e.g., globalization, democratization, and political and economic development in selected countries)
3. Evaluate and interpret the global interaction of nations, non-governmental organizations, and international organizations in the international arena.
4. Use media resources to evaluate and assess research and writings in issues of Political Science.
5. Judge the respective relevance of the major western political philosophers of the past for the 21st century.

PROGRAM REQUIREMENTS

Requirements for the Political Science Associate in Arts transfer degree may be met by completing: (a) 3 units of major core courses, 9-10 units from "List A," and 6 units from "List B" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

SOCIAL JUSTICE

OVERVIEW

Social Justice explores the important terrain between the ideals of justice and everyday local reality, including BLM, DACA, equity, LGBTQ+, police brutality, and global expressions of injustice. With a strong commitment to applied study, the major educates critical thinkers to be fluent in the rich and interdisciplinary histories and theories of social justice and injustice. The goal of the Social Justice AA-T is to create an informed global and local citizenship committed to strategic, accountable, and reflexive engagement in social justice work.

SOCIOLOGY

OVERVIEW

Sociology is the study of the structure, function, and dynamics of social relationships. There are consequences to human behavior and sociologists investigate today's most divisive issues such as racism, sexism, deviant and criminal behavior, gender identity, poverty, and family and interpersonal conflict. Sociologists seek to understand and explain how we are impacted by the social world in which we live. The goal of the Sociology AA-T is to prepare students to thoughtfully assess both the problems and possibilities in today's society while developing their communication and critical thinking skills.

The School of Visual, Performing, and Entertainment Arts

The School of Visual, Performing, and Entertainment Arts is a vibrant hub for students passionate about the creative arts. This school offers a diverse array of programs designed to cultivate artistic talent, foster creativity, and prepare students for careers in various fields within the visual and performing arts, as well as entertainment industries. Students can explore programs in disciplines including Fine Arts, Music, Theater Arts, Cinema/Television, Graphic Design, and Game Art. Each program is tailored to provide students with a comprehensive education that balances artistic expression, technical skill development, and real-world application.

PERFORMING ARTS AND ENTERTAINMENT

Music programs cover a broad spectrum of musical genres and styles, including classical, jazz, contemporary, and world music. Students can study music theory, composition, performance, and music technology, and have opportunities to participate in ensembles, concerts, and recitals.

Theater Arts programs provide students with training in acting, directing, stagecraft, design, and production. Students gain practical experience through performances in theater productions, workshops, and collaborations with faculty and industry professionals.

Cinema/Television programs focus on film and television production, screenwriting, directing, editing, and cinematography. Students learn industry-standard techniques and technologies, and have the opportunity to create their own productions.

VISUAL ARTS AND DESIGN

Fine Arts programs offer instruction in traditional and contemporary artistic techniques, including drawing, painting, sculpture, printmaking, and mixed media. Students can develop their artistic voice while exploring a wide range of artistic styles and concepts.

Graphic design and multimedia programs explore principles of design, typography, illustration, digital imaging, and interactive media. Students develop skills in visual communication and storytelling, and create projects for print, web, mobile, and multimedia platforms.

CINEMA

OVERVIEW

The LACC Cinema and Television Department offers a low-cost, comprehensive, hands-on training program that provides both basic and advanced courses in film, video, and television studio production. Located in modern facilities designed by the renowned architect William L. Pereira, the department has audio and camera equipment packages for student use as well as a sound stage, television three-camera studios, digital editing rooms, screening rooms, non-linear multi-station computer labs, and other audio and video post-production systems.

The Cinema program's first semester consists of a hands-on digital video production class, a lecture course on the technical aspects of film production, and two film history classes. The following semesters include courses on video editing, sound, cinematography, production management and business, directing, writing, digital production, editing, and digital audio post-production. Throughout the program, students produce a series of short films, culminating in capstone projects.

The Cinema/TV Department also teaches courses on writing and producing for television, and multi-camera television production. For information on TV classes see the Television section.

Associate in Science (AS-T) Degree

Major Units: 18-20 Total Units: Minimum of 60

(State Code: 37221; TOP Code: 060420; Academic Plan: C037221H)

The Film, Television, and Electronic Media Associate in Science transfer degree is designed to prepare the student for transfer to four-year institutions of higher education, and is specifically intended to satisfy lower division requirements for a baccalaureate degree in Cinema and/or Television and/or Media Arts at a California State University, and may apply to other baccalaureate programs. The AS-T degree coursework provides students with a comprehensive learning environment of both classwork in film and television history and theory, and hands-on experiences to provide them with the technical skills and creative guidance to prepare them for both for transfer and careers in the entertainment industry.

