ABOUT LACC

Who We Are

Los Angeles City College is The City's College. LACC has been part of the fabric of the city of Los Angeles for more than 90 years, with both UCLA and Cal State Los Angeles originating on the LACC campus. As a diverse college and a vehicle for increasing social and economic mobility for our city, LACC remains the destination for students to believe, achieve, and succeed.

Established in 1929, LACC is one of the oldest of the California Community Colleges. Located in the heart of Hollywood on 49 acres, LACC provides a dynamic innovative learning environment offering more than 100 vocational and professional programs including degrees, transfer programs, and certificates to more than 18,000 students. Our student body is one of the most diverse in the country. Students range in age from late teens to seniors and come from many ethnic groups, cultures, and countries across the world.

LACC provides an innovative and engaging learning environment, offering degrees, transfer programs, and certificates to our students. LACC offers an array of on-campus and online classes and remains committed to helping students achieve their educational and personal goals. As The City's College, we are committed to providing a welcoming, inclusive, supportive, and accepting community.

History

One of nine college campuses of the Los Angeles Community College District, what is now LACC was originally a farm outside of Los Angeles. When the Pacific Electric Interurban Railroad connected downtown Los Angeles and Hollywood in 1909, the area began to develop rapidly. In 1914, the Los Angeles Board of Education moved the California State Normal School, a school to train teachers, from downtown Los Angeles to Vermont Avenue in Hollywood.

In 1917, UC Regent Edward A. Dickson and Ernest Carroll Moore, Director of the Normal School, began working together to lobby the State for the second University of California campus. On May 23, 1919, their efforts were rewarded when Governor William D. Stephens signed Assembly Bill 626 into law, which turned the school facilities into the Southern Branch of the University of California and added its general undergraduate program, the College of Letters and Science. The Southern Branch campus opened on September 15 of that year, offering two-year undergraduate programs to 250 Letters and Science students and 1,250 students in the Teachers College, under Moore's continued direction.

In need of more space, the Southern Branch of the University of California, what is today UCLA, moved to its present location in 1929 and the LA Board of Education bought the Vermont site for \$700,000. On September 9, 1929, Los Angeles Junior College opened its doors for the first time with over 1,300 students and 54 teachers. It later changed its name in 1938 to Los Angeles City College.

Student Right-To-Know Disclosure

Student Right-to-Know Rates for Fall 2021 cohort (first-time, full-time students seeking a certificate, degree, or transfer; tracked over three years):

- Completion rate: 29.19%
- Transfer rate: 8.23%

(Source: Student Right to Know website: <http://srtk.cccco.edu>)

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of our college district to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 2021, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three year period. Their completion and transfer rates are listed above. These rates do not represent the success rates of the entire student population at the College nor do they account for student outcomes occurring after this three year tracking period.

Based upon the cohort defined above, a Completer is a student who attained a certificate or degree or became 'transfer prepared' during a three year period, from Fall 2021 to Spring 2024. Students who have completed 60 transferable units with a GPA of 2.0

or better are considered 'transfer prepared'. Students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming 'transfer prepared' during a five semester period, from Spring 2022 to Spring 2024, are transfer students.

For more Student Right-To-Know information, visit the LACC website at: www.lacc.edu/about/disclosures

Student Responsibility To Be Informed

While LACC provides numerous support services to assist students, it remains each student's responsibility to be familiar with the information presented in this catalog and to understand and follow all policies and procedures.

 - c. Community College (credit or non-credit courses) **

*Full-time attendance = minimum of 420 hours/school year

**Credit courses = full-time attendance is a minimum of 12 units semester/quarter per year.

**Non-credit courses = full-time attendance is a minimum of 420 hours/school year

OR

2. Three (3) or more years of full-time high school coursework and attended a combination of elementary, middle and/or high school in California for a combined total of three (3) or more years.

AND

must satisfy any from item 3 (graduation and/or transfer requirement)

3. Graduation and/or transfer requirements:
 - a. Graduate from a California high school, or
 - b. Obtain a GED, HiSET, or TASC in California, or
 - c. Attain an associate degree from a California Community College, or
 - d. Fulfilled the minimum transfer requirements to transfer from a California Community College to a University of California or California State University.

The following items must also be met to qualify for AB 540 status:

4. You will register or enroll in an accredited and qualifying California college or university, and
5. If applicable, you must complete an AB 540 affidavit stating that you will legalize your immigration status as soon as you are eligible (see the Admissions and Records office at your college), and
6. You must not hold a valid non-immigrant visa (A, B, C, D, E, F, J, H, L, etc.), except persons granted Temporary Protected Status (TPS) or hold a U Visa. AB 1899 allows U and T visa holders to also apply for state financial aid. (T visa holders should file a FAFSA, U visa holders should file a CA Dream Act Application).

If you meet the requirements above, you should complete the CA Dream Act Application for financial aid. (A certified GPA is also necessary for Cal Grant consideration.)

The college is responsible for verifying your AB 540 eligibility. Check with Admissions and Records office early in the summer before the fall term starts to complete the required AB 540 affidavit.

Unit Limit

Students should work with an academic counselor to carefully plan their academic programs. Students may enroll for a maximum of 19 units for the spring or fall semesters, and 9 units for summer or winter sessions.

Students should contact the Counseling Office (in the Student Services Building, 2nd Floor) to petition to take excess units or visit the counseling department website at www.lacc.edu/student-services/counseling.

In general, students may receive no more than 30 semester units of credit for remedial coursework. Exceptions to this limitation exist for students enrolled in ESL courses and students who have earning disabilities. "Remedial coursework" is defined as "pre-collegiate basic skills courses" which are described as "those courses in reading, writing, computation, and English as a Second Language which are designated by the community college district as non-degree credit courses."

Federal School Code: 001223
Dream Application School Code: 00122300

What is Financial Aid?

Financial Aid are financial resources from federal, state, institutional, and private programs designed to expand college access. The available financial assistance comes in the form of grants, work-study, loans, and scholarships. The assistance makes it possible for individuals to continue their education beyond high school, even if they and/or their families cannot meet the full cost of post-secondary education.

Eligibility for Federal Aid and Cal Grants

To be considered for federal and state financial aid, you must generally meet the following minimum requirements:

- Be a US citizen, or an eligible non-citizen, a permanent resident who has valid documentation from the US Department of Homeland Security verifying that their stay in the US is for other than temporary purposes or be classified as an AB540 for state aid eligibility only.
- Demonstrate financial need
- Be making satisfactory academic progress in a course of study leading to an AA or AS degree, certificate, or transfer to a baccalaureate degree program
- Not be in default on any loans such as Federal Perkins Loans, Federal Stafford Loans (subsidized and unsubsidized), Federal Direct Loans (subsidized and unsubsidized, or FPLUS Loans (Parental Loans for Undergraduate Students) at any school attended
- Not owe a refund on a Federal Pell Grant, Federal Supplemental Educational Grant (FSEOG), or Cal Grant programs
- Be enrolled as a regular student in an eligible program
- Have a valid social security number (only required for eligibility for federal aid)
- Demonstrate an Ability to Benefit (as defined in this section)

Ability to Benefit

If you meet one of the qualifications listed below, you will have to demonstrate the ability to benefit from a college education in accordance with applicable federal regulations.

- Received a high school diploma or passed a high school proficiency examination; or
- Received a certificate of General Education Development (GED); or
- Successfully completed a two-year program (minimum 48 credit towards a bachelor's degree)

If you are unable to demonstrate an Ability to Benefit, you should still apply for financial aid as you may qualify for the California College Promise grant.

Apply for Financial Aid

If you are a U.S. citizen or non-citizen who holds eligible immigration documents, you can apply for all federal and state financial aid programs by completing a Free Application for Federal Student Aid (FAFSA). Apply online at: <https://studentaid.gov/h/apply-for-aid/fafsa>

Students who are classified AB540 by the LACC Admissions Office may apply for California financial aid programs by completing a CA Dream Act Application (CADAA). Apply online at: <https://dream.csac.ca.gov/landing>

You will need a User ID and password to “sign” your FAFSA or CA Dream Act application. If you are a dependent student, your parent will also need a User ID and password. The option to create your User ID and password will be presented to you when you first begin your application. If you choose not to create your User ID and password at the beginning of the application, the option will be presented to you again when you get ready to submit. The financial aid application process is free, and you should never pay for federal or state financial aid. You will need to submit additional applications and/or forms for federal direct loans, emergency loans, or scholarships.

Priority Dates and Deadlines

TYPE OF AID	DEADLINE
Pell Grant, Cal Grant, loans	Financial aid applications and all required documents must be submitted to the Financial Aid Office prior to the end of the enrollment period. To be considered for Cal Grant, the FAFSA or CADAA must be submitted no later than March 2 for the subsequent award year. Students planning to attend a community college have a secondary deadline of September 2 to apply for Cal Grant.
California College Promise Grant	June 30 of the award year
Federal Work Study and FSEOG	Submit a FAFSA application by May 1 and have a completed file by June 1

Dates and deadlines are subject to change.

Verification

If you are selected for verification by the U.S. Department of Education or the California Student Aid Commission when your application is processed, the Financial Aid Office will request that you submit additional documents. Check your student portal for any required documentation to complete your financial aid. Documents are submitted online in the Financial Aid Portal at www.lacitycollege.studentforms.com

Requirement to Return Financial Aid

If you receive financial aid and withdraw from all or some of your courses in the first 60% of the term, you may have to return all or a portion of the funds received prior to withdrawal. The Financial Aid Office will calculate the amount of federal funds earned up to the point of withdrawal and you will be billed and must return any “unearned” federal grant funds received. You may also have to return any state financial aid funds received in full. Failure to return these funds may result in the denial of future financial aid.

Post-Withdrawal Disbursements

If you completed your financial aid file but withdrew from all your courses before receiving any disbursements from financial aid, you may be eligible for a post-withdrawal disbursement. If you are eligible for such a disbursement, you will be notified by email.

You are advised to contact the Financial Aid Office before withdrawing from your classes.

Financial Aid Enrollment Status

Some financial aid awards will be adjusted based on the student's enrollment. The Pell Grant uses the enrollment intensity, and the Cal Grants use enrollment status. The table below shows proration rules for these student aid programs:

PELL GRANT PRORATION BY ENROLLMENT INTENSITY	UNITS	PERCENTAGE RECEIVED
100%	12	100%
92%	11	Three Quarter Time (75%)
83%	10	
75%	9	
67%	8	Half Time (50%)
58%	7	
50%	6	
42%	5	Less than Half Time (Cal Grant requires a minimum of 6 units)
33%	4	
25%	3	
17%	2	
8%	1	

Full-Time Definition

A study program of 12 units or more is considered a full-time study program for the fall or spring semesters. Full-time students are eligible to receive the maximum Pell Grant.

For financial aid enrollment status evaluation, winter semester units are added to the fall unit load.

Federal Recalculation Requirements

Disbursements are adjusted if there are changes in the enrollment status on the Pell Recalculation Date (PRD). Disbursements will be adjusted if enrollment increases or decreases. Disbursement for late-starting classes cannot be issued until the class begins. After the PRD of each semester, no further award adjustments can be made based on late enrollment. The only exception to this rule is the winter semester courses, which start after the PRD and are eligible for disbursement. Students must complete the courses to be eligible for the disbursement.

Determining Financial Need

The type of financial aid and amount awarded will be determined by the LACC Financial Aid Office according to federal, state, and institutional regulations. Most financial aid awards are based on demonstrated financial need, which is calculated using this formula:

$$\text{Cost of Attendance} - \text{Student Aid Index} = \text{Unmet Need}$$

Financial aid reduces your unmet need, which is the gap between your Cost of Attendance (COA) and your Student Aid Index (SAI). By utilizing federal and state aid programs, along with scholarships and other sources of aid, the Financial Aid Office aims to meet 100% of your unmet need.

Satisfactory Academic Progress Policy**General Information**

To be eligible for federal and state financial aid programs, students are required by the U.S. Department of Education and the State of California to maintain satisfactory academic progress (SAP) as they work toward completing their educational objective (certificate, AA or AS degree, or transfer program). The Los Angeles Community College District (LACCD) has established guidelines to promote timely completion of its educational programs, which are applied to all classes taken in the LACCD. These standards apply to all students who apply for and receive both federal and state financial aid.

Students receiving financial aid must be enrolled in an eligible program. Eligible programs are:

- A program that leads to an associate degree
- A program that is at least a two-year academic transfer program acceptable for full credit toward a bachelor's degree
- A program that leads to an approved certificate of achievement

Satisfactory Academic Progress Standards

- You must maintain a 2.0 cumulative GPA
- You must complete your program within 150% of the published units that are required for its completion
- You must complete 66.5% of all coursework attempted

Fraud

Any student who attempts to obtain financial aid by fraud will be suspended from financial aid for unsatisfactory conduct. The college will report such instances to local law enforcement agencies, to the California Student Aid Commission, and/or to the Federal government. Restitution of any financial aid received in such a manner will be required.

MATRICULATION

The matriculation process is designed to help students identify and achieve their educational goals through a series of structured steps:

1. Admission
2. Online Orientation
3. Self-Placement into English, ESL, and Math courses
4. Counseling
5. Follow-Up Services

As part of this process, students are expected to:

1. Declare a specific educational goal and major
2. Attend classes regularly
3. Complete assigned coursework
4. Maintain satisfactory academic progress toward their educational objectives

Admissions

Students can complete the admissions application online at:

www.laccd.edu/Students/openccapply/applylacc/Pages/default.aspx (See the Admissions section of this catalog for more information.)

For assistance with the application process or to receive general campus information, students may speak with an Outreach staff member at the Welcome Center, located on the first floor of the Student Services Building, or at their high school (if within the LACC service area).

Online Orientation

The LACC Online Orientation introduces students to important campus policies, procedures, academic expectations, financial aid options, support services, and college programs. It is designed to help students make informed decisions about their educational and career goals.

