SPRING ENDS June 9, 2025			

Descriptions of the Presentations listed above

All About the CSU

The California State University system is a very large, high-quality public university system known for its affordability and flexible class offerings. There are 23 CSU campuses across the state of California. This session will cover various aspects of the CSU focusing on transfer preparation.

Financial Aspects of Transfer

The application fee is not the only cost to consider when applying for university admission. Let's talk about some additional fees so that you are aware and can plan appropriately.

Historically Black Colleges and Universities (HBCU)

The What, Why, How, and When of Transferring from LACC to a Historically Black College and University (HBCU). The CCC Transfer to an HBCU Guarantee Program will be discussed.

The Myths of Transfer

Let's get down to it and debunk the common myths about transferring from one college to another:

Local Transfer Options

There are several quality university programs in Los Angeles and the surrounding area. This session will cover major options and transfer requirements for CSU Los Angeles – Los Angeles City College, CSU Long Beach, CSU Northridge, and other "local" options.

Transfer 101

Do you have questions and concerns stopping you from considering transfer as an option for you? This workshop is for you! Let's talk about the requirements for transfer and

Transfer Pathways

Congratulations! Did you know that as an LACC student you have already taken the first step in your pathway to transfer? Beginning in your first semester, you should follow an education plan that meets specific major course requirements and sequences, minimum GPA's, and general education patterns. This session will cover various transfer pathway options available to you.

Transfer Portfolio

What is a Transfer Portfolio? A portfolio, simply put, is a collection. If speaking about a financial portfolio, this would include stocks, bonds, and other investments. If speaking about an art portfolio, this would be a collection of work the artist has created. This session will highlight various documents a transfer student should generate, create, or obtain in order to make their transfer experience and the completion of their baccalaureate degree a seamless and beneficial experience.

Transferring to a Private or Out-of-State Institution

There are many things to consider when transferring. But transferring to a private or out-of-state institution adds a different dimension. There are no articulation agreements, there may be non-resident

tuition, there are different application deadlines, different applications, etc. If you are considering any of these institutions, attend this session.

What's Next?

Congratulations! You've submitted your application to transfer... Now what? Submitting your application is only the beginning of the next stage in your pursuit of a Bachelor's degree. The steps you need to take after you submit your application are just as important as the application itself. In this session, we will provide a step-by-step guide to imperative timelines, deadlines, and do's and don'ts in the transfer process, connecting to the university community as a new transfer student and much more. And we know transferring can be stressful, so we will have a two series What's Next workshop with the second series discussing ways to manage and deal with stress during this transfer season.

Why UC?

The University of California (UC) is a world-class public university system known for its premier academics, selectivity, and research. This session will cover various aspects of transferring to one of the nine UC campuses offering undergraduate education.

UC Transfer Admission Guarantee (UC TAG)

Are you preparing to transfer to a University of California (UC) campus? Then this session is for you! Six UC campuses offer the Transfer Admission Guarantee (TAG) program for California community college students who meet specific requirements. This session will cover the UC TAG process including eligibility requirements and application information. **Applications are open September 1-30th 2023.**

Undocu-Transfer

This is a great opportunity for prospective transfer undocumented students to explore university options, support services, and general resources. Become informed about "next steps" for financial aid, admissions, and residency to ensure a smooth transfer transition.

Transfer Shock

Our Transfer Shock Workshop provides practical insights and resources, addressing challenges like adapting to a larger campus, managing time effectively, and understanding academic expectations. Gain valuable strategies for success, connect with fellow transfers, and confidently navigate your academic journey at the university level.