To earn the AS-T, students must meet the following requirements:

- Completion of 60 semester units (or 90 quarter units) that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
 - A minimum of 18 semester units (or 27 quarter units) in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.
- Obtainment of a grade of C or higher in each course in the Area of Emphasis, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).

PROGRAM STUDENT LEARNING OUTCOMES

1. Students demonstrate knowledge of the historical, cultural, and economic influences on the content of motion pictures and television, both narrative and non-narrative (documentary) film-making and non-scripted ("reality") television programs.
2. Students demonstrate knowledge and command of the processes of writing, direction, production, post-production, and distribution of cinema (single-camera) and television (multi-camera) productions.
3. Students demonstrate knowledge of the job market pathways into the motion picture and television industries.

PROGRAM REQUIREMENTS

Requirements for the Film, Television, and Electronic Media Associate in Science transfer degree may be met by completing: (a) 6 units of major core courses, 6 units from "List A," 3 units from "List B," and 3-5 units from "List C" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Cinema Production

Associate in Arts (AA) Degree

Major Units: 36 Total Units: Minimum of 60
(State Code: 02729; TOP Code: 061220; Academic Plan: C002729C)

LACC's proximity to Hollywood, along with the strong alliances the Cinema/TV Department has forged in virtually all areas of the industry, allows our graduates to transition directly into production. The skills and the work-based learning our faculty and facilities provide are rated among the top in the Los Angeles area, and prepare students for success in many above- and below-the-line careers, as producers, writers, directors, cinematographers, camera operators, lighting directors, grips and electricians, picture and sound editors, colorists, sound engineers, and production assistants. We also offer an Associates Degree for Transfer (AS-T) for those who wish to go on to pursue a four-year degree.

PROGRAM STUDENT LEARNING OUTCOMES

1. Students demonstrate knowledge of the historical, cultural, and economic influences on the motion picture, both narrative and documentary.
2. Students demonstrate knowledge and command of the processes of writing, direction, production, post-production, and distribution of motion pictures.
3. Students demonstrate an awareness of the job market pathways into motion pictures and television.

PROGRAM REQUIREMENTS

Requirements for the Cinema Production Associate of Arts degree may be met by completing: (a) 12 units of major core courses and 24 units of major elective courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Screenwriting

Certificate of Achievement

Major Units: 27

(State Code: 40997; TOP Code: 061220; Academic Plan: C040997D)

The Screenwriting certificate of achievement provides students with the skills for writing a feature film, television series, or short film project. Students will be guided from the initial stage of 'spit-balling' their ideas, to 'breaking' their stories, to outlining them, and from there to writing their scripts, beginning with "FADE IN," and ending with "FADE OUT."

Once their rewrites are completed, students will be able to not only to seek representation by agents and managers, but also submit their scripts to screen- and teleplay competitions designed to introduce new writers to content producers in the film and television industries. This is a highly competitive field in which employment is mostly freelance. Jobs include: Staff Writer, Freelance Screenwriter, Story Analyst, Freelance Television Writer, Animation Writer, Copywriter, Communications, Marketing, and Public Relations.

PROGRAM STUDENT LEARNING OUTCOMES

1. Design strategies for developing and creating written projects for sale to film and/or television, and tailoring projects for the distinct and diverse audiences of the various studios, networks, and platforms.
2. Evaluate their own and their fellow students' scripts in a writing-workshop setting that replicates the development process in feature filmmaking and in scripted television production.
3. Demonstrate awareness of screen- and teleplay competitions that are followed by content buyers, agents, and managers, along with an understanding of the various diversity writing workshops available at the major studios and broadcast networks.
4. Differentiate the historical, cultural, and economic influences on the media. Evaluate film and genre history to become conversant with the industry's most-produced and -popular film and television genres.

TELEVISION

OVERVIEW

The Cinema and Television Department offers a low-cost, comprehensive, hands-on training program that provides both basic and advanced courses in film, video, and television studio production. Located in modern facilities designed by the renowned architect William L. Pereira, the department has audio and camera equipment packages for student use, as well as a sound stage, television three-camera studios, digital editing rooms, screening rooms, non-linear multi-station computer labs, and other audio and video post-production systems. The Television program's first semester consists of a basic studio production class, a lighting and audio course, and history of television. In the following semesters, students can take intermediate and advanced studio production, television news-gathering, digital production, and television writing.