To access the orientation, students must log into their Student Portal. The orientation is available 24 hours a day, 7 days a week and can be completed from any computer with internet access.

Completing the online orientation is required to qualify for priority registration.

For assistance, students can visit the Welcome Center, where Outreach staff are available to help with completing the orientation.

Complete your online orientation at:
www.lacc.edu/admissions/matriculation/orientation

English, ESL and Math placement

Students who apply to the Los Angeles Community College District (LACCD) using CCCApply or update their placement information using the Guided Self-Placement Survey will be placed into tiers (placement levels of courses) in English and Math. Students who choose to complete English as a Second Language (ESL) placement will be placed into an ESL tier as well. Additional information can be found on page 24 of this catalog or at the following website www.lacc.edu/ab-1705-placement-information.

Counseling/ Student Educational Planning

LACC's Career and Academic Pathways can be found at: www.pro-grammap.lacitycollege.edu/academics

Counselors are available to help students identify an academic path—such as foundational skills, a certificate, an associate degree, an associate degree for transfer, or a university transfer pathway) and enroll in courses that will align with their general education, competency and major requirements reflected on the student education plan (SEP).

Ideally, students should meet with a counselor early in their enrollment at LACC to create an SEP that maps out the courses needed to graduate and/or transfer. A counselor will help students evaluate and develop a sequence of courses that will take into consideration prerequisites, corequisites, transcript evaluation, financial means, schedule, and career and academic goals. Failure to complete a student educational plan will impact priority enrollment.

Matriculation Exemptions

Students may be exempt from matriculation core services if they:

- Have earned an associate degree or higher
- Are enrolled at the college for reasons other than career development, advancement, transfer, or completion of a degree or certificate of achievement, or completion of basic skills English or English as a Second Language course sequences
- Are taking classes to maintain a license
- Are concurrently enrolled K-12 students

REGISTRATION

Registration is prioritized in the following order to new and continuing students who are in good academic standing and completed college orientation and an educational plan. LACC follows Board Policy 2900 for enrollment procedures.

- Priority Registration Tier 1: CalWORKs, DSPS/OSS, EOPS, Foster Youth, Active Duty Veterans
- Priority Registration Tier 2: Athletes, Promise, Completion
- Registration Tier 3: Continuing/New Fully Matriculated Students
- Registration Tier 4: Students Who Lost Priority
- Registration Tier 5: Open Enrollment, including K-12 Special Admits

For specific registration dates, visit the Academic Calendar website at www.lacc.edu/academics/calendars.

Registration Appointments

Students continuing from the prior semester will automatically receive an email notification and reminder on their student portal. New and returning students are issued a registration appointment when the application for admission is approved. Registration appointments are not required during the open enrollment period.

Assistance With Enrolling

If you need help enrolling in a class, email the Admissions and Records office at admissions@lacitycollege.edu from your student email account. Use "Add Class" for a subject line and include your name, student number, course name, course number, and permission number from the instructor (if necessary).

Considerations for Enrollment

A number of factors may prevent a student from enrolling in a course:

- Enrollment holds (non-payment of fees, academic dismissal)
- Not having completed a prerequisite
- Concurrent admission form has not been processed (for high school students)
- The student's portal indicates that they are an "alumni," meaning they do not have an active application on file because they have not been enrolled in the last two regular full-term semesters
- The student obtained a grade of A, B, C, CR, P, or I in a previous attempt of a non-repeatable class

Loss of Priority Registration

With the exception of current and former foster youth, a student may lose their priority registration if:

1. They are placed on academic probation for two (2) consecutive semesters; or
2. They completed one hundred (100) or more degree applicable units within LACCD

Appealing Loss of Priority Registration and Loss of California College Promise Grant

After each regular term, the college will send an email notification to students who are subject to the loss of priority registration and California College Promise Grant (CCPG). Students may petition to appeal the loss of priority registration or CCPG by submitting a Petition to Appeal Loss of Enrollment and CCPG that comes with the notification.

A student may appeal on one or more of the following grounds:

1. The student has extenuating circumstances. Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances beyond the student's control.
2. The student applied for reasonable accommodation for a disability, but did not receive it in a timely manner.
3. The student demonstrated significant academic improvement. Significant academic improvement is defined as achieving no less than a 2.0 grade point average in the prior term.

All petitions must be submitted by the established deadline as stated in the notification or in the college website.

The college Priority Registration and Loss of CCPG Appeals Committee will review each petition and inform the student of the outcome within ten (10) business days after the review of petition. The decision of the Priority Registration and Loss of CCPG Committee shall be final.

Late Registration

(LACCD Administrative Procedure 5070)

If a class has available space, students can enroll in the class through the second day of the semester.

If a class is full and the wait list is full, a student may register for a class with permission from the instructor. The late registration process occurs during the first two weeks of the semester. Students wishing to add a class should show up on the first day of the class and obtain a permission number from the instructor or send an email to the instructor. Instructor's emails can be found in the Directory at www.lacc.edu/about/directory. Students can use the permission number to register through the Student Information System (mycollege.laccd.edu).

Limitations on Enrollment

(LACCD Board Policy 4260)

Unless specifically exempted by statute or regulation, every course offered is fully open for enrollment and participation by any person who has been admitted to LACC and who meets the prerequisites (California Code of Regulations Title 5 §55200-55202). Enrollment in specific courses may be limited.

Online Distance Education States

Students from the following states are eligible to take online classes at LACC: Alabama, Arizona, California, Georgia, Hawaii, Idaho, Louisiana, Maine, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, North Carolina, Ohio, South Carolina, South Dakota, Tennessee, Texas, Vermont, Washington, West Virginia, Wisconsin.

Plus US military bases and territories: Armed Forces in the Americas; Armed Forces in Africa, Canada, Europe, and the Middle East; Armed Forces in the Pacific, Marshall Islands.

Concurrent Course Enrollment

Concurrent enrollment in more than one section of the same course during a semester is not permitted, with the exception of certain Kinesiology classes on a limited basis. Concurrent enrollment in courses which are cross-referenced to each other is not permitted (i.e., courses designated "same as" in the District Directory of Educational Programs and Courses). Enrolling in classes scheduled or conducted during overlapping times is not permitted. Violation of this regulation will result in loss of transfer credit. Consult with the department for additional information.

Auditing Classes

Students who have completed an application and who are authorized to register may be permitted to audit a class.

For more information, see the Auditing entry in the "Student Handbook" section of this catalog.

Required form: [Audit Enrollment Request](#)

Email to: admissions@lacitycollege.edu

Wait List

If a class is full and a wait list option is available, a student can use the student portal to request placement on the wait list. As enrolled students drop from the class, students on the wait list will be automatically added to the class.

Students are limited to 12 units of wait list classes. Note that the wait list stops running the Sunday before the class starts; therefore, if you are not enrolled by the first day of class, contact the instructor to request permission to enroll.

Students who are moved from the wait list to an open seat will be removed from a non-repeatable class if they obtained a grade of A, B, C, CR, P, or I in a previous attempt of the same course.

Fourth Attempt Petition

A student may enroll and receive a grade of “W, D, F, NCR, or NP” in the same credit course a maximum of three times. Title 5 Regulation 55024 allows a district to establish a petition process for students attempting this same course a fourth time due to extenuating circumstances, which are defined as “verified cases of accidents, illness, or other circumstances beyond the control of the student.” Petitions will be reviewed on a case-by-case basis and must be approved by both the appropriate academic chair and a counselor.

Fourth Attempt Petitions are accepted during the following periods:

- Spring semester: October 1 to December 1
- Fall semester: April 1 to May 1

Students who have a change of work schedule or other extenuating circumstances may request a section transfer from one class to another class in the same course subject. Section transfers can only occur when both classes have the same start and end dates.

You can request a section transfer by emailing your current instructor, who will submit the request to the Admissions and Records office. Consent must be granted by the new instructor for the new class and may involve instructor-to-instructor transfer of grade records.

Required form: [Fourth Attempt Petition](#)

Email to: admissions@lacitycollege.edu

Cancellation of Classes

The college reserves the right to cancel a class due to an insufficient number of enrolled students prior to the end of the second week of the term.

Dropping Classes and Withdrawing From College

(LACCD Administrative Procedure 5075)

Students may add and drop classes during the designated add/drop period. Each class has unique drop dates. Go to mycollege.edu to log in to your class schedule. Click on Manage Classes. Go to View My Classes. Click on the Class number. Click on Enrollment Information to see the drop deadlines. Contact Admissions and Records at admissions@lacitycollege.edu for any drop date inquiries.

Consult with an academic counselor when considering withdrawal from classes and/or the college. Clearance of the record in courses where equipment has been issued is required when a student separates from such classes. Students may drop individual classes from their student portal. Students who cease attending class or classes, officially or unofficially, are subject to the following regulations:

1. Dropping or withdrawing officially from a class prior to the 20% of the term (10% point in short-term summer, winter, and late-start classes) will prevent classes from appearing on the student's permanent record.
2. Dropping a class after 20% of the term is completed will result in a “W” being recorded on the student's permanent record. It is the student's responsibility to drop before the deadline dates. Excessive “W” grades may lead to financial aid disqualification and college dismissal.

3. Students are not permitted to drop a class or withdraw from the College after 75% of the term. Grades shall be recorded by the instructor based on the student's academic performance during the period of attendance. Students may receive a failing grade in courses in which they stop attending and fail to officially drop or withdraw from the class.
4. Students seeking withdrawal from a class after the “W” deadline for extenuating circumstances should file a general petition in the Office of Admissions and Records. The petition should clearly state the extenuating circumstances and provide supporting documentation.

The Admissions and Records office will review student petitions and notify the student of a decision including verified cases of accidents, illness, or other circumstances beyond the control of the student (i.e., death of an immediate family member, natural disaster, and/or other extenuating circumstances that prevented a student from complying with college course withdrawal policy).

Students wishing to appeal the final decision should review the Student Grievance Procedures, Administrative Regulation E-55.

A “W” (Withdrawal) counts as attempted enrollment. Students are limited to three attempts to repeat the same course.

It is a student's responsibility to drop classes they no longer wish to attend. Failure to drop a class may result in fee charge and/or having grades of “W” or “F” recorded on the official student transcripts.

Excused Withdrawal (EW)

Excused Withdrawal (EW) is withdrawal from a course after the final drop deadline when extenuating circumstances (such as accidents, illness, or other events beyond your control) prevent you from completing it. To request an EW, complete and submit this form to the Office of Admissions and Records. You may do so during the term in which the course(s) are in session.

Prerequisites, Corequisites, and Advisories

PREREQUISITE: A condition of enrollment that a student is required to meet in order to demonstrate readiness before enrolling in a course.

COREQUISITE: A course that a student is required to enroll simultaneously with (or, in some cases, may be allowed to enroll in the corequisite prior to) the primary course.

ADVISORY: A course that a student is advised, but not required, to take in conjunction with or prior to another course. Condition of enrollment that a student is required to meet in order to demonstrate readiness for enrolling in a course or educational program.

Satisfactory Grade

All prerequisites must be completed with a satisfactory grade. A “satisfactory grade” is defined as a grade of A, B, C, or Pass.. If you are currently enrolled in a course that is used as a prerequisite for the subsequent course, you can enroll in the next course while the prerequisite is in progress.

Clearing a Prerequisite or Corequisite

(LACCD Administrative Procedure 4260)

Prerequisite clearance is not automatic when you send official transcripts from an institution outside of LACC to our Admissions and Records office. You may provide a counselor with a copy of an unofficial transcript verifying your name, the accredited college, the course, and the grade earned for review.

Steps for prerequisite clearance:

1. Email the college at prereqs@lacitycollege.edu
2. In the subject line, include: "Your Name – Student ID# – LACC course(s) you intend to take"
3. Attach a copy of your transcript (unofficial is acceptable) that clearly shows the college name, your name, the course title, the term taken, and the final grade received
4. A counselor will evaluate if your coursework meets the stated pre- or corequisite and will clear you accordingly

Challenging a Prerequisite or Corequisite

(LACCD Administrative Procedure 4260)

If you do not meet a stated prerequisite, corequisite, or the equivalent, or you are not permitted to enroll due to a limitation on enrollment, you may seek entry into the course if you can provide satisfactory evidence if space is available in a course when you file a challenge to the prerequisite or corequisite. If no space is available in the course when your challenge is filed, the challenge must be resolved prior to the beginning of registration for the next term(s) and, if the challenge is upheld, you will be permitted to enroll if space is still available in the subsequent term(s).

Submit your prerequisite/corequisite challenge to the appropriate Department Chair.

You have grounds for challenging a pre- or corequisite course if (Title 5 Section 55003 subdivision (p)):

1. The prerequisite or corequisite has not been made reasonably available
2. The prerequisite was established in violation of district approved processes
3. The prerequisite is discriminatory or applied in a discriminatory manner
4. The student has knowledge or ability to succeed in the course despite not meeting the prerequisite
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available
6. Other grounds for challenge may be established by the district governing board.

Regardless of the grounds for the challenge, you have the obligation to provide satisfactory evidence that the challenge should be upheld. However, where facts essential to a determination of whether the student's challenge should be upheld are or ought to be in the college's own records, then the college has the obligation to produce that information.

K-12 Students

Concurrently enrolled middle/high school students are exempt from paying enrollment fees provided they enroll in 11 units or less. If the students enroll in more than 11 units, they will have to pay the enrollment fee.

Fee for Out-of-State Non-Residents

United States citizens and Permanent Resident Card holders who have lived in California for less than a year are required to pay a non-resident tuition fee of \$377 per unit. (Note: Fees subject to change by the California legislature).

Fee Refund Policies

Full-Term Course Fees

A student will automatically receive a full refund of the enrollment fee if they drop by the refund deadline. Thereafter, no refund is authorized, except when college action to cancel or reschedule a class necessitates the drop. After the refund deadline, a student may drop a course and apply the previously paid fee toward the cost of another course to be added during the same semester. Note that after the refund deadline no refunds will be issued even when an added course has fewer units than a course that was dropped.

