Descriptions of the Presentations listed above

All About the CSU

The California State University system is a very large, high-quality public university system known for its affordability and flexible class offerings. There are 23 CSU campuses across the state of California. This session will cover various aspects of the CSU focusing on transfer preparation.

Financial Aspects of Transfer

The application fee is not the only cost to consider when applying for university admission. Let's talk about some additional fees so that you are aware and can plan appropriately.

Transferring to a Private or Out-of-State Institution

There are many things to consider when transferring. But transferring to a private or out-of-state institution adds a different dimension. There are no articulation agreements, there may be non-resident tuition, there are different application deadlines, different applications, etc. If you are considering any of these institutions, attend this session.

Why UC?

The University of California (UC) is a world-class public university system known for its premier academics, selectivity, and research. This session will cover various aspects of transferring to one of the nine UC campuses offering undergraduate education.

UC Transfer Admission Guarantee (UC TAG)

Are you preparing to transfer to a University of California (UC) campus? Then this session is for you! Six UC campuses offer the Transfer Admission Guarantee (TAG) program for California community college students who meet specific requirements. This session will cover the UC TAG process including eligibility requirements and application information.

CSU & UC Application – Information Session

This session will provide an actual presentation on how to navigate the application.

CSU Application

This session gives the student an opportunity to ask questions regarding the completion of the application. The student must have a copy of all transcripts and, if applicable, external examination scores (i.e. AP) because every detail of a course is required to be entered into the application system. Counselors and Interns will be in the room to assist students with applications details.

UC Personal Insight Questions (PIQ)

If you plan to apply to a University of California (UC) campus, this webinar is for YOU! In addition to entering coursework and grades, the UC application requires that students respond in short-answer format to four personal insight questions (PIQ). Join us in this webinar as we review tips and guidelines for answering the PIQ's for the UC application.

UC Application

This session gives the student an opportunity to ask questions regarding the completion of the application. The student must have a copy of all transcripts and, if applicable, external examination scores (i.e. AP) because every detail of a course is required to be entered into the application system. Counselors and Interns will be in the room to assist students with applications details.

Jack Kent Cooke Undergraduate Transfer Scholarship

Each award is intended to cover a significant share of the student's educational expenses – including tuition, living expenses, books and required fees – for the final two to three years necessary to achieve a bachelor's degree. Awards vary by individual, based on the cost of tuition as well as other grants or scholarships they may receive. This highly competitive scholarship includes up to \$55,000 per year to attend a four-year accredited undergraduate school, ability to pursue any area of study, personal advising about selecting a college and navigating financial aid, multifaceted advising about how to transition to a four-year college and maximize the student experience, opportunity to apply for the Internship Stipend program, Conference and Travel Stipend, and Graduate Scholarship