MUSIC

OVERVIEW

The Herb Alpert Music Center at Los Angeles City College offers a streamlined curriculum to create a transfer-ready, work-ready, and enriched student community through the Associate in Arts (AA-T) transfer degree that guarantees transfer to four-year CSU institutions, the Associate of Arts (AA) degree in Music, skill-building certificates, and general music education. Our dedicated and experienced faculty teach distinct and creative courses in theory, musicianship, appreciation, history, technology, performance, and techniques for students at all levels.

The Herb Alpert Music Scholarship provides two years of tuition-free study at LACC for all music majors seeking the Music Associate of Arts degree, Music Associate in Arts transfer degree, and certificates of achievement in music. The scholarship is available for qualified in-state, non-resident, and international students.

The Herb Alpert Music Academy (Applied Music Program) is designed for students seeking to transfer to four-year institutions to complete a Bachelor of Arts or Bachelor of Music degree. Music Academy students receive private lessons to prepare them for auditions and performances. Admission into the Music Academy requires a completed application that includes a video audition. Students accepted into the program must be a full-time music major for two years, enroll in required music courses, and fulfill all the expectations required of an Herb Alpert Music Scholarship student.

Through established transfer agreements, Herb Alpert Music Academy students who complete the required courses have a streamlined pathway to the UCLA Herb Alpert School of Music and are provided priority consideration for transfer to the Herb Alpert School of Music at CalArts. Visit the Music Department website for detailed course requirements.

Associate in Arts (AA-T) Degree

Major Units: 21-22 Total Units: Minimum of 60
(State Code: 32496; TOP Code: 100400; Academic Plan: C032496G)

The Music Associate in Arts (AA-T) transfer degree prepares the student to transfer seamlessly to California State University (CSU) schools through courses that provide practical skills in theory, musicianship, piano, and performance.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- Minimum grade of "C" (or "P") for each course in the major and minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Write, recognize, and interpret the fundamental aspects and principles of music, including music theory, notation, and form.
- Demonstrate keyboard proficiency.
- Appreciate music of diverse traditions and contextualize it within historical and contemporary perspectives.
- Prepare and perform repertoire with stylistically appropriate technique and musicality in a solo and ensemble setting.

PROGRAM REQUIREMENTS

Requirements for the Music Associate in Arts transfer degree may be met by completing: (a) 14 units of major core courses, 3-4 units of "List A" courses, and 4 units of "Large Ensemble" courses with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

THEATER - ACTING

OVERVIEW

The Theater Academy Acting degree and Professional Actor skills certificates are part of a rigorous, full-time professional program that develops student skills and talent in a progressive and integrated curriculum combined with extensive and dynamic hands-on production that results in creative growth and skill attainment. The programs require dedication and respect for the art and craft of acting. The intensive curriculum demands self-discipline, organization, and a determination to challenge one's own limits.

The Theatre Arts AA-T degree prepares the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower division requirements for a baccalaureate degree in Theatre Arts at a California State University (CSU) school.

Associate in Arts (AA-T) Degree

Major Units: 19 Total Units: Minimum of 60
(State Code: 33157; TOP Code: 100700; Academic Plan: C033157G)

The Theatre Arts Associate in Arts transfer degree is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower division requirements for a baccalaureate degree in Theatre Arts at a California State University (CSU) school. The Theatre Arts degree coursework provides students with a comprehensive learning environment of both theoretical class work and hands-on experiences including production laboratory classes and all phases of play production. Students completing the degree have the foundations to continue their studies at a four-year institution for an advanced degree in Theatre Arts. The knowledge and skills offered in this degree lead students to develop foundational knowledge including

topics and issues that develop their visual knowledge and theory, their creativity and self-expression, and their ability to generate visual artworks that evidence their uniqueness in relation to both personal and cultural identity.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Identify and comprehend in theatre literature, specific styles, practices, systems, aesthetics, and historical context of storytelling through creative expression.

ART

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

Our Art programs prepare students to transfer for upper division study at four-year universities or art schools through Associate of Arts degrees and certificates of achievement. Additional objectives include portfolio preparation and skills training for students who wish to enter into careers in the art, design, and entertainment industries.