Short-Term Course Fee

A student will automatically receive a full refund up to the end of a period of time equal to approximately 10% of the total class duration. There will be no refunds after that time, unless a student must drop a class because it was canceled or rescheduled by the college administration.

Non-Resident Tuition Fee

Refunds of non-resident tuition for full-term or short-term courses are governed by the same policies as indicated above. A student will automatically receive a full refund of the enrollment fee if they drop by the refund deadline.

Student Representation Fee

A \$2 student representation fee provides independent support for student-elected governmental affairs representatives to represent the opinions and viewpoints of students regarding education and social issues before city, county and district government offices and agencies at the local, state, and federal level.

This fee helps ensure students have a voice in the government process. Opting out of the \$2 student representation fee reduces the ability of local and state student body organizations to lobby in support or against education-related issues on behalf of students.

Parking Fee

Parking permits may be returned and refunded on or before the semester Drop Deadline. In order to get a refund, permits must be returned, along with a completed refund form, available at the Business Office.

Academic and Progress Probation

(LACCD Board Policy 4250, Administrative Procedure 4250)

The following standards for academic and progress probation shall be applied as required by regulations adopted by the Board of Governors of the California Community Colleges.

Probation and Loss of Fee Waiver

A student enrolled in the LACCD shall be placed on academic or progress probation under the following conditions:

- Academic Probation. The student has attempted at least 12 semester units of work and has a cumulative grade point average below 2.0.
- Progress Probation. The student has enrolled in a total of at least 12 semester units, and the percentage of all units in which the student has enrolled with recorded entries of "W" (Withdrawal), "I" (Incomplete), "NC" (No Credit), or "NP" (No Pass) reaches or exceeds 50%.
- California Promise Grant – loss of eligibility. A student eligible to receive a California Promise Grant shall lose eligibility if they are placed on academic or progress probation for two consecutive semesters. Loss of eligibility shall become effective at the first registration opportunity after such determination is made. Foster youth, or former foster youth under the age of 24, are exempt from the loss of fee waiver due to academic or progress probation.

Removal from Probation and Reinstatement of Fee Waiver

A student shall be removed from academic or progress probation and may have their fee waiver reinstated upon meeting the following criteria:

- Removal from Academic Probation - A student shall be removed from academic probation when his/her cumulative grade point average is 2.0 or higher.
- Removal from Progress Probation - A student shall be removed from progress probation when the percentage of units for which entries of "W" (Withdrawal), "I" (Incomplete), "NC" (No Credit) or "NP" (No Pass) are recorded drops below fifty percent (50%).

A student may retain or reinstate the California Promise Grant based on achieving the minimum grade point average or progress standard defined above in removal from academic probation/removal from progress probation.

Probation: Dismissal, Appeal of Dismissal, and Readmission

(LACCD Administrative Procedure 4255)

Students on academic or progress probation are subject to dismissal, as follows:

Dismissal - Academic Probation

A student who is on academic probation shall be subject to dismissal if the student has earned a cumulative grade point average of less than 2.0 in all units attempted in three consecutive semesters.

A student on academic probation who earns a semester GPA of 2.0 or higher will not be dismissed, provided this minimum GPA is maintained.

“Consecutive semesters” are defined as semesters without a break in enrollment exceeding one full primary term.

Dismissal - Progress Probation

A student who is on progress probation is subject to dismissal if the cumulative percentage of units for which he/she received “W,” “I,” “NC,” and “NP” reaches or exceeds fifty percent (50%) over a period of three (3) consecutive semesters. However, a student who is on progress probation, and during any semester in which the percentage of units with “W,” “I,” “NC,” or “NP” is below 50%, shall not be dismissed as long as the 50% threshold is not surpassed during that term.

“Consecutive semesters” are those where a break in the student’s enrollment does not exceed one full primary term.

Appeal of Dismissal

(LACCD Administrative Procedure 4255)

Students subject to dismissal have the right to file a written petition with the Admissions and Records office to appeal a proposed dismissal action if they experienced extenuating circumstances beyond their control that warrant an exception to the proposed dismissal.

Readmission After Dismissal

(LACCD Board Policy 4250, Administrative Procedure 4255)

A student who has been dismissed must wait two semesters before requesting readmission. The student shall submit a written petition requesting readmission to his/her home college. Readmission may be granted, denied, or postponed based on criteria outlined in administrative procedures and subject to the conditions specified in AP 4255. Readmitted students are returned to probationary status.

ENGLISH, ESL, AND MATH PLACEMENT

California Assembly Bill 1705 (Ed Code 78213) requires that California Community Colleges use multiple methods of placing students to maximize their chances of completing transfer-level English and mathematics coursework in their intended program of study within a one-year timeframe. These methods may include the use of cumulative high school grade point average (HSGPA), high school course grades, and high school courses taken.

Students who apply to the Los Angeles Community College District (LACCD) using CCCApply or update their placement information using the Guided Self-Placement Survey will be placed into tiers (placement levels of courses) in English and Math. Students who choose to complete an English as a Second Language (ESL) placement will be placed into an ESL tier as well. Each tier includes the transfer-level courses cleared for enrollment, as well as optional or required support courses intended to help students succeed in transfer-level coursework in that tier. Students can view their English/ESL (“ET/EP”) placement level and math/statistics (“MT”) placement level on the online student portal. Additional details on these placements and a list of courses available at each tier can be found at www.lacc.edu/ab-1705-placement-information.

English Placement Criteria

The following criteria are used to place students into transfer-level English, which is our ENGL C1000 class. Tier placement is based on the student’s cumulative U.S. high school GPA (HSGPA). All students who provide placement data may enroll in transfer-level coursework and may be recommended to take an embedded or concurrent support course based on the following California Community Colleges Chancellor’s Office (CCCCO) default placement rules. The support course in English is our four-unit English 101Z class, which is three hours of lecture and three hours of lab work.

TIER	PLACEMENT CRITERIA	AB 1705-COMPLIANT PLACEMENT
ET	HSGPA $\geq$ 2.6	No additional concurrent support recommended or required
	HSGPA 1.9 to 2.6	Low unit concurrent support is recommended but not required
ETS	HSGPA < 1.9	Low unit concurrent support is strongly recommended or can be required

English as a Second Language (ESL) Placement Criteria

Each LACCD college uses its own criteria for ESL placement. In most cases, these involve a combination of a CCCC-approved ESL placement assessment and the Multiple-Measures Assessment Project (MMAP) placement criteria, which place students based on their anticipated success rates using high school performance data (like grade point average). Note: ESL placement does not override English placement.

ESL students are recommended to take our guided placement survey to determine which ESL level is best for them. The survey can be found at <https://www.lacc.edu/academics/esl/placement>

Math Placement Criteria

The following criteria are used to place students into the transfer-level mathematics coursework that meets the requirements of their program. Assignment to a tier is based on the student's successful completion ("C" grade or higher) of the following prior high school courses, or an equivalent course recognized through Credit for Prior Learning.

TIER	HIGH SCHOOL PERFORMANCE
MT4	Successful completion of HS Integrated Math 4, Trigonometry, Precalculus, or equivalent
MT2	Successful completion of HS Integrated Math 3, or Intermediate Algebra, or equivalent
MT1	None of the above

In addition, CCCC default placement rules may recommend that students take an embedded or concurrent support course based on the following, depending on the type of math course required for their program of study.

Statistics/Liberal Arts Math

HIGH SCHOOL PERFORMANCE	DESCRIPTION
HSGPA ≥ 3.0	No additional concurrent support recommended or required
HSGPA 2.3 to 2.9	Low unit concurrent support is recommended but not required
HSGPA < 2.3	Low unit concurrent support is strongly recommended

Applied Calculus/Business Calculus/Finite Math

HIGH SCHOOL PERFORMANCE	DESCRIPTION
HSGPA > 2.6	Low unit concurrent support is recommended but not required
HSGPA ≤ 2.6	Low unit concurrent support is strongly recommended

STEM Calculus

HIGH SCHOOL PERFORMANCE	DESCRIPTION
MT4	Low unit concurrent support may be recommended but not required
MT2	Low unit concurrent support strongly recommended and may be required
MT1	Low unit concurrent support strongly recommended and may be required

Students enrolling in STEM Calculus with a high school GPA below 2.6 are strongly encouraged to enroll in Math 261S (Calculus I with Support). For the Statistics/Liberal Arts Math course, students with a high school GPA of less than 2.6 are encouraged to take STAT C1000E (Introduction to Statistics with Support).

Guided Self-Placement

Students who are not able to provide enough information for automated placement, or who did not graduate from a US high school or earn a GED or CA High School Proficiency certificate, will be temporarily assigned a null placement code (EN or MN). To complete their placement (or to update an existing placement), students may use the Guided Self-Placement process. This will involve either 1) completing the English/ESL Placement Survey or Math Placement Survey through the student portal, or 2) meeting with a counselor to discuss topics such as the following in order to receive a placement code:

- Courses taken and grades received
- The transfer-level English and math courses offered at the student's home college, and which of them (if any) are required for the student's chosen major, general education pattern, or transfer plan
- The support courses and services offered to students enrolled in transfer-level courses
- Students' rights under AB 1705 to access transfer-level English and math courses that satisfy a requirement for their intended program of study

The Guided Self-Placement process cannot require the student to take any exam or test, solve any problems, provide any writing samples, or review sample questions, problems, or prompts.

Cal-GETC

Starting Fall 2025, the California General Education Transfer Curriculum (Cal-GETC) is the singular general education pathway for California Community Colleges (CCC) students to fulfill lower-division general education requirements necessary for transfer and admission to both the California State University (CSU) and the University of California (UC). The curriculum and its policies are overseen by the Intersegmental Committee of the Academic Senates (ICAS), representing faculty from California's three segments of public higher education.

Students with catalog rights prior to Fall 2025 can either continue to use previous general education patterns for their degree or choose to switch to the Cal-GETC pattern.

Every effort has been made to ensure the information is accurate and timely. However, this information is unofficial and should be verified against the official information found on the ASSIST website at www.assist.org

Pre-/Corequisites and Major Requirements

Prerequisites, corequisites, advisories, and limitations are necessary to ensure that you succeed in your coursework and have access to the courses they require. It is important to have prerequisites in place where they are a vital factor in maintaining academic standards. It is also necessary to ensure that prerequisites, corequisites, advisories, and limitations do not constitute unjustifiable obstacles towards your access and success. If you place into a course that is part of a sequence you are not required to take any lower-level course in that sequence. This includes any course that is a pre- or corequisite to any course in the same subject or any other subject, or is a prerequisite or requirement for any program.

Math

If you place into MATH 215, STAT C1000 (MATH 227), STAT C1000E (MATH 227S), 217, 229, 230, 236, 245, 251, 258, 260, or 260S you are not required to complete any lower-level math course. If you plan to earn an associate degree and cannot meet math competency through any other approved means, you are required to pass a college course prior to graduation.

English

If you place into a transfer-level English class, such as ENGL C1000 (English 101) you are not required to take any lower-level English course. Since there is no prerequisite for our transfer-level course, you can begin with ENGL C1000. If you feel you have met this English requirement through another means, such as taking an equivalent class at another college outside our district, consult a counselor, the articulation officer, or the English/ESL department. Otherwise, you will need to enroll and pass this course in order to graduate with an associate degree and/or transfer.

If you are an ESL student, you will need to take the Guided Placement to determine which level of E.S.L. classes to enroll in.

See a counselor for more information regarding English, ESL, and math placement.

LEARNING IN YOUR CAREER AND ACADEMIC PATHWAY

Learning Outcomes

A learning outcome is a statement describing what students will be able to do after completing a course, instructional program, student support service interaction, or other college experience. Students are advised to become familiar with the learning outcomes for each of their courses, their chosen program of study, and for the student services they utilize.

Course Student Learning Outcomes (CSLOs)

Course Student Learning Outcomes (CSLOs) describe the skills and abilities a student will have once they have successfully completed a course. Course student learning outcomes can be found on the course syllabus that you receive in each class section.

10. Lifelong & Applied Learning. Apply skills to address unscripted problems and practice intellectual curiosity that values diversity of thought.
11. Technical Proficiency. Demonstrate specific proficiencies with respect to the major field of study.

Assessment of Learning Outcomes

Student learning is assessed on a continuous basis to ensure that students are achieving course and program objectives and acquiring the understanding, skills, and knowledge desired by student support services and administrative services.

Through a systematic student learning outcomes assessment process, faculty members review their courses and make adjustments to improve student achievement. Student support services and administrative services evaluate the effectiveness of services and implement improvements as needed..

Student Union, Second Floor
FYE Window #33
(323) 953-4000 ext. 1335
Email: dualenrollment@lacitycollege.edu
www.lacc.edu/admissions/dual-enrollment

Dual Enrollment is a partnership between the college and local high schools. Dual Enrollment allows students to take college-level courses and earn credit concurrently for both high school and college. This program provides students with the opportunity to experience college-level academics while still in high school. Here's an overview of how a dual enrollment program typically works:

- **Course Selection:** High school partners select courses every semester to be offered at the school site. These courses can vary widely, covering subjects like mathematics, sciences, humanities, social sciences, and more.
- **Eligibility/Application:** Students should demonstrate readiness for college-level work. To join a course students should speak to their high school counselor, apply to the college, and complete a K12 form.
- **College Credit:** Upon successful completion of the course, students earn credits that can be applied toward both college credit and potentially high school graduation requirements. These credits are usually UC and CSU transferable, but policies may vary.
- **Cost:** Dual enrollment courses are free to K12 students.
- **Academic Rigor:** Dual enrollment courses are designed to challenge students academically and provide a preview of the demands of college-level coursework. This experience can better prepare students for the transition from high school to higher education.
- **Benefits:** Participating in a dual enrollment program can have several benefits. It allows students to earn college credits early, potentially reducing the time and cost required to earn a college degree. Courses are transferable to UC and CSU systems. Students can earn credit towards high school graduation requirements. Additionally, it provides exposure to the academic expectations of college, helping students make more informed decisions about their future educational and career paths.
- **Student Support:** High schools typically provide support and guidance to students enrolled in dual enrollment programs. This can include academic advising, counseling services, and assistance with navigating the college admissions process. Students can also access all LACC programs and services including the library, the writing lab, and tutoring.

The Dual Enrollment Program is an excellent opportunity for motivated high school students to accelerate their academic progress and gain valuable college experience before formally entering higher education. It can open doors to future educational and career opportunities while easing the transition from high school to college.

STUDENT HANDBOOK

ACADEMIC POLICIES

Attendance

(LACCD Administrative Procedure 5070)

Regular attendance is a responsibility assumed by every student upon registration. Extenuating circumstances are verified cases of accidents, illnesses, other circumstances beyond the student's control, and other conditions as defined by the Board of Trustees and published regulations. Students who withdraw from classes are responsible for initiating the drop process by appropriate deadlines.

Students are expected to attend the first class meeting. Students who are not in attendance at the first class meeting are considered "no-shows," and faculty may drop such students in order to give their seats to non-registered students seeking to enroll. Also, a faculty member may withdraw a student from semester-length courses at any time for excessive absence through the 9th week of the fall/spring semesters, and the 60% point of the class for summer sessions and courses shorter than a full semester. As a guideline, absence is considered excessive if a student misses three class meetings or the equivalent of one week of class attendance, or according to absence guidelines as published in the course syllabus.

Absence due to a verified illness may be accepted as an excused absence for a limited period of time.

Students should notify faculty by email or phone if absent due to a medical reason. Students are expected to make appointments for medical and dental treatments at times other than when classes are scheduled.

Any drops or exclusions that occur between 30% and 75% of the term will result in a "W" on the student's record, which will be included in the determination of progress probation. Drops are not permitted beyond 75% of the term. An evaluative grade ("A", "B", "C", "D", "F", "P", or "NP") will be assigned to students who are enrolled past 75% of the term even if they stop attending class, except in cases of approved extenuating circumstances. After 75% of the time the class has elapsed, the student may petition to withdraw from class verifying extenuating circumstances.

For more information visit the Admissions and Records website at www.lacc.edu/admissions

Final Examinations

Final examinations are administered in all courses. The final examination schedule for the current semester is available at: www.lacc.edu/academics/class-schedules/final-exam-schedules

Academic Honors

(LACCD Administrative Procedure 4223)

Students who achieve outstanding academic performance are publicly recognized through the LACC Dean's and President's Honors Lists, within the following parameters:

Dean's Honor List Requirements:

- Full-time students (a student enrolled in 12 or more graded units the qualifying semester) must earn a GPA of 3.5 or higher.
- Part-time students (a student enrolled in 6 through 11 graded units) must have completed 12 or more graded units and earn a 3.5 or higher GPA in the qualifying semester.

President's Honor List Requirements:

Students who have appeared on the Full-Time or Part-Time Dean's Honor for three or more consecutive semesters will be placed on the President's Honor List.

Credits earned within the LACCD during the qualifying semester will be used in calculating the grade point average (GPA). Grades of "Credit" (Pass/No Pass) will not be counted in meeting the unit requirement for the Dean's or President's Honor List. Students who think they qualify for either of these honors can go to the Admissions and Records office to verify their eligibility.

Contact the Admissions and Records office with questions or to have your certificate printed at admissions@lacitycollege.edu.

Grading Symbols and Definitions and Conditions for Use

(LACCD Administrative Procedure 4230)

Only the symbols in the grading scale given in this section shall be used to grade all courses.

Grades shall be averaged on the basis of the point equivalences to determine a student's grade-point average, using the following evaluative symbols:

GRADE	DEFINITION	GRADE POINTS
A	Excellent.	4
B	Good.	3
C	Satisfactory	2
D	Less than satisfactory.	1
F	Failing.	0
P	Pass (At least satisfactory – units awarded not counted in GPA) Applies to credit and noncredit courses.	
NP	No Pass (Less than satisfactory – units are not awarded) Applies to credit and noncredit courses.	
SP	Satisfactory Progress towards completion of the course (used for noncredit courses only and is not supplanted by any other symbol)	

Explanation of Symbols Without Impact on Grade Point Average

I - Incomplete

Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. The condition for removal of the “I” and the grade which is assigned in lieu of shall be stated by the instructor in an Incomplete Grade Record.

This record shall be given to the student, with a copy on file in the college Admissions and Records office until the “I” is made up and a final grade assigned, or when one year has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The “I” symbol shall not be used in calculating units attempted nor for grade points. The “I” may be made up no later than one year following the end of the term in which it was assigned. The student may petition for a time extension due to unusual circumstance.

IP - In Progress

The “IP” symbol shall be used only in those courses that extend beyond the normal end of an academic term. It indicates that work is “in progress,” but that assignment of an evaluative symbol (grade) must await the course completion. The appropriate evaluative symbol (grade) and unit credit shall replace the IP symbol once the course is completed.

RD - Report Delayed

The “RD” symbol may be assigned when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. The “RD” may be assigned by the Dean of Student Services only. It is a temporary notation to be replaced by a permanent symbol as soon as possible. “RD” shall not be used in calculating grade point averages.

W - Withdrawal

a. A student who withdraws prior to the expiration of 30 percent of a term, whichever occurs earlier, shall not receive the withdrawal symbol “W” on their transcript. Instructors shall exclude students who are inactive during the first 30% of the term through the first census date for the academic term, as established by the District, by the deadline established by the District (See AP 5070 Attendance).

b. A student who withdraws after this period, but before the expiration of 75 percent of a term, whichever occurs earlier, shall receive the withdrawal symbol “W” on their transcript. Instructors shall exclude students who remained enrolled after the first census date, but who subsequently became inactive students prior to the expiration of 75 percent of the term, by the second exclusion deadline as established by the District.

c. A student who remains in a course beyond the final District withdrawal date for the course may not withdraw and shall receive the appropriate grade symbol on their transcript.

d. The “W” shall not be used in calculating grade point averages but shall be used in determining probation and dismissal of a student (see AP 4250 Probation and AP 4255 Dismissal and Readmission).

e. “Inactive students” include:

- Students identified as no-shows
- Students who officially withdraw
- Students who are no longer participating in the courses and are therefore dropped by the instructor

A student will be permitted to withdraw from a class and receive a “W” no more than three times.

MW - Military Withdrawal

Military withdrawal occurs when a student on active or reserve status in the United States military or National Guard receives orders compelling a withdrawal from courses.

a. Upon verification of such orders, the military withdrawal symbol “MW” shall be assigned to all courses affected by the military withdrawal.

b. Military withdrawals shall not be counted in progress probation and dismissal calculations and shall not be counted toward the permitted number of withdrawals or counted as an enrollment attempt.

EW - Excused Withdrawal

Excused withdrawals shall be allowed to students in extenuating circumstances at any time, upon petition of the student or their representative.

a. “Extenuating circumstances” means cases of accidents, illnesses, or other circumstances beyond the control of the student. Colleges shall proactively engage with the student or their representative to identify available college support services that may mitigate the extenuating circumstances and prevent withdrawal. If mitigation efforts are unsuccessful, the student shall receive the excused withdrawal symbol (“EW”) on their transcript. Students shall not be denied an excused withdrawal due to a college’s inability to respond to the petition or to provide sufficient assistance to mitigate the student’s circumstances.

b. An excused withdrawal shall not be counted in progress probation and dismissal calculations, or toward the permitted number of withdrawals or enrollment attempts.

c. An excused withdrawal shall be assigned if a determination is made that the student withdrew from a course due to unlawful discrimination or retaliation.

Pass/No Pass Option

(LACCD Administrative Procedure 4232)

Students may receive a grade of P (Pass) or NP (No Pass) only in credit courses designated by faculty as eligible for Pass/No Pass grading. This includes credit courses that are graded exclusively on a Pass/No Pass basis or those that offer students the option of earning a Pass/No Pass grade or a letter grade. All other credit courses must be completed with a letter grade. Pass/No Pass grades are not counted in the GPA. For courses in which a student has a choice of grading method, the student must request the grading method change by the last day of instruction. Letter grades are not awarded for noncredit courses, but may be graded on a Pass/No Pass/Satisfactory Progress basis. To earn a passing grade, students must complete coursework at the level of a C or higher.

Common Course Numbering

As required by California Assembly Bill 1111, all California Community Colleges will be adopting a statewide Common Course Number (CCN) system to streamline transfer and help students make informed course selections aligned with degree completion. The goal of Common Course Numbering is to ensure that students can easily identify courses that meet equivalent transfer requirements across all California Community Colleges. This system will eventually assign common numbers, titles, and descriptions for approximately 75 of the most popular transfer courses.

All colleges in the Los Angeles Community College District will be adopting new course numbers and titles for the following courses in Fall 2025 as part of the first phase of the Common Course Numbering project.

PREVIOUS COURSE NUMBER	CCN COURSE NUMBER (EFFECTIVE FALL 2025)
COMM 101 - Public Speaking	COMM C1000 - Introduction to Public Speaking
ENGLISH 101 - College Reading and Composition I	ENGL C1000 - Academic Reading and Writing
ENGLISH 103 - Composition and Critical Thinking	ENGL C1001 - Critical Thinking and Writing
POL SCI 001 - The Government of the United States	POLS C1000 - American Government and Politics
PSYCH 001 - Introductory Psychology	PSYC C1000 - Introduction to Psychology
MATH 227 - Statistics	STAT C1000 - Introduction to Statistics
MATH 227S - Statistics with Support	STAT C1000E - Introduction to Statistics

Although course numbers and titles are changing, the courses themselves retain the same credit and fulfill the same requirements.

You can find more information on these changes at www.lacc.edu/academics/common-course-numbering

Recording of Grade

Students enrolled in a course on a Pass/No Pass basis will receive both course and unit credit upon satisfactory completion of the course. Satisfactory completion is equivalent to the grade of "C" or better. A student with unsatisfactory performance will be assigned a "No Pass" grade.

Grade Point Calculation

Units earned on a Pass/No Pass basis are not included in GPA calculations. However, units attempted for which the "NP" (No Pass) symbol is recorded shall be considered in probationary and dismissal procedures.

Conversion to Letter Grade

Credit earned in a Pass/No Pass course cannot be converted to a letter grade.

Grades and Grade Changes

(LACCD Administrative Procedure 4231)

The instructor of record for the course determines the grade awarded to each student. The determination of the student's grade by the instructor is final unless there is evidence of mistake, fraud, bad faith, or incompetence. For purposes of this section, "mistake" may include, but is not limited to, clerical errors and errors made by an instructor in calculating a student's grade. The removal or change of an incorrect grade from a student's record shall only be done upon authorization by the Instructor of Record for the course, or upon authorization by the College President upon the conclusion of the grade grievance process.

In the case of fraud, bad faith, or incompetency, the final determination concerning removal or change of grade will be made by the College President.

A student may not challenge a grade more than one year after the end of the term in which the course was taken absent extenuating circumstances; if a college's academic senate has determined that extenuating circumstances apply, then that period of time during which grades may be challenged should be more than one year, and such longer period shall apply at that college.

You may request a grade change by submitting a General Petition form.

Required form: General Petition

Email to: admissions@lacitycollege.edu

Academic Renewal

(LACCD Administrative Procedure 4240)

Academic renewal is a process designed to support transfer, degree or certificate completion, and removal from academic probation or disqualification. You must meet with a counselor and complete an academic renewal petition. A maximum of 30 semester units may be disregarded under this policy. Non-degree applicable English, ESL, and math coursework shall not be counted toward the limitation of 30 semester units. Final approval is granted by the Vice President of Student Services or their designee. Academic renewal is irreversible.

You may petition to have your academic record reviewed for academic renewal of substandard academic performance under the following conditions:

1. Only "D" and "F" grades may be disregarded in courses not subsequently completed with a "C" or better at the LACCD colleges.
2. In order to qualify for academic renewal, the student must have completed a minimum of the equivalent of 3 semester units with a 2.0 GPA at any United States regionally accredited institution(s) at any time after the semester or session of the coursework to be disregarded.
3. At least one (1) semester must have passed since the semester or intersession term when the coursework to be disregarded was completed.

If granted, academic renewal shall result in:

1. Eliminating up to 30 semester units of credit degree-applicable coursework taken within the Los Angeles Community College District from consideration in the student's cumulative grade

point average, pre-college level/non-degree applicable English, ESL, and math coursework shall not be counted toward the limitation of 30 semester units,

and

2. Annotating the student's academic record to note which courses have been removed through academic renewal. Academic renewal actions are irreversible.

Updated GPA and units applied through academic renewal cannot be used in determining Satisfactory Academic Progress or for any other purposes related to federal financial aid eligibility. Students shall be advised during academic renewal consultation with a college counselor of these limitations.

Graduation honors and awards are to be based on your cumulative grade point average for all college work attempted.

Academic renewal procedures may not conflict with the District's obligation to retain and destroy records or with the instructor's ability to determine a student's final grade.

Complete an Academic Renewal Petition and meet with a counselor for review and approval of the petition. You or the academic counselor can send the approved petition for processing to the Admissions and Records office.

Required Form: Academic Renewal Petition

Auditing

(LACCD Board Policy 4070)

Students may audit a class under the following conditions:

1. Payment of a fee of \$15 per unit. Students enrolled in classes to receive credit for 10 or more semester units are not charged a fee to audit up to three or fewer semester units. This fee structure is subject to change.
2. No student auditing a course shall be permitted to change his/her enrollment in that course to receive credit for the course.
3. Priority enrollment is given to students taking the course for credit.

Required form: Audit Enrollment Request

Repeatable Courses

(LACCD Administrative Procedure 4225, 4227, 4228)

Certain courses in the college catalog may be repeated for additional unit credit. These courses, marked "RPT" in the "Credit Courses" section of this catalog, allow students to build skills and proficiencies through supervised repetition and in-class practice.