Our courses provide a solid foundation in various areas of art. In studio art, we teach drawing, painting, printmaking, ceramics, and sculpture. In commercial art and design, we teach digital art and animation, illustration, graphic design and web design, and storyboarding. Our prize-winning Journalism program invites art students to create for publication, in both print and electronic formats.

The Art Department enjoys a high transfer acceptance rate at prominent university art departments, including those at UCLA, UC Berkeley, USC, and CSULB, as well as at outstanding art schools including Otis Art Institute, CalArts, and Art Center College of Design.

The Art - General AA degree prepares students for transfer to competitive university, college, and art college programs, as well as for a career as an exhibiting artist. Students develop a strong transfer and/or exhibition-ready portfolio. The program allows students more in-depth and broad exploration opportunities than the associate degree for transfer, and it provides both a degree and grounding for junior positions in art and design in such fields as entertainment, graphic communications, fine art, design, and fashion. The professors in the program are working and exhibiting professionals who are highly involved with their students.

Graphic Design

Associate of Arts (AA) Degree

Major Units: 33 Total Units: Minimum of 60
(State Code: 02739; TOP Code: 103000; Academic Plan: C002739C)

The Graphic Design AA degree prepares students for transfer to competitive university, college, and art college programs. The program also provides the foundation for professional careers in graphic design, computer graphics, advertising design, and commercial illustration. The creative and practical aspects of visual communication are equally stressed, with an emphasis on contemporary trends. Digital work is grounded in fundamental art skills and methods. Students enrolled in the program will utilize the Art Department's computer labs.

PROGRAM STUDENT LEARNING OUTCOMES

1. Acquire and integrate visual art concepts and/or technical skills.
2. Practice and learn visual art concepts by performing skill-based exercises.
3. Design and implement independent skill-based projects to demonstrate acquired knowledge and mastery.
4. Engaging in inquiry and critical thinking and evaluation process.
5. Demonstrating, in portfolio-level projects, the skills and knowledge necessary for entrance into a graphic design program at a four-year college/university or for entrance into the workforce as an entry-level designer.

PROGRAM REQUIREMENTS

Requirements for the Graphic Design Associate of Arts degree may be met by completing: (a) 27 units of major core courses and 6 units of major elective courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Animation Foundation

Certificate of Achievement

Major Units: 27

(State Code: 38605; TOP Code: 061440; Academic Plan: C038605D)

The Animation certificate of achievement is a comprehensive study of 2D and 3D animation techniques. Upon completion of the program, students will be able to develop original and effective animation projects using industry-standard tools and methodologies. Students learn about the history of animation and technologies, as well digital design software appropriate for use in motion pictures or on the Internet.

Animators work on animations or special effects for television, film, design, and gaming industries. Students may also work on web projects and may generate animated shorts for a product or company.

The certificate allows students to learn basic computer-based animation—which may incorporate 2D drawing and 3D hand building—while focusing on 2D and 3D computer technologies and the use of digital design and printing software. Students are introduced to computer graphics, texturing, and lighting for animation.

Aspiring game designers and animators may be expected to complete a portfolio of their work. Internships and studio training may provide opportunities for hands-on learning. Graduating with the certificate may lead to entry-level employment or/and advanced education in several fields, including the gaming industry and graphic arts. Graduates may be employed in entry level positions, and/or pursue advanced degrees in such fields as animation, storyboarding, game design, and special effects.

PROGRAM STUDENT LEARNING OUTCOMES

1. Acquire and integrate visual art concepts and/or technical skills
2. Practice and learn visual art concepts by performing skill-based exercises
3. Design and implement independent skill-based projects to demonstrate acquired knowledge and mastery
4. Engage in inquiry, critical thinking, and evaluation processes
5. Demonstrate in portfolio-level projects the skills and knowledge necessary for entrance into an animation program at a four-year college/university, or for entrance into the workforce as an entry-level animator

Arts Graphic Communication

Certificate of Achievement

Major Units: 24

(State Code: 35349; TOP Code: 103000; Academic Plan: C035349D)

The Arts Graphic Communication certificate of achievement prepares students for a career in the advertising and graphic design industry as an entry-level production designer or as a junior commercial illustrator. The creative and practical aspects of visual communication are stressed, with a special emphasis on contemporary trends. Digital work is grounded in fundamental art skills and methods. Students can expect to develop a rigorous, entry-level portfolio.