1. Definitions

- a. Active participatory courses: Courses in which individual study or group assignments are the primary means of achieving learning objectives.
- b. Intercollegiate academic or vocational competition courses: Courses designed for participation in non-athletic competitive events between colleges, sanctioned by a formal collegiate or industry body.

- c. Courses related in content: Courses with similar educational activities, separated by skill level or variation, each with distinct learning outcomes.

2. Types of Repeatable Courses

Only the following types of courses may be designated as repeatable:

1. Courses for which repetition is necessary to meet the major requirements of California State University (CSU) or University of California (UC) for completion of a bachelor's degree;
2. Intercollegiate athletics courses (i.e., courses in which a student athlete is enrolled to participate in an organized competitive sport sponsored by the District or a conditioning course which supports the organized competitive sport); and
3. Intercollegiate academic or vocational competition courses, where enrollment in the course and related courses is limited to no more than four times for semester courses, or six times for quarter courses. This limitation applies even if the student receives a substandard grade or a "W" during one or more of the enrollments in such a course or petitions for repetition due to extenuating circumstances.

3. Limits on Enrollment in Repeatable Courses

Students may not enroll in repeatable courses more than three times beyond their first successful completion for credit. The grade received each time shall be included for purposes of calculating the student's grade point average, except if the course is repeated under circumstances identified pursuant to AP 4225 which permits the previous grade(s) to be disregarded.

Limits on Active Participatory Courses

Active participatory courses that do not fall under the categories above are not repeatable. Students may not enroll in active participatory courses in physical education, visual arts, or performing arts that are related in content more than four times. This enrollment limitation applies even if the student receives a substandard grade or "W" during one or more of the enrollments in such a course or petitions for repetition due to extenuating circumstances.

Submit a Repeated Class Petition to Admissions and Records to request grades of D or F be removed from your grade point calculation when you have repeated the class. Only classes repeated within the Los Angeles Community College District are eligible.

Required form: [Repeated Class Petition](#)

Email to: admissions@lacitycollege.edu

Conditions to Repeat a Course

(LACCD Administrative Procedure 4225)

Course Repetition to Remove a Substandard Grade

Students may repeat courses in which substandard grades ("D", "F" or "NC", "NP") were awarded provided the course has not already been attempted three times.

When course repetition under this section occurs, the student's permanent academic record shall be annotated to ensure all coursework remains legible, ensuring a true and complete academic history.

For the first and second repetitions of a course where a substandard grade was awarded, the highest grade earned shall be used when computing the student's cumulative grade point average.

Students who have received three substandard grades for the same course may repeat it one more time upon approval of a filed petition documenting extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student.

Duplicative Credit

Duplicative credit in non-repeatable courses should not be applied toward the 60 units required for graduation regardless of whether or not the student petitioned to have the transcript annotated.

Repetition of Courses In Which a Satisfactory Grade Was Recorded

- a. Repetition of courses for which a satisfactory grade ("A", "B", "C", "CR", "P") has been recorded is permitted only with an advance petition and written approval from the College President, or designee, based on a finding that extenuating circumstances exist which justify such repetition. At the student's option, the previous grade for the course repeated may be disregarded in calculating the student's GPA. Only one repetition for a course due to extenuating circumstances is permitted.
- b. Repeating a course due to significant lapse is permitted if the college has established a recency prerequisite for a course or program, or an institution of higher education to which a student wishes to transfer has established a recency requirement that the student cannot satisfy without repeating the course (defined as a period of at least 36 months since the most recent grade was awarded.). At the student's option, the previous grade for the course repeated may be disregarded in calculating the student's GPA.
- c. When such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, such courses may be repeated for credit any number of times, and the grade received each time shall be included for purposes of calculating the student's grade point average.
- d. Students may repeat a cooperative work experience course any number of times as long as they do not exceed the limits on the number of units of cooperative work experience set forth in Title 5 Section 55253(a).

- e. Students may petition to repeat a course needed for employment or licensing because of a significant change in the industry or licensure standards.
- f. Students with verified disabilities may repeat a special class for students with disabilities any number of times when an individual determination verifies that such repetition is required as a disability-related accommodation for the student for one of the reasons specified in Title 5 Section 56029.

Course Families

(LACCD Administrative Procedure 4227)

Courses in physical education, visual arts, or performing arts that have related content are grouped into a course family. Students may only take four courses within a course family.

Limitations on Awarding Credit

LACC does not grant credit for courses that duplicate the content of previously completed courses or examinations for which credit has already been awarded. College courses may duplicate AP, IB and/or A-Level examinations. Additionally, exams may overlap (for example, an AP or IB exam in the same subject area).

Credit limitations toward the baccalaureate degree are governed by the CSU, UC, and their respective campuses. For UC credit limits visit the "Special Regulations for Courses in Specific Subject Areas" section on the UC Transfer Articulation website at ucop.edu/transfer-articulation/transferable-course-agreements/tca-policy/regulations-by-subject-area.html or contact the Counseling Department for more information.

Credit for courses completed at other institutions inside the United States

(LACC Administrative Procedure 4051)

To receive credit for coursework completed at other U.S. institutions, the college must be accredited by one of the following recognized accrediting agencies:

1. Accrediting Commission for Community and Junior Colleges (ACCJC)
2. The Higher Learning Commission (HLC), formerly North Central Association of Colleges and Schools
3. Middle States Commission on Higher Education (MSCHE)
4. New England Association of Schools and Colleges, Commission on Institutions of Higher Education (NEASC-CIHE)
5. Northwest Commission on Colleges and Universities (NWCCU)
6. Southern Association of Colleges and Schools, Commission on Colleges (SACSCOC)
7. WASC Senior College and University Commission (WSCUC)

Transcripts must be evaluated by the appropriate faculty. Major course requirements for local degrees and certificates of achievement may be substituted or waived solely at the discretion of academic department faculty, provided the total major units do not fall below 18 for a local degree or 16 for a certificate of achievement.

Course substitutions are not required to appear in the college catalog, student information system, or other academic databases. Course substitutions for major requirements for Associate Degrees for Transfer may be recommended by academic department faculty but must be reviewed and approved by the college Articulation Officer. Substitution of coursework required to meet any general education requirements and graduation competency is solely at the discretion of the counseling faculty or Articulation Officer.

Your official transcripts and/or external exams from other institutions must be sent directly to the Admissions and Records office.

Pass Along Credit

LACC does not award credit based on transcripts from third-party institutions. Credit is only considered from the original institution's official academic record.

Credit for courses completed at institutions outside the United States

This policy outlines the process for granting LACCD associate degree general education, graduation competency, and elective unit credit for coursework completed at institutions of higher education outside the United States. This policy does not apply to Associate Degrees for Transfer (ADTs), Cal-GETC. For more information you may refer to LACCD ADT Reciprocity Guidelines, Cal-GETC Standards, CSU Executive Order 1100, or contact the Counseling Department.

1. Students petitioning for credit must provide comprehensive, detailed, course by course evaluation of their transcripts completed by an independent transcript evaluation service approved by the California Commission on Teacher Credentialing.
2. Students may receive credit for LACCD General Education Plan, except for area 4a American Institutions.

Credit for External Examinations

(LACCD Administrative Procedure 4236, 4237, 4238)

Advanced Placement (AP), International Baccalaureate (IB), and College-Level External Examinations (CLEP) may be used to satisfy general education and graduation competency requirements for the associate degree. Refer to the LACCD AP, IB, and/or the CLEP located in the Academic Policy section of this catalog. Contact the Counseling Department for assistance.

(LACCD Administrative Procedure 5520)

The purpose of this Administrative Procedure is to provide uniform procedures to assure due process when a student is charged with a violation of the Standards of Student Conduct. These provisions do not apply to grievance procedures, student organization councils and courts, or residence determination and other academic and legal requirements for admission and retention. Disciplinary measures may be taken by LACC independently of any charges filed through civil or criminal authorities, or both.

General Policy

The Los Angeles Community College District faculty, staff and administration are dedicated to maintaining an optimal learning environment; the standards of behavior as outlined in Board Policy 5500 ("Standards of Student Conduct") are essential to the maintenance of a quality college environment. These standards apply to all current students on campus, or other college property or while attending any college-sponsored classes, activities or events. Violation of such laws, policies, rules and regulations or behavior adversely affecting suitability as a student, will lead to disciplinary action. Former students may also be disciplined for violating the District's standards of behavior or other college property or at a college-sponsored activity or event.

Disciplinary Action

The College may take appropriate disciplinary action in response to student misconduct as defined by the violation of the Standards of Student Conduct.

Academic Freedom

(LACCD Board Policy 4030)

Academic freedom is defined as the freedom to teach, learn, research, and express one's views without fear of sanction, whether such expression takes the form of speech, writing, electronic communication, or the like, and whether it occurs on campus or off campus. The right to academic freedom, however, cannot be separated from the equally important responsibility, which each individual has, to uphold the District's professional ethics policies for faculty, administrators, and staff, and in the case of students, to abide by the District's Standards of Student Conduct.

The District recognizes that an essential function of education is a probing of received opinions and an exploration of ideas which may cause some students discomfort. However, academic freedom does not permit prohibited discrimination, racist expression, unlawful harassment, or sexual misconduct, nor does academic freedom excuse the perpetuation of racism, sexism, homophobia, or any other forms of bigotry and hate. Finally, the discussion of ideas,

taboos, behavior or language which may be intrinsic to the content of courses shall in no event constitute prohibited discrimination, racist expression, unlawful harassment, or sexual misconduct.

Student Rights and Grievances

(LACCD Administrative Procedure 5530)

The purpose of this regulation is to provide a prompt and equitable means for resolving student(s) grievances. In the pursuit of academic goals, the student should be free of unfair or improper action by any member of the academic community. The grievance procedure may be initiated by one or more students who reasonably believe to have been subject to unjust action or denied rights involving their status or privileges as students.

It is the responsibility of the student(s) to submit proof of alleged unfair or improper action. Grievances pertaining to grades are subject to the California Education Code Section 76224(a) which states:

When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith or incompetency, shall be final.

This grievance procedure does not apply to the challenge process for prerequisites, corequisites, advisories and limitations on enrollment; alleged violations of sexual harassment; actions involving student discipline; alleged discrimination on the basis of the ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; an appeal for residency decision; the eligibility, disqualification or reinstatement of financial aid; student discipline; freedom of the press; or employee discipline.

The role of the ombudsperson is that of a facilitator of the grievance process, and not that of an advocate for either the grievant(s) or respondent(s). During the informal resolution stage of the grievance process, the ombudsperson will facilitate informal meetings and discussions that may lead to a resolution of the grievance.

Statute of Limitations

The statute of limitations period for requesting a Grievance Hearing under this regulation is one hundred twenty (120) calendar days after the occurrence of the incident giving rise to the grievance; or one hundred twenty (120) calendar days after the student learns, or should have learned, that the student has a basis for filing a grievance.

For more information about student grievances visit the website at: www.lacc.edu/campus-life/campus-safety/student-conduct/student-grievances or send an email to ombudsperson@lacitycollege.edu

Family Education Rights and Privacy Act

(LACCD Administrative Procedure 5040)

The Family Educational Rights and Privacy Act (FERPA) affords students the following rights with respect to their educational records:

1. The right to inspect and review the student's education records which includes discipline records, within 45 days from the date the College receives a request for access.

Students may submit to the Admissions and Records office written requests that identify the specific record(s) they wish to inspect. Within 45 days, the Admissions and Records office will make arrangements for access and will notify the student of the time and place where the records may be inspected.

Education records are those records that are directly related to students and are maintained by the College. Students may not inspect education records pertaining to parents' financial records and certain confidential letters or recommendations.

2. The right to request an amendment of the student's educational records which the student believes to be inaccurate, misleading or otherwise in violation of the student's privacy rights.

With the exception of grade grievances, which are handled through Administrative Regulation E-55, students may ask the College President, or his/her designee to amend a record that they believe is inaccurate, misleading, or in violation of their privacy rights. A student seeking to amend an educational record should write to the College President and clearly identify the part of the record he/she wants changed, and specify why it is inaccurate, misleading, or in violation of his/her privacy rights.

If the College President, or his/her designee, decides not to amend the record as requested by the student, the College, in accordance with section 99.21 of the Code of Federal Regulations and section 76232 of the Education Code, will notify the student of the decision and of his/her right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA and California law authorize disclosures without consent.

If a student authorizes the release of his/her education record to a third party, he/she shall provide a dated written consent to the Admissions and Records office authorizing said release with a specific list of the information to be released.

Federal and California law authorizes certain disclosures of personally identifiable information without a student's written consent. One such exception is the disclosure of personally identifiable information to school officials with legitimate educational interests. School officials with legitimate educational interests are employees or agents of the Los Angeles Community College District who need to review educational records in order to fulfill their professional responsibilities.

4. The right to restrict disclosure of personally identifiable information that the College has designated as directory information which may be released without the written consent of the student.

Directory information may be disclosed without a student's consent unless the student has notified the college that he/she does not want all or portions of the directory information

released. To do so, the student must submit the appropriate District form to the Admissions and Records office requesting that some or all of the categories of directory information not be released without his/her consent. This form must be submitted in accordance with College policy.

The Los Angeles Community College District has designated the following student information as directory information:

- a. The student's name, city of residence, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended by the student;
- b. Student employee records may be released in order to comply with collective bargaining agreements;
- c. The names, addresses, and telephone numbers of students or former students may be released to the College Foundation for each college for college-related activities at the discretion of the College President, unless the student or former student has informed the College that such information should not be released. The release of this information is conditioned upon the College Foundation's agreement that such information will be released in accordance with District policy and that information will not be released to third parties;
- d. At the discretion of the College President, the names, addresses, and telephone numbers of students from the College may be released to heads of private and/or public institutions of higher education, or their designees, for the purpose of providing information to students regarding transfer opportunities to those institutions, unless the student has indicated that such information should not be released. The release of this information will be conditioned upon the institution's agreement that student privacy rights under federal and state law will be protected and that information will not be released to third parties.
5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Free Speech Areas and Campus Access

I. Background

Education Code Section 76120 requires the Board of Trustees to adopt rules and regulations relating to the exercise of free expression by students upon the premises of each Community College campus. This section requires that these rules and regulations include provisions for the time, place, and manner for conducting free speech activities. The Board of Trustees has delegated to the Chancellor the responsibility for developing and implementing the required free speech rules and regulations on each LACCD campus.