PROGRAM STUDENT LEARNING OUTCOMES

1. Create unique graphic designs that communicate ideas to others.
2. Demonstrate an iterative design process.

Game Art & Design Foundation

Certificate of Achievement

Major Units: 23

(State Code: 42506; TOP Code: 061420; Academic Plan: C042506D)

The Game Art & Design Foundation certificate of achievement will provide students a pathway to a career as a technical artist working with interactive media. Students will gain knowledge in the theories and applications of game design by combining art, design, and technology in a hands-on studio environment. Students will develop core skills in concept design, 3D modeling, 3D animation, lighting and texturing, and real-time interactive rendering. Students may be expected to complete a portfolio of work to seek further study in game design or entry level employment working with 3D assets for game production, visual effects, or animation.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain competency in the theory and artistic aspects of game design and the creation of interactive media.
2. Acquire the foundation skills in the application of digital tools to create virtual environments and worlds structured for intuitive user engagement.

Game Art & Design Production

Certificate of Achievement

Major Units: 16

(State Code: 42507; TOP Code: 061420; Academic Plan: C042507D)

The Game Art & Design Production certificate of achievement prepares students for entry-level opportunities in the game industry and related fields in emerging interactive media. Students will learn how real-time interactive technology (game engines) are increasingly used to solve a variety of design and visualization problems for filmmaking, engineering, and architecture. Students will apply professional practices while learning how to utilize content creation tools, design levels, game systems, and production planning. The Production Studio series of courses are the culminating experience of the Game Art & Design Production certificate. This series of courses spans several semesters and brings together students from different disciplines who work together in small teams to develop 3D games, interactive media projects, or other media content. The Production Studio courses mirror the working environment of professional studios: people with diverse backgrounds and talents collaborating together to meet client demands and production deadlines.

PROGRAM STUDENT LEARNING OUTCOMES

1. Gain the skills, knowledge, and experience necessary to seek entry level employment in the video game industry or interactive media or entry to a game related program at a four-year college/university.
2. Apply technical skills to concepts and ideas to create fully realized, professional quality, interactive digital games and experiences.
3. Build virtual environments and worlds structured for intuitive and navigable user engagement.
4. Organize, schedule, budget and manage day-to-day development of a digital game production.

Illustration

Certificate of Achievement

Major Units: 27

(State Code: 41002; TOP Code: 061440; Academic Plan: C041002D)

The certificate of achievement in Illustration is focused on developing concepts, visual image creation strategies and technical skills. Students develop ideation, critical thinking, and working processes. A variety of media and stylistic approaches with traditional and digital tools are introduced. This certificate prepares students with a versatile portfolio which may be appropriate for careers in the Commercial Arts including editorial and advertising illustration; concept design and illustration for products and children's books; careers in the game and entertainment industry; and visual storytelling for graphic novels and illustration for the toy and theme park industries.

PROGRAM STUDENT LEARNING OUTCOMES

1. Student masters a variety of media and stylistic approaches with traditional and computer based tools to illustrate given content.
2. Student translates word based content into a compelling visual form presented on traditional and technological platforms.

PROGRAM REQUIREMENTS

Requirements for the Illustration certificate of achievement may be met by completing 27 units of required courses with a grade of "C" or better.

ART HISTORY

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

Art History at LACC supports an interdisciplinary and intercultural approach to art history of all periods and places. We are dedicated to including intersectionality as an approach to understanding art history. By thinking across current categories and boundaries and critically examining art history itself, students are encouraged to question the canon, to rethink the relationships between the periphery and the mainstream, and to practice a socially and politically responsible art history.

Art History

Associate in Arts (AA-T) Degree

Major Units: 18-20 Total Units: Minimum of 60

(State Code: 32832; TOP Code: 100100; Academic Plan: C032832G)

The Art History Associate in Arts transfer degree enables students to examine the sociological, cultural, and aesthetic contexts of art. Students learn to utilize scholarly methodologies to examine, analyze, and construct theories related to art, art history, and culture. The degree is transferable to CSU schools, satisfies many lower division transfer requirements, and can be parlayed into degrees in related fields such as fine arts, theater and film, art criticism, English, history, and anthropology.

To earn the AA-T, students must meet the following requirements:

- a. Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- b. A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission consideration to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

1. Articulate the historical, social, and aesthetic functions of art.
2. Discuss major works and cultural shifts in art history from pre-history to the modern world.
3. Appraise the diverse roles and meanings of art across cultures and geographic boundaries.
4. Conduct research and use visual evidence and reason to construct and examine theories.
5. Critically analyze works of art with appropriate methodology and terminology.
6. Understand how various art and art history related problems are solved.