The Chancellor, or his/her designee, shall work with each College President to identify campus areas available for student expressive activity and to develop the required time, place and manner regulations applicable to the exercise of free expression by students. In addition, the College President at each College shall identify a portion of his/her college campus as a Free Speech Area(s), and develop appropriate regulations to govern the use of such area(s). The identified Free Speech Area(s) is/are areas available to all persons for First Amendment activities, including the distribution of free literature or materials, and obtaining petition signatures.

The purpose of these regulations is to foster free speech, assembly, and other expressive activities, while addressing the need of each Community College campus to make necessary arrangements to assure that such activities do not interfere with the College's mission and operations or with the rights of others. Accordingly, these regulations are intended to facilitate peaceable assembly, the expression of ideas and opinions, and the distribution of materials, while ensuring the safe, orderly and peaceful flow of College business and activities.

Each campus shall have copies of this Administrative Regulation, copies of the campus time, place and manner regulation, and copies of the campus map identifying the FSA(s) and areas available for student expressive activity on hand at all times. Copies of this Administrative Regulation, the campus map, and the campus regulation shall be provided to persons seeking to use these areas.

II. Accessing the Free Speech Area(s)

The location of the Free Speech Area(s) on each College campus is/are identified on the College's campus map. The Office of Student Services or similar office is also identified on the campus map. A copy of the campus map is available online on each College's website. Any visitor (defined as any persons unaffiliated with LACCD) seeking access to a College's Free Speech Area(s) shall first report his/her/their presence to the Office of Student Services, or similar office, identified on the campus map. The visitor or organization representative shall be provided: 1) a copy of this Administrative Regulation; 2) a copy of the campus time, place, and manner regulation; and 3) a copy of the campus map. The visitor or organization representative shall be asked to complete a "Voluntary Acknowledgment Form." Representatives of organizations will also be asked to identify the organization and indicate the number of persons expected to visit the Free Speech Area(s).

Completing the "Voluntary Acknowledgment Form" is completely voluntary and is available in the Office of Student Life located in the Student Union Building. No person or organization will be denied access to the FSA(s) for refusing to complete the "Voluntary Acknowledgment Form." The form is not a permit to use a Free

Speech Area. The information provided on the form will be used to document your presence on campus, assess the need for security, and address capacity issues and overcrowding.

Catalog Rights and Continuous Attendance

College catalogs cover an academic year that begins with the fall term and includes the subsequent winter, spring, and summer terms. Having "Catalog Rights" means that students may choose to follow the graduation requirements listed in the catalog in effect at the time they begin enrollment in the Los Angeles Community College District (LACCD), or from any subsequent catalog year during which they maintain continuous attendance.

Continuous attendance is defined as enrollment in at least one term (fall, winter, spring, or summer) each academic year at any regionally accredited post-secondary institution in the United States. Courses with a grade of "W" (Withdrawal) count toward maintaining continuous attendance. Both credit and noncredit coursework are applicable.

Students who receive a "MW" (Military Withdrawal) or an "EW" (Excused Withdrawal), as defined under Board Policy 4230: Grading and Academic Record Symbols, will be considered to have maintained continuous attendance for the duration of their military service or excused withdrawal period.

Exceptions to the Catalog Rights policy may be granted at the discretion of the Articulation Officer on a case-by-case basis.

Associate Degrees

Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T)

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) are for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees are guaranteed priority consideration for admission to the CSU system, but not necessarily to a particular campus or major.

Students transferring to a CSU campus that accepts the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree, unless the major is designated as a high-unit major.

Students intending to transfer to a particular CSU campus or a university that is not part of the CSU system should consult with a counselor for more information on university admission and transfer requirements.

Requirements:

(LACCD Administrative Procedure 4100)

The following is required for all AA-T and AS-T degrees:

1. Minimum of 60 CSU transferable semester units.
2. Minimum grade-point average (GPA) of at least 2.0 in all CSU transferable coursework. (While a minimum of 2.0 is required for admission, some majors at specific campuses are impacted may require a higher GPA. Consult with a counselor for more information).
3. Completion of a minimum of 18 semester units in an ADT major. All courses in the major must be completed with a grade of "C" or better or a "P" if the course is taken on a "Pass/No Pass" basis.

4. Completion of the California General Education Transfer Curriculum (Cal-GETC) plan.

Degrees Offered:

For a complete list of Associate Degrees for Transfer offered at LACC, please see page 63 of this catalog.

Associate of Arts (AA) and Associate of Science (AS)

Associate of Arts (AA) and Associate of Science (AS) degrees are for students who wish to complete an associate degree and begin a career. The awarding of an associate degree symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences. Among these are the ability to think and to communicate clearly and effectively both orally and in writing, to use mathematics, to understand the modes of inquiry of the major disciplines, to be aware of other cultures and times, to achieve insights gained through experience in thinking about ethical problems, and to develop the capacity for self-understanding.

Requirements:

(LACCD Administrative Procedure 4100)

The following is required for all AA and AS degrees:

1. Minimum of 60 semester units in a selected curriculum.
2. Minimum grade-point average (GPA) of at least 2.0 or better in all work attempted in the curriculum upon which the degree is based.
3. Completion of at least 18 semester units of study in a major or area of emphasis. Each course counted toward the major requirements must be completed with a grade of "C" or better or a "P" if the course is taken on a "pass/no pass" basis.
4. Completion of 18-27 units (depending on units required for the major) semester units of study in the LACCD General Education Plan. Students may also use California General Education Transfer Curriculum (Cal-GETC) to meet the general education requirement (refer to page 57 for more information)
5. Students must complete no fewer than 12 units within the LACCD. Exceptions to residence requirements for the associate degree may be made by the college president when it determined that an injustice or undue hardship would be placed on the student.

Degrees Offered:

For a complete list of LACC Associate Degrees see page 63 of this catalog.

General Education for Associate Degrees

The Purpose and Philosophy of General Education

Central to all associate degree programs at LACC, general education prepares students to be successful in a dynamic, complex, and multicultural world.

Students who complete general education at LACC will:

- Gain a broad comprehension of the development of knowledge, practice, and interpretive approaches in the arts and humanities, natural sciences, mathematics, and social and behavioral sciences
- Possess the essential academic skills of critical and creative thinking, oral and written communication, quantitative reasoning, and information competency
- Be ethical, self-aware, and productive citizens with an appreciation of aesthetics, cultural diversity, and global issues
- Develop skills and abilities that can be applied to subsequent coursework, employment, and all other aspects of their lives.

Types of General Education

(LACCD Administrative Procedure 4100)

You may complete one of the following general education plans that best fits your program of study:

LACCD General Education

Required to complete the Associate of Arts (AA) and Associate of Science (AS) degrees. This plan is for students who wish to complete an associate degree and begin a career.

California General Transfer Curriculum (Cal-GETC)

Starting Fall 2025, the California General Education Transfer Curriculum (Cal-GETC) is the singular general education pathway for California Community Colleges (CCC) students to fulfill lower-division general education requirements necessary for transfer and admission to both the California State University (CSU) and the University of California (UC).

This general education plan may also be used to meet the general education requirements for any associate degree offered by LACC.

Students with catalog rights prior to Fall 2025 can either continue to use previous general education patterns (e.g., CSU GE-Breadth or IGETC) for their degree or choose to switch to the Cal-GETC pattern.

Students pursuing majors that require extensive lower division major preparation may not find the Cal-GETC option appropriate. Some students may be better served by completing specific lower division major requirements of the CSU or UC campus to which they plan to transfer and the "Golden 4" or "7-course pattern" requirements for CSU and UC admissions, respectively. Please consult with a counselor.

Double-Counting of Coursework

(LACCD Administrative Procedure 4100)

A course may only be counted once for general education purposes. A course may, however, be used to simultaneously satisfy both a general education requirement and a major/area of emphasis requirement.

Some courses may be applicable towards more than one general education plan. Consult with a counselor for more information.

General Education Requirements for Students with Prior Degrees

How to Certify General Education Requirements for Transfer

Cal-GETC Certification

Starting Fall 2025, the California General Education Transfer Curriculum (Cal-GETC) is the singular general education pathway for California Community Colleges (CCC) students to fulfill lower-division general education requirements necessary for transfer and admission to both the California State University (CSU) and the University of California (UC).

This general education plan may also be used to meet the general education requirements for any associate degree offered by LACC.

Students with catalog rights prior to Fall 2025 can either continue to use previous general education patterns (e.g., CSU GE-Breadth or IGETC) for their degree or choose to switch to the Cal-GETC pattern.

Students pursuing majors that require extensive lower division major preparation may not find the Cal-GETC option appropriate. Some students may be better served by completing specific lower division major requirements of the CSU or UC campus to which they plan to transfer and the “Golden 4” or “7-course pattern” requirements for CSU and UC admissions, respectively. Please consult with a counselor.

US History, Constitution, and American Ideals (Optional - CSU Graduation Requirement Only)

Completion of the United States History, Constitution, and American Ideals is a graduation requirement at all CSU campuses.

Complete 1 course from each group below.

US1: AFRO AM 004, 005; CHICANO 007, 008; HISTORY 011, 012, 081, 082

US2/US3: AFRO AM 007; POLS C1000

How to Receive an Associate Degree

If you are applying for an Associate Degree (AA/AS) or Associate Degree for Transfer (AA-T/AS-T), we recommend you see a counselor to review your progress towards completion.

Additional and Concurrent Associate Degrees

(LACCD Administrative Procedure 4100)

Additional Associate Degrees

Students who have previously earned an associate degree or higher from a United States regionally accredited institution will be granted an additional associate degree when the following requirements have been met:

Pursuant to catalog rights (AP4100), completion of all current degree requirements (i.e., scholarship, residency, competency, general education, and major requirements).

Major course requirements completed in previous degrees awarded can be used again for additional degrees. See AP 4051 Acceptance and Evaluation of External Coursework.

There is no limit to the number of additional associate degrees that can be awarded provided that all the above requirements have been met.

Completion of any additional requirements, including new units, as determined by the college.

Concurrent degrees

Concurrent degrees are degrees awarded in the same semester. Students may petition and be awarded concurrent associate degrees in different majors if the following criteria are met:

Pursuant to catalog rights, described above, completion of all current degree requirements: scholarship, residency, competency, general education, and major requirements.

There is no maximum number of concurrent degrees that a student may be awarded.

If a course is a major requirement for each concurrent degree, it may be applied toward satisfaction of each major degree requirement.

Completion of the General Education requirements for one associate degree will fulfill the general education requirements for additional and concurrent degrees, if the same general education pattern applies to the additional or concurrent degree. If each degree requires the completion of different general education patterns, the general education pattern of each degree must be fulfilled. Courses may be applied toward the general education requirements for each additional or concurrent degree.

Transfer

Transfer to the California State University (CSU)

Students intending to transfer to a California State University (CSU) campus should plan a program that meets the graduation requirements of the specific institution which they plan to attend. Consult the catalog issued by the individual CSU campus for a complete description of the curriculum or meet with an LACC academic counselor.

Admission to a CSU campus in a specific major may be accomplished by completing any of the following requirements (consult a counselor for more information):

1. Completing "The Golden Four" (Cal-GETC Areas 1A, 1B, 1C, and 2 with a grade of "C" or higher), 30 units of coursework at a level equivalent to general education courses, and a total of 60 units of CSU-transferable coursework with a minimum 2.0 GPA.

The benefits of this approach are completing the major prep for high unit majors and satisfying the minimum admissions requirements. Note that taking this approach may not satisfy all the requirements for an AA/AS degree and does not guarantee admission to a CSU.

2. Completing an Associates Degree for Transfer (ADT).

The benefits of this approach are priority consideration and guaranteed admission to the CSU system and receiving an associates degree. Note that by taking this approach you are not guaranteed admission to a specific CSU campus.

3. Completing Cal-GETC and a minimum of 60 units of CSU transferable coursework with a GPA of 2.0 or higher.

The benefit of this approach is that all completed courses will be accepted by the CSU and there is no need to take additional lower-division general education courses after transfer.

4. Completing campus-specific GE requirements and a minimum of 60 units of CSU transferable coursework with a GPA of 2.0 or higher.

The benefit of this approach is that all completed courses will be accepted by the specific CSU. Note that by taking this approach you may not be satisfying all requirements for the AA/AS degree and that you may not be guaranteed admission to a CSU.

CSU Major Requirements

LACC may not offer all coursework required for all majors offered at the California State University campuses. Refer to the appropriate California State University catalog for lower division major requirements. Students are also urged to consult with a counselor for current information and to check www.assist.org for approved articulated courses.

Transfer to the University of California (UC)

Students intending to transfer to a University of California (UC) campus should plan a program that meets the graduation requirements of the specific institution which they plan to attend. Consult the catalog issued by the individual UC campus for a complete description of the curriculum or meet with an LACC academic counselor.

Minimum UC Transfer Requirements

Regardless of which UC admission path you take, you must meet the following minimum requirements:

- a. Complete the UC transfer admission eligibility course requirements ("The 7-Course Pattern")
 - Two transferable courses in English composition (UC-E);
 - One transferable course in mathematical concepts and quantitative reasoning (UC-M);

- Four transferable college courses chosen from at least two of the following subject areas: arts and humanities (UC-H), social and behavioral sciences (UC-B), physical and biological sciences (UC-S).
 - Check www.assist.org for courses that meet the UC transfer admission eligibility course requirements.
- b. Complete 60 semester or 90 quarter units of transferable work with a minimum 2.4 grade-point average (minimum 2.8 GPA for out of state or international students). The minimum GPA requirement is campus-based and may be higher than 2.4 depending on the campus.

All courses must be completed with a grade of "C" or better. Credit is allowed for having completed exams administered by the College Board such as Advanced Placement and International Baccalaureate.

Admission to a UC campus in a specific major:

1. Completing minimum UC transfer requirements. Benefits of this approach are completing the major prep for high unit majors and satisfying the minimum admissions requirements. Taking this approach may not satisfy requirements for an AA/AS degree and does not guarantee admission to a UC. You may improve your chances for admission by completing an ADT with Cal-GETC (for some schools) and participating in UC Pathways+.

See <https://admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/preparing-to-transfer/basic-requirements.html> for more information.

2. Completing Cal-GETC in addition to major preparation courses.

The benefits of this approach are that all completed courses will be accepted by the UC and there is no need to take additional lower-division general education courses after transfer.

This policy applies only to those UC campuses, colleges and departments that accept Cal-GETC. For reference, a full table of UC campuses, colleges and departments is available on the UC Admissions Quick Reference Guide (https://admission.universityofcalifornia.edu/counselors/_files/documents/quick-reference-guide-to-uc-admissions.pdf).

3. Completing UC campus-specific GE requirements.

The benefits of this approach is that all completed courses will be accepted by the specific UC. Taking this approach may not satisfy requirements for an AA/AS degree and may not guarantee admission to a UC.

For reference, a full table of UC campuses, colleges and departments is available on the UC Admissions Quick Reference Guide (https://admission.universityofcalifornia.edu/counselors/_files/documents/quick-reference-guide-to-uc-admissions.pdf).

NOTE: You may improve your chances for admission to a specific UC campus by completing a transfer admission guarantee (TAG). Six of the 9 UCs participate in this guarantee. See a counselor for more information.

Transfer to Private Universities

Transfer admission requirements of private colleges and universities vary, as do course transferability and course credit allowed. You should consult the catalog of your intended transfer institution for specific transfer admission requirements and articulation of courses, including general education, major preparation, and electives. To ensure that you transfer in a timely manner, consult with a counselor or visit the Transfer Center (Student Services Building, 2nd Floor) for further assistance and information. Articulation agreements have been established with many private colleges and universities that allow students to complete the general education and breadth coursework requirements at LACC prior to transfer. Those agreements are found on the Articulation Agreements page at www.lacc.edu/student-services/transfer-center/articulation.

Some private universities list articulation agreements in ASSIST at www.assist.org.

Transfer to Historically Black Colleges & Universities

The Historically Black Transfer Project was developed to offer a clear and seamless student pathway from California Community Colleges to targeted Historically Black Colleges and Universities (HBCUs). By preparing to transfer to the University of California or the California State University systems, you may also be eligible for admissions to targeted HBCUs.

If you complete the California General Education Transfer Curriculum (Cal-GETC), earn an associate degree and achieve a 2.5 or higher GPA, you are also guaranteed admissions at the junior level to our HBCU partners.

If you have 30 or more CSU or UC transferable units and a minimum 2.5 GPA, you are also guaranteed admissions with full acceptance of transferable units.

HBCUs are typically much smaller in student size than most of the California public institutions. Many classes are taught by professors rather than teaching assistants, in a nurturing and supportive environment. There also tends to be more opportunities for student leadership development.

All of the HBCUs that have partnered with California Community Colleges are private (except for Lincoln University in Missouri). The tuition costs for private HBCUs are typically a fraction of the costs of private institutions in California.

For more information about transferring to a HBCU, cost of attendance, and other campus facts, visit the UMOJA website at www.lacc.edu/student-services/spr/umoja.

Certificates

Certificate of Achievement

(LACCD Administrative Procedure 4100)

A certificate of achievement is issued in a state-approved program designed for students who are looking for instruction with a high degree of specialization. Certificate programs vary in length and may be pursued on a full-time or part-time basis. Students may complete certificates in Career and Technical Education (CTE) fields, or earn certificates denoting the completion of the Cal-GETC general education requirements. CTE certificate programs are usually one-year educational programs that offer courses needed to prepare students for immediate employment. The Cal-GETC Certificate of Achievement may take up to two years to complete.

Requirements

A grade of “C” or better, or “P” (if the course is taken on a “pass-no pass” basis), is required in all courses that are part of the certificate of achievement.

Students who have completed the degree requirements for which there is a paired Certificate of Achievement or other State approved and transcribed certificate(s), will be awarded the certificate(s) automatically.

Students Who Take Classes at Multiple Colleges in the LACCD

(LACCD Administrative Procedure 4100)

A student may choose to earn a certificate from any college in the LACCD regardless of home college status. While students may meet all requirements for the same certificate at multiple LACCD colleges, as defined by certificate type and major title, only one certificate will be awarded by the LACCD.

How to Receive a Certificate of Achievement

You may submit petitions to evaluate progress towards the completion certificates through the online Student Information System (SIS) portal at mycollege.laccd.edu by clicking on the Academic Records tile and then selecting Petition to Graduate from the menu bar on the left.

Skills Certificate

Students may use a skills certificate for increased job-related specialization, job advancement, or preparation for new employment. Courses that make up a skills certificate may apply toward a certificate program or associate degree.

Requirements

A grade of “C” or better is required in each course.

How to Receive a Skills Certificate

Skills Certificates will be sent by LACCD student email and by mail once through Parchment Diploma services. Admissions and Records will send out certificates automatically once processing is done for the semester. Duplicate or replacement certificates are \$10 and can be ordered online at Parchment.com.

Noncredit Certificates

Noncredit programs (certificates of completion and certificates of competency) prepare basic skills learners, English as a second language learners, workforce learners, disadvantaged populations, and other non-traditional college students to attain the essential knowledge, skills, and abilities to successfully acquire and retain employment, transition to college, and/or effectively explore, plan, and establish career pathways leading to growth opportunities in high demand occupations.

Requirements

Requirements for certificates of competency and certificates of completion may be met by completing all required courses with a grade of “Pass.”

How to Receive a Noncredit Certificate

Certificates are not awarded automatically.

1. You must meet with a noncredit counselor to evaluate your transcripts and submit your certificate petition to the Admissions & Records Office.
2. Admissions & Records will review and approve your certificate(s).
3. Log onto your SIS/Student Portal to confirm that your address is correct.
4. Your certificate will be mailed out to your address on file.
5. You will also receive a copy of your certificate to your student email.

*NOTE: If you petition a certificate within the semester you took the last course, then your certificate will be processed after the semester ends. For example, If you completed a course mid-Spring (April), then Admissions & Records will process it in June.

ABOUT OUR CAREER AND ACADEMIC PATHWAYS

What is a Pathway?

A pathway is a collection of programs of study and support services that enable you to satisfy graduation, transfer, and employment requirements, or earn industry-recognized credentials.

Each pathway has a support team that will work with you on your journey to academic and career success. The team includes an Academic Affairs dean, counselor, and success coach.

Make sure to meet with a counselor to help you define your educational goals and choose classes. Visit the LACC website to connect with your success coach, who can offer guidance through individual and group meetings.

What is a program of study?

A program of study is comprised of a structured sequence of courses, within a specified field of study, that culminates in an Associate of Art or Science (AA/AS) degree, Certificate, transfer readiness, Cal-GETC/CSU certification, or industry-recognized credential.

DENTAL TECHNOLOGY

OVERVIEW

Dental Prosthetic Technology

LACC's Dental Prosthetic Technology program is one of only two California community college programs accredited without reporting requirements by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA). The program is a member of the National Association of Dental Laboratories (NADL).

Using state-of-the-art equipment, experienced faculty, and hands-on instruction, the program prepares students for a successful career in dental technology. Classes cover basic and advanced prosthodontic designs and techniques, incorporating the applications of analogue and digital technologies. Program components include dental anatomy, the science of dental materials, history, ethics, and lab management. The curriculum is designed to prepare students to pass the Recognized Graduate (RG) exam and the Certified Dental Technologist (CDT) Specialty Exams.

The Dental Prosthetic Technology Associate of Science degree and certificate program are identical except that the degree requires additional general education courses. As part of the program, students will complete certificates of achievement in Fixed Prosthodontics and Removable Prosthodontics.

Entrance into the Dental Prosthetic Technology Program:

The first semester of Dental Technology courses prepares the student for entry into the program. The first semester is open to all students who have a high school diploma or GED. Advisories: General Chemistry and Physics.

To enter the program, students are required to complete DEN TEK 100 (Introduction to the Dental Laboratory) which includes a dexterity exam that is designed to measure hand/eye coordination and perception of three-dimensional objects; DEN TEK 101 (Elements of Dental Technology); and DEN TEK 102 (Dental Anatomy and Terminology) with a grade of "C" or better.

Digital Prosthetic Dentistry

The Digital Prosthetic Dentistry certificate of achievement consists of advanced courses in restorative prosthodontics technology and is open to all students who have successfully completed the Dental Prosthetic Technology certificate of achievement at LACC, similar programs accredited by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA), or by demonstrating competencies equivalent with the course objectives of DEN TEK 207, 208, and 401.

Immunizations

In order to minimize the potential for the spread of infectious diseases amongst patients and dental personnel, Dental Technology students and staff are highly encouraged to be immunized against and/or tested for infectious diseases such as mumps, measles, rubella, hepatitis B, and tuberculosis. If you have any questions regarding your immunization status or recommended immunizations for health care workers, consult your personal physician. If you would like to learn more about Dental Technology policies and procedures regarding infection control, you may contact the department at (323) 953-4000 x2500 or 2501, or at www.lacc.edu/academics/departments.

NURSING

OVERVIEW

The LACC Registered Nursing program leads to eligibility for licensure as a registered nurse (RN). The program is accredited by the California Board of Registered Nursing.

The Associate of Science degree is a two-year full-time program that includes theory and clinical courses. Clinical experiences include the opportunity for students to participate in nursing care and treatments of clients in hospitals and other health care facilities.

Admission to the Program

All students interested in the Nursing Program must first attend a mandatory information session. Prospective students should visit the department website for information. Details on Registered Nursing program standards can be found in the E-10 Guidelines at the LACC Nursing and LACCD websites.

The following are required for entry into the program:

1. Completion of prerequisite courses with a grade of "C" or better, posted on the student transcript. Prerequisite courses include: Anatomy 001 (4 units); Physiology 001 (4 units); Microbiology 020 (4 units); Chemistry 060 (5 units) if the student has not completed one-year of high school Chemistry (two semesters each with a "C" or higher); Psychology 001 (3 units); Psychology 041 (3 units); ENGL C1000 (3 units); and MATH 125, the equivalent, or higher (5 units). Students must meet a "cut score" of 80% based on college grade point average (GPA), college English GPA, and core Biology GPA. Students are strongly encouraged to complete Communication Studies 101 (3 units), an American Institutions course (3 units), and a Humanities course (3 units) prior to entering the program, as these are required to graduate.
2. Students must take the Test of Essential Academic Skills (TEAS)—a diagnostic assessment test of basic math, English, reading, and science—and achieve a composite minimum average score of 62% on the first attempt or, on a second attempt, a minimum of 62% in all areas after remediation.
3. Submit a Nursing Program application with proof of high school diploma and/or college degree. If students received their high school diploma from a foreign country and/or are requesting equivalency of foreign college credits to fulfill prerequisites, transcripts must be evaluated for equivalency by an LACCD approved agency.
4. The complete application is reviewed by a selection committee. Should the number of qualified applicants exceed the number of available openings, a simple lottery will be implemented.

NCLEX-RN Exam

Upon graduation, students will be eligible to apply for and take the NCLEX-RN examination. The Board of Registered Nursing may deny licensure on such grounds as being convicted of crime, acts of dishonesty, and fraud or deceit.

The information above may be updated or modified subject to district, state, and/or BRN request. Contact the LACC Nursing Department and visit the LACC Nursing website for additional information.

Radiologic Technology

Department Chair: Julie Washenik
For more information visit:
www.lacc.edu/academics/departments

RADIOLOGIC TECHNOLOGY

OVERVIEW

Radiologic Technology is a health care profession whose practitioners work in hospitals, clinics, free-standing imaging centers, and private offices. The radiologic technologist (radiographer) is a member of the health care team who works directly with the patient and the physician, performing a wide variety of diagnostic x-ray procedures.

A career in Radiologic Technology offers vast opportunities for advancement. The radiographer must be proficient in the knowledge of radiographic exposure, anatomy, patient positioning, the operation of specialized equipment, and the care and management of the patient. The rapid expansion of medical diagnostic imaging has greatly increased the diversity and utility of medical diagnosis. Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California Department of Public Health (CDPH).

The Radiologic Technology curriculum is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the State of California, Department of Public Health. The clinical educational centers are accredited by the Joint Commission for the Accreditation of Health Care Organizations (JCAHO). Los Angeles City College is accredited by the Western Association of Schools and Colleges. Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California, Department of Health Services, Radiologic Health Branch. An advisory committee, composed of Radiologists, Radiologic Technologists, Radiology Administrators, Clinical Instructors and Student Technologists, cooperates with the College faculty and administrators in continuous curriculum development, evaluation, and revision.

ADMISSIONS TO THE PROGRAM

Prerequisite courses for entrance into the Radiologic Technology program are ANATOMY 001; PHYSIOL 001; ENGL C1000; MATH 125, the equivalent, or higher; and RAD TEK 200, 201, 202, and 203. We encourage for you to meet with an LACC Counselor for questions regarding the Math, English, and general education courses.

All LACCD students must also satisfy the general education requirements prior to applying for entry into the Radiologic Technology program (an exception to this rule is if students already possess an

Associate or higher degree from a regionally accredited program). This change corresponds to the ARRT 2015 associate degree requirement.

An application form, to be submitted online through the LACC Radiologic Technology Department website at:

www.lacc.edu/academics/pathways/hs/radiology-dept

Applicants are selected via lottery and are placed on a waiting list. The waiting list selection method was implemented for the first time with the fall 2020 cohort.