PROGRAM REQUIREMENTS

Requirements for the Art History Associate in Arts transfer degree may be met by completing: (a) 9 units of major core courses, 3 units from "List A," 3 units from "List B," and 3 units from "List C" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

JOURNALISM

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

The Journalism discipline provides the highest quality education available for both transfer students and students seeking vocational training and an Associate of Arts degree in Journalism. Students also receive intensive hands-on instruction in digital news gathering techniques. This includes a series of practicum courses that covers instruction and practice in radio, TV news reporting, digital design, magazine publication, short form documentary production, and mobile reporting techniques.

Associate in Arts (AA-T) Degree

Major Units: 18-20 Total Units: Minimum of 60
(State Code: 33155; TOP Code: 060200; Academic Plan: C033155G)

The Journalism Associate in Arts transfer degree is an open-ended program that prepares students for a seamless transfer to a California State University (CSU) to complete a baccalaureate degree in Journalism or a similar field of study. Journalism majors select from courses designed to provide training in desktop publishing skills and to prepare them for editorial and photojournalism jobs in print, online, broadcast and mobile journalism.

To earn the AA-T, students must meet the following requirements:

- Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSU GE-Breadth) requirements; and
 - A minimum of 18 semester units in a major or area of emphasis, as approved by the CCC Chancellor's Office.
- A minimum grade point average of 2.0 or higher. Students completing this degree will have satisfied the lower division major preparation and transfer requirements for priority admission to a local CSU campus.

PROGRAM STUDENT LEARNING OUTCOMES

- Write, research, and produce news stories for print or broadcast.
- Edit news stories for print, demonstrating mastery of Associated Press style.
- Demonstrate knowledge of converged media techniques including online and broadcast news writing.
- Assemble a print portfolio of published news articles and/or photographs. Student may also collect digital samples of converged media work product such as online or Internet broadcast samples of work.

PROGRAM REQUIREMENTS

Requirements for the Journalism Associate in Arts transfer degree may be met by completing: (a) 9 units of major core courses, 3-4 units from "List A," and 6 units from "List B" with a grade of "C" or better; (b) all CSU GE-Breadth requirements of which Subject Areas A1, A2, A3, and B4 (The "Golden Four") must be completed with a grade of "C-" or better; (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

Journalism

Associate of Arts (AA) Degree

Major Units: 35 Total Units: Minimum of 60
(State Code: 02728; TOP Code: 060200; Academic Plan: C002728C)

The journalism curriculum is an open-ended course of study that is structured to prepare the student to work in the field, or to transfer to a four-year college or university after additional study. Students acquire skills that will allow them to work in print, broadcast, or social media in converged newsrooms. The program is designed for the student who intends to work as a reporter, writer, editor, designer, or cartoonist at a print or online newspaper or magazine. The program also prepares students to work in broadcast settings in TV news, radio, or mobile journalism.

PROGRAM STUDENT LEARNING OUTCOMES

1. Write, research, and produce news stories for print or broadcast
2. Edit news stories for print, demonstrating mastery of Associated Press style.
3. Demonstrate knowledge of converged media techniques including social media, online, and broadcast news writing. Demonstrate a broad base of multi-platform journalism skills.

PHOTOGRAPHY

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

We offer a variety of digital and film-based courses for students wanting to pursue a commercial, photojournalism, or fine art career as a photographer. We are a vocational program and offer Digital and Photojournalism certificates as well as an Applied Photography Associate of Arts Degree. We also offer several classes that transfer to UC and Cal State Universities.

We have an excellent faculty and staff that is ready to help you develop your vision as a photographer. From beginning to advanced analog and digital photography to experimental photographic techniques, you can learn it here at LACC.

Health Advisory. Because students enrolled in the Photography program are required to precisely mix photographic chemicals, some of which are toxic, it is advisable that a student be able to clearly understand oral instructions and reading materials that are distributed in class and lab. Consequently, it is advisable for students to possess reading comprehension at the ENGLISH 028 level or higher.