ENGLISH

OVERVIEW

The English and ESL (English as a Second Language) Department offers courses in composition and critical thinking, as well as literature courses suitable for university and college transfer. In ENGL C1000, 102, and 103, students develop writing skills that demonstrate strong organization of argument (introduction, thesis, supportive paragraphs, and conclusion), sophisticated criticism and analyses of college level reading, which includes both literary works and philosophical discourses, and proper grammar use with emphasis on word and sentence style.

ENGLISH 127 and courses in the ENGLISH 200 series focus on literature and the creative process, elevating critical thinking skills to include literary theory. These courses promote not only comprehensive learning, but also the lifelong pursuit of knowledge. They provide a mastery of transfer-level skills, so that students achieve their occupational goals and are ready to face increasingly competitive demands of business and industry.

The Creative Writing AA degree allows students to pursue further education in Creative Writing by preparing them to enter into a 4-year program with lower-division courses completed, so a student may focus on their preferred genre and form. The degree program instructs students to distinguish key elements of the four genres (fiction, creative nonfiction, poetry, and playwriting) while incorporating key elements of each genre in their own work. During the program, students will also be tasked to evaluate both student and professional writers' mastery of key elements of the four genres using criteria established by the course texts and by instructor during class lecture and discussions. Students can also gain experience as editors on our college literary journal by selecting content and working on the production and design process. Upon completion, students will have a strong introduction to the scholarship and practice of Creative Writing, allowing them to either continue their education in the field or provide them lower-division credits towards related English degrees. Completing this degree also helps students prepare for employment in many creative fields, including advertising copy writer, bookstore manager, continuity writer, corporate communications director, lawyer, librarian, publication editor, publicity director, publishing agent, teacher/professor, and writer.

OVERVIEW

As we strive to create a more civil public discourse, a more adaptable and creative workforce, and a more secure nation, the humanities and social sciences are the heart of the matter, the keeper of the republic—a source of national memory and civic vigor, cultural understanding and communication, individual fulfillment, and the ideals we hold in common. They are critical to a democratic society. In the Humanities you will develop skills of critical analysis, including gathering evidence and evaluating arguments. You will examine texts and other sources carefully, learning skills that can make your interpretation precise and convincing. We will help you sharpen these skills, which will prove invaluable lifelong, both in your private life and in your career. We will empower you to think for yourself, to learn to work in teams, and to present your case in writing, discussions, and presentations.

EARTH SCIENCES

OVERVIEW

Earth Sciences is comprised of the diverse disciplines of Earth Science, Environmental Science, Geography, and Geology. We use the scientific method to understand Earth and its inhabitants on numerous spatial and temporal scales. Students will recognize and explain fundamental Earth science principles; obtain data from online, library, and field experiences; and obtain technical vocabulary and skills. Earth Sciences courses are intended for both majors and general education, providing opportunities for students to meet Physical Science and Social Science CSU/UC transfer requirements. Our transfer students are represented at CSU, UC, and private universities throughout California and beyond.

Department resources include ArcGIS software, minerals, rocks, fossils, maps, and access to a district-owned 250-acre ecological reserve.

Geography is best described as a “spatial science” in that it employs the use of maps and spatial analysis to understand the world. Introductory courses explore both physical and human patterns via spatial analysis. These components of physical geography (Earth’s weather, climate, and landforms) and cultural geography (population, migration, culture, and industry) are synthesized in courses on the geography of California, and soon-to-come mapping and fieldwork courses.

Geologists study the solid Earth, including Earth materials, Earth history, and the internal and external Earth processes. Earth scientists study the components of the Earth system and their interactions, including the geosphere, hydrosphere, and atmosphere.

MATHEMATICS

OVERVIEW

The LACC Mathematics program offers courses ranging from entry-level to university level, including basic statistics, college algebra, and math for liberal arts and business majors, as well as calculus and ordinary differential equations for STEM majors. Our courses are offered in different sessions: 15-week semesters (Fall/Spring), 5-week Winter session, and 5-week and 8-week Summer sessions. Instructional modalities include in-person, hybrid, online (synchronous and asynchronous) classes which meet from one to four days per week. Classes start early in the morning and finish in late evening to accommodate a variety of schedules.

LACC's student Math Team has placed in the top 5 out of 200 colleges in the National American Mathematical Association of Two-Year Colleges competition for 16 times in the past 20 years. We placed number 1 in the nation for six of those years.

The Mathematics Program is extremely proactive with respect to student support and scholarship. Each spring semester, as part of student encouragement and recognition, the Program awards several merit-based scholarships to students taking transfer-level courses. The amount of the awards is between \$500 and \$1000, with an occasional \$1250 award.

A tutoring lab and four computer laboratories are available for student support and student employment. Many classes use software including MyMathLab. Math Department offers tutoring service in-person in the Pi-Shop Tutoring Center in FH 104 and remotely via zoom. The tutoring support offered by the Pi-Shop has become crucial to the learning of science and mathematics and helping students to reach their academic goals, and the student success rates speak very highly of it.

Tutor position is currently open for employment. This is a great opportunity for individual who have a passion for teaching and helping students succeed academically.

PHYSICS

OVERVIEW

Studying physics will help you develop an understanding and appreciation of the physical world and prepare you for further work in science, engineering, medical, and technical fields. The LACC Physics department offers classes for science and engineering majors, as well as classes and labs for non-science majors which meet transfer requirements to four-year schools. In addition to modern equipment, the department offers research experiences at Cal State LA and JPL (Jet Propulsion Laboratory), access to an on-campus observatory and computer controlled telescopes, and “Star Parties”—special astronomy field trips.

LAW

OVERVIEW

In addition to offering Business Law courses to the student community, the Law discipline also offers the Paralegal Program. The Paralegal Program is approved by the American Bar Association (A.B.A.), which is significant in that the most lucrative paralegal jobs require a paralegal degree or certificate from an A.B.A.-approved paralegal program. We offers two options: an Associate of Arts degree in Paralegal Studies and a certificate of achievement in Paralegal Studies for degree holders. Note that paralegals may not provide legal services directly to the public, except as permitted by law. For more information, contact the Paralegal Program director.

Pathway to Law School**Certificate of Achievement***Major Units: 25**(State Code: 39348; TOP Code: 140100; Academic Plan: C039348D)*

The Pathway to Law School certificate of achievement enhances a student's academic preparation for law school. A law school accredited by the American Bar Association will typically require the completion of a bachelor's degree. However, incorporating this certificate of achievement as one element of undergraduate work substantiates a student's commitment to and preparation for the rigors of law school. Law school admissions officials may consider the certificate of achievement in making their admissions decisions. Course work and the supplemental programming provide students with information about applying to law school after attaining a bachelor's degree, career options with a law degree, common admissions issues for law school applicants; financial planning for law school, and other related matters.

This Certificate of achievement is part of an initiative by the California State Bar to improve access and success for law school applicants.

PROGRAM STUDENT LEARNING OUTCOMES

Upon successful completion of this program, students will be able to:

1. Complete the academic preparation at the lower division level that will be needed for success in law school, and thereafter in using a law degree professionally.
2. Develop awareness of the law school application process, including resources and networks to support them.
3. Preparation to complete a bachelor's degree and attend law school to strengthen the equity, diversity, and inclusivity of people in the legal profession.

POLITICAL SCIENCE

OVERVIEW

When you study Political Science, you will learn about how political power is distributed, how different governments operate and interact, and how rules are made and enforced. You will explore both the "who" of politics (such as politicians, international organizations, and the public) and the "how" (such as elections, political institutions, and public administration). Politics affects virtually every aspect of our lives, including the availability of education, jobs, housing, and healthcare. Whether countries are at war or at peace depends both on what governments do and who supports them. Studying political science can open up a wide range of job opportunities in the public, private, and not-for-profit private sectors. Students interested in careers in business, education, law, journalism, communications, government, or politics more generally will obtain vital knowledge and skills. Students can also get practical skills by doing co-ops with government or organizations as part of their education experience.

OVERVIEW

The Herb Alpert Music Center at Los Angeles City College offers a streamlined curriculum to create a transfer-ready, work-ready, and enriched student community through the Associate in Arts (AA-T) transfer degree that guarantees transfer to four-year CSU institutions, the Associate of Arts (AA) degree in Music, skill-building certificates, and general music education. Our dedicated and experienced faculty teach distinct and creative courses in theory, musicianship, appreciation, history, technology, performance, and techniques for students at all levels.

The Herb Alpert Music Scholarship provides two years of tuition-free study at LACC for all music majors seeking the Music Associate of Arts degree, Music Associate in Arts transfer degree, and certificates of achievement in music. The scholarship is available for qualified in-state, non-resident, and international students.

The Herb Alpert Music Academy (Applied Music Program) is designed for students seeking to transfer to four-year institutions to complete a Bachelor of Arts or Bachelor of Music degree. Music Academy students receive private lessons to prepare them for auditions and performances. Admission into the Music Academy requires a completed application that includes a video audition. Students accepted into the program must be a full-time music major for two years, enroll in required music courses, and fulfill all the expectations required of an Herb Alpert Music Scholarship student.

Through established transfer agreements, Herb Alpert Music Academy students who complete the required courses have a streamlined pathway to the UCLA Herb Alpert School of Music and are provided priority consideration for transfer to the Herb Alpert School of Music at CalArts. Visit the Music Department website for detailed course requirements.

ART

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

Our Art programs prepare students to transfer for upper division study at four-year universities or art schools through Associate of Arts degrees and certificates of achievement. Additional objectives include portfolio preparation and skills training for students who wish to enter into careers in the art, design, and entertainment industries.

Our courses provide a solid foundation in various areas of art. In studio art, we teach drawing, painting, printmaking, ceramics, and sculpture. In commercial art and design, we teach digital art and animation, illustration, graphic design and web design, and storyboarding. Our prize-winning Journalism program invites art students to create for publication, in both print and electronic formats.

The Art Department enjoys a high transfer acceptance rate at prominent university art departments, including those at UCLA, UC Berkeley, USC, and CSULB, as well as at outstanding art schools including Otis Art Institute, CalArts, and Art Center College of Design.

Animation - Foundation

Certificate of Achievement

Major Units: 27

(State Code: 38605; TOP Code: 061440; Academic Plan: C038605D)

The Animation certificate of achievement is a comprehensive study of 2D and 3D animation techniques. Upon completion of the program, students will be able to develop original and effective animation projects using industry-standard tools and methodologies. Students learn about the history of animation and technologies, as well digital design software appropriate for use in motion pictures or on the Internet.

Animators work on animations or special effects for television, film, design, and gaming industries. Students may also work on web projects and may generate animated shorts for a product or company.

The certificate allows students to learn basic computer-based animation—which may incorporate 2D drawing and 3D hand building—while focusing on 2D and 3D computer technologies and the use of digital design and printing software. Students are introduced to computer graphics, texturing, and lighting for animation.

ART HISTORY

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

Art History at LACC supports an interdisciplinary and intercultural approach to art history of all periods and places. We are dedicated to including intersectionality as an approach to understanding art history. By thinking across current categories and boundaries and critically examining art history itself, students are encouraged to question the canon, to rethink the relationships between the periphery and the mainstream, and to practice a socially and politically responsible art history.

How to read a course description

Units

The number of units is based on the number of hours spent inside and outside-of-class.

Lec and Lab

The Lec (lecture) and Lab (laboratory) hours indicate the number of hours spent in class each week during a standard 16-week semester. Students are expected to spend two hours on outside-of-class work for every hour of lecture in class. A modest amount of outside-of-class work may be associated with laboratory courses, though the units awarded are based solely on the work done in class.

Transfer Credit

The transfer credit part of the course description indicates whether the course is articulated and will be accepted for transfer credit at a California State University (CSU) and/or University of California (UC) school. This area also may indicate whether the course satisfies general education requirements for a California State University (CSUGE) and/or University of California (CalGETC) school. This part may also indicate whether the course satisfies a specific general education subject area.

The Course Identification (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signifies that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Students can be assured that a course with a C-ID number will be accepted in lieu of a course bearing the same designation at another community college.

Students should also refer to assist.org to confirm how each course will be credited at a particular CSU or UC for transfer credit.

Prerequisite, Corequisite, Advisory

A *prerequisite* is a course or other condition of enrollment that a student is required to complete prior to enrolling in the primary course. A *corequisite* is a course that a student is required to enroll in simultaneously with (or, in some cases, prior to) the primary or corresponding course. An *advisory* is a course that a student is advised, but not required, to take in conjunction with or prior to the primary course.

Course Description

The course description provides an overview of the topics and body of knowledge that will be covered in the course. It informs a student about the subject matter, approach, breadth, and applicability of the course.

NDA - Non-degree applicable course

A course that does not count towards a student's degree program.

Common Course Numbering (CCN)

As required by California Assembly Bill 1111, all California Community Colleges will be adopting a statewide Common Course Number (CCN) system to streamline transfer and help students make informed course selections aligned with degree completion. The goal of Common Course Numbering is to ensure that students can easily identify courses that meet equivalent transfer requirements across all California Community Colleges. This system will eventually assign common numbers, titles, and descriptions for approximately 75 of the most popular transfer courses.

All colleges in the Los Angeles Community College District will be adopting new course numbers and titles for the following courses in Fall 2025 as part of the first phase of the Common Course Numbering project.

PREVIOUS COURSE NUMBER	CCN COURSE NUMBER (EFFECTIVE FALL 2025)
COMM 101 - Public Speaking	COMM C1000 - Introduction to Public Speaking
ENGLISH 101 - College Reading and Composition I	ENGL C1000 - Academic Reading and Writing

MATH 227 - Statistics	STAT C1000 - Introduction to Statistics
MATH 227S - Statistics with Support	STAT C1000E - Introduction to Statistics

Although course numbers and titles are changing, the courses themselves retain the same credit and fulfill the same requirements.

You can find more information on these changes at www.lacc.edu/academics/common-course-numbering