Applied Photography

Associate of Arts (AA) Degree

Major Units: 36-37 Total Units: Minimum of 60
(State Code: 08235; TOP Code: 101200; Academic Plan: C008235C)

Students interested in pursuing a career in photography as a photographer, photographic post-production technician, photographic assistant, or entrepreneurial business owner in photography will learn the skills necessary to enter the job market. The core program consists of rigorous training in camera operations and image composition. Classroom training includes instruction with 35mm film cameras and professional digital cameras, computers and computer software programs used in the industry, professional scanners, professional digital printers, professional lighting equipment, and photographic accessories. An emphasis is placed on image optimization including color correction and contrast control. Students produce a professional print and digital portfolio targeting their chosen area of focus.

PROGRAM STUDENT LEARNING OUTCOMES

1. Make informed decisions regarding the proper selection of equipment and materials, including camera formats, lens focal lengths, film selection, and print formats based upon the needs of individual photographic assignments.
2. Pre-visualize the final photographs including locations, subject matter, natural lighting techniques, and composition based on particular photographic assignments.
3. Accurately calculate proper exposure in camera, including selection of appropriate shutter speeds and apertures with the use of a light meter.
4. Produce a cohesive body of work as a portfolio that demonstrates personal style, aesthetic awareness, and technical proficiency.
5. Understand the concepts and professional lighting techniques in the studio and on location.

PROGRAM REQUIREMENTS

Requirements for the Applied Photography Associate of Arts degree may be met by completing: (a) 21 units of major core courses and 15-16 units of major elective courses with a grade of "C" or better; (b) all general education requirements (English and Math must be completed with a grade of "C" or better); (c) a minimum of 60 degree-applicable units with a cumulative grade point average of 2.0 or higher; and (d) a minimum of 12 units must be taken at LACCD.

The School of Adult Education and Noncredit

Dean: Angelica Ramirez

For more information visit:

www.lacc.edu/academics/departments

The School of Adult Education and Noncredit provides accessible and inclusive educational opportunities for adult learners in our community. The school offers a wide range of noncredit courses and programs designed to meet the diverse needs and interests of adult learners, including those seeking to improve their basic skills, pursue personal enrichment, learn English as a second language (ESL), or transition to college and career pathways in the credit. Overall, the School of Adult Education and Noncredit plays a vital role in serving the diverse educational needs of adult learners in the community, empowering them to achieve their personal, academic, and professional goals through high-quality, accessible, and relevant educational programs and services.

Noncredit courses cover a variety of subjects, including English as a Second Language (ESL), Adult Basic Education (ABE), High School Equivalency (HSE) preparation (formerly known as GED), citizenship preparation, vocational training, computer literacy, health and wellness, and lifelong learning. ESL courses are designed to help non-native English speakers improve their English language skills for communication, work, and academic purposes. These courses typically cover speaking, listening, reading, and writing skills at various levels of proficiency. ABE courses provide instruction in

foundational skills such as reading, writing, math, and critical thinking, helping students improve their literacy and numeracy skills for personal and professional development.

HSE preparation courses help students prepare for the High School Equivalency exam, which certifies that individuals have the knowledge and skills equivalent to a high school diploma. Citizenship preparation courses assist eligible immigrants in preparing for the United States naturalization process, including the civics test and interview. Vocational training courses offer hands-on instruction and skills development in various trades and professions, providing students with the knowledge and certifications needed for entry-level employment or career advancement. Computer literacy courses cover basic to advanced computer skills, including keyboarding, internet navigation, word processing, spreadsheet software, and computer programming. Health and wellness courses focus on promoting physical and mental well-being, covering topics such as nutrition, fitness, stress management, and disease prevention. Lifelong learning courses offer opportunities for personal enrichment and exploration, covering a wide range of topics such as arts and crafts, cooking, music, dance, photography, and modern languages.

Academic Preparation

Certificate of Competency

Total Lecture Hrs: 81 - 180

(State Code: 36581; TOP Code: 493013; Academic Plan: C036581E)

The Academic Preparation certificate of competency is designed to provide students with basic English and math skills used in General Education Development (GED) preparation, HiSET preparation, college English and math readiness courses, and assist students with the fundamentals of computer hardware and software applications necessary to be successful in completing college-level coursework and workplace tasks. This program also introduces students to the opportunities and benefits of post-secondary education.

PROGRAM STUDENT LEARNING OUTCOMES

1. Make use of foundational level English necessary to pass the high school equivalency exam, prepare for college English readiness, and to perform general workplace tasks.
2. Make use of foundational level math necessary to pass the high school equivalency exam, prepare for college Math readiness, and to perform general workplace tasks.
